The Poorhouse Fugitives:

The Poorhouse Fugitives Brian Maidment, 1987 **The Columbia Granger's Guide to Poetry Anthologies** William A. Katz, Linda Sternberg Katz, Esther Crain, 1994 Reference guide to poetry anthologies with descriptions and evaluations of each anthology The Golden Age Ian Inkster, Colin Griffin, Judith Rowbotham, 2017-07-05 In 1850 the Industrial Revolution came to an end In 1851 the Great Exhibition illustrated to the whole world the supremacy of industrial England For the next twenty years Britain reigned supreme From around 1870 Britain began to decline Britain is now a second rate power with strong memories of its former supremacy The above five sentences summarise a common view of the sequencing of Britain's rise and relative fall a stereotype that is challenged and modified in the essays of The Golden Age By concentrating on central aspects of social and industrial change authors expose the underpinnings of supremacy its unsung underside its tarnished gold Major themes cover industrial and technological change social institutions and gender relations in a period during which industry and industrialism were equally celebrated and nurtured Against this background it is difficult to argue for any sudden decline of energy assets or institution nor for any significant move from an industrial society to one in which a hearty manufacturing was replaced by commerce and land sensibility and artifice Early Anthropocene Literature in Britain, 1750-1884 Seth T. Reno, 2020-08-19 This book questions when exactly the Anthropocene began uncovering an early Anthropocene in the literature art and science of eighteenth and nineteenth century Britain In chapters organized around the classical elements of Earth Fire Water and Air Seth Reno shows how literary writers of the Industrial Era borrowed from scientists to capture the changes they witnessed to weather climate and other systems Poets linked the hellish flames of industrial furnaces to the magnificent geophysical force of volcanic explosions Novelists and painters depicted cloud formations and polluted urban atmospheres as part of the emerging discipline of climate science In so doing the subjects of Reno's study some famous some more obscure gave form to a growing sense of humans as geophysical agents capable of reshaping Earth itself Situated at the intersection of literary studies environmental studies and science studies Early Anthropocene Literature in Britain tells the story of how writers heralded and wrestled with Britain's role in sparking the now familiar epoch of humans **More Than Mere Amusement** Catriona M. Parratt, 2001 This groundbreaking study surveys how working class women restricted by gender time and financial means as well as cultural and social tensions managed to find spheres of leisure and recreation Women and the People Helen Rogers, 2017-05-15 Based on extensive new research investigating the range of women's involvement in early nineteenth century popular politics mid Victorian reform and the women's movements of the late century Women and the People makes an original intervention in the historiography of the radical tradition by exploring the interconnections of populism liberalism and feminism Attending to authorship the study argues that the representational forms adopted by radicals were as important as the content of what they said in shaping their self perception their construction of others and the reception of their ideas In fiction poetry and

autobiography as well as in political writing speeches and journalism women reworked radical conventions and imagined new models of political identity participation and authority Though in general radicals appealed to the people women were often positioned as the suffering objects of reform rather than as the agents of change By showing how they challenged or reinforced these conceptions of women and the people the book contends that radical women invoked alternative communities of sex class and nation and helped to remake and discipline the political sphere as they strove to make it their own

Women, Writing, and the Industrial Revolution Susan Zlotnick, 2001-02-21 Industrialization in the eighteenth and nineteenth centuries inspired deep fears and divisions throughout England The era's emergent factory system disrupted traditional patterns and familiar ways of life Male laborers feared the loss of meaningful work and status within their communities and families Condemning these transformations Britain's male writers looked longingly to an idealized past Its women writers however were not so pessimistic about the future As Susan Zlotnick argues in *Women Writing and the Industrial Revolution* women writers foresaw in the industrial revolution the prospect of real improvements Zlotnick also examines the poetry and fiction produced by working class men and women She includes texts written by the Chartists the largest laboring class movement in the early nineteenth century as well as those of the dialect tradition the popular commercial literature of the industrial working class after mid century

Life Writing and Victorian Culture David Amigoni, 2017-09-29 In this collection of interdisciplinary essays experts from Britain and the United States in the fields of nineteenth century literature and social and cultural history explore new directions in the field of Victorian life writing Chapters examine a varied yet interrelated range of genres from the biography and autobiography to the relatively neglected diary collective biography and obituary Reflecting the rich research being conducted in this area the contributors link life writing to the formation of gendered and class based identities the politics of the Victorian family and the broader professional political colonial and literary structures in which social and kinship relations were implicated A wide variety of Victorian works are considered from the diary of the Radical Samuel Bamford to the diary of the homosexual George Ives from autobiographies of professional men to collective biographies of eminent women Embracing figures as diverse as Gandhi Wilde and Bradlaugh the collection explores the way in which narratives contested one another in a society that devoted an abundance of cultural energy to writing about and reading of lives

Nineteenth-Century English Labouring-Class Poets Vol 2 John Goodridge, 2020-04-28 Over 100 poets of labouring class origin were published in Britain in the 18th and 19th centuries Some were hugely popular and important in their day but few are available today This is a collection of some of those poems from the 19th century

Movable Types David Finkelstein, 2018-06-21 This is a study of international print networks developed across the English speaking world over a significant part of the long nineteenth century The first study of its kind

it draws on unique sources from Australasia North America South Africa the British Isles and Ireland to explore how printers interacted and shared trade and cultural identities across international boundaries during the period 1830 1914 Morality mobility mobilisation and solidarity were central to how compositors and print trade workers defined themselves during this period These themes are addressed in case studies on roving printers striking printers and creative printers The case studies explore the cultural values and trade skills transmitted and embedded by such actors the global networks that enabled print workers to travel across continents in search of work and experience the trade actions reliant on mobilization and information sharing across the printing world and the creative ideas that printers shared through such means as memoirs poetry prose and trade news contributions to print trade journals and other public outlets Byron and the Victorians Andrew Elfenbein,1995-03-30 This book is the first full length study of Byron s influence on Victorian writers concentrating on Carlyle Emily Bront Tennyson Bulwer Lytton Disraeli and Wilde It has two emphases theoretical and literary historical Its theoretical project is to revise earlier understanding of literary influence through a demonstration of the ways that institutions of cultural production mediate the access that later writers have to earlier ones Its literary historical project is to suggest the many different responses that Victorian writers had to Byron and to his celebrity in British culture It argues that defining oneself against Byron became a ritual of the Victorian authorial career Victorian writers did not reject Byron outright instead they defined themselves through fictions of personal development away from values associated with Byron towards those associated with themselves as mature Victorian writers *The Poetry of Ernest Jones Myth, Song, and the 'Mighty Mind'* Simon Rennie,2016-05-20 As the last leader of the Chartist movement Ernest Charles Jones 1819 69 is a significant historical figure but he is just as well known for his political verse His prison composed epic *The New World* lays claim to being the first poetic exploration of Marxist historical materialism and his caustic short lyric *The Song of the Low* appears in most modern anthologies of Victorian poetry Despite the prominence of Jones s verse in Labour history circles and several major inclusions in critical discussions of working class Victorian literature this volume represents the first full length study of his poetry Through close analysis and careful contextualization this work traces Jones s poetic development from his early German and British Romantic influences through his radicalization imprisonment and years of leadership The poetry of this complex and controversial figure is here fully mapped for the first time Romanticism and the Rural Community S. White,2013-08-08 The proper organisation of rural communities was central to political and social debates at the turn of the eighteenth century and featured strongly in the 1790s political polemic that influenced so many Romantic poets and novelists This book investigates the representation of the rural village and country town in a range of Romantic texts Writing for Social Change in Temperance Periodicals Annemarie McAllister,2022-11-25 This book suggests alternative ways of looking at what made a writer what people gained from writing and explores the alternative world of temperance periodicals of the nineteenth and early twentieth centuries It introduces some of the now forgotten writers who in their thousands kept the

Victorian periodical presses rolling and the public entertained Locating their writing in the context of their personal commitment the study takes seven prolific writers who were outside what we now think of as the circuits of conventional publication and authorship and looks at how they found ways to make their voices heard Their absorption in a cause led them to forge impressive writing careers in a variety of genres and media focusing around high circulation temperance periodicals Examining their cultural contributions as well as their professional lives confirms the importance of the temperance movement in the second half of the nineteenth century and raises questions about distribution practices and values and distinctions between life and work Cultures of Radicalism in Britain and Ireland John Kirk,2015-10-06 This collection of essays addresses the role of literature in radical politics Topics covered include the legacy of Robert Burns broadside literature in Munster and radical literature in Wales *Victorian Poetry in Context* Rosie Miles,2013-07-04 Victorian Poetry in Context offers a lively and accessible introduction to the diverse range of poetry written in the Victorian period Considering such issues as reform and protest gender science and belief this book sets out the social and cultural contexts for the poetry of a fast changing era Sections on Victorian poetics form and Victorian voices introduce the key literary contexts of poetry s production and poetic innovations of the period such as the dramatic monologue are highlighted At the heart of the book is a focus on the importance of attentive close reading with original readings offered of well known texts alongside those that have recently received renewed attention within scholarship The book also offers an overview of critical approaches to several key texts and discussion of how Victorian poetry has remained influential in the twentieth and twenty first centuries Introducing texts contexts and criticism this is a lively and up to date resource for anyone studying Victorian poetry *Victorian Print Media* John Plunkett,Andrew King,2005-11-24 Victorian culture was dominated by an ever expanding world of print A tremendous increase in the volume of books newspapers and periodicals was matched by the corresponding development of the first mass reading public Victorian Print Media A Reader consists of edited extracts from nineteenth century sources which discuss all aspects of the production and circulation of print media The extracts are organised into themed sections such as authorship and journalism reading spaces and the influence of print **Socialism and Education in Britain 1883-1902** Kevin Manton,2013-05-13 Examines the British socialist movement in the last two decades of the 19th century through its policies on children s education The author reassesses the nature of these policies and comments on the validity of those historiographical models used in analyses of the socialism of this period *The Chimney of the World* Stephen Mosley,2013-04-15 In this innovative contribution to the field of environmental history Stephen Mosley explores the devastating human and environmental costs of smoke pollution in the world s first industrial city
