James Baldwin and Toni Morrison: Comparative Critical and Theoretical Essays Lorraine King, L. Scott, 2006-10-16 This

collection of comparative critical and theoretical essays examines James Baldwin and Toni Morrison's reciprocal literary relationship. By reading these authors side by side this collection forges new avenues of discovery and interpretation related to their representations of African American and American literature and cultural experience. Irving's Dialogism in the Alhambra Mohamed Dellal, 2024-12-06 Cross culture and or multiculturalism have become catchwords and phrases in certain studies within academia but they have mostly become battle grounds for contestation and convergence with contestation of identity cultural authenticity and or supremacy and hegemony. Yet over and above all these skirmishes convergence tends to win the day as it struggles for a cosmopolitan culture and polity albeit very difficult to achieve. The present work follows the same line of thought by trying to bring a new perspective into what it calls cultural dialogism inherent in the corpus of texts borrowed from *The Alhambra* by W. Irving. The texts selected display a dual characteristic: the first is addressed as organic in the sense that the texts reflect some eight hundred years of natural copulation between Muslim culture brought up by Muslim conquerors to the Andalusian Christendom; the second underlines a volition on the part of the author to merge the culture by intruding into the structures of the language and the texts. The present work intends to show that these characteristic hybridities transgress the generic boundaries as well as the cultural one producing a brassage breaking the fixity of the boundaries cultural and other causing brisures and sutures. This endows the texts with a certain liminality that makes it difficult to authenticate them as belonging to either culture. Numinous Subjects Lucy Tatman, 2007-01-01 Part religious studies part feminist theory part philosophy part indescribable such is *Numinous Subjects* Described by the author as a kaleidoscopic exploration of why three gendered figures of the sacred matter within western culture the experience of reading this text truly is akin to gazing through a constantly turning kaleidoscope. Images concepts phrases and quotes are continually revisited recombined though never repeated in quite the same way. From these tumbling constellations arises a new understanding and wary appreciation of the figures of the virgin the mother and the whore. Drawing on the insights of thinkers as diverse as Rudolph Otto Julia Kristeva Simone de Beauvoir and Martin Buber *Numinous Subjects* simultaneously expands and focuses our attention on the myth of the sacred and its implications for female subjects in western culture today.

The Feminine Subject in Children's Literature Christine Wilkie-Stibbs, 2013-12-16 This book builds upon and contributes to the growing academic interest in feminism within the field of children's literature studies. Christie Wilkie Stibbs draws upon the work of Luce Irigaray Helene Cixous Julia Kristeva and Jacques Lacan in her analysis of particular children's literature texts to demonstrate how a feminist analysis opens up textual possibilities that may be applied to works of children's fiction in general extending the range of textual engagements in children's literature through the application of a new poststructural critical apparatus. *The Right to Narcissism* Pleshette DeArmitt, 2013-11-11 This book aims to wrest the concept of narcissism from its common and pejorative meanings egoism and vanity by revealing its complexity and importance. DeArmitt undertakes the work of rehabilitating narcissism by patiently reexamining the terms and figures that

have been associated with it especially in the writings of Rousseau Kristeva and Derrida These thinkers are known for incisively exposing a certain traditional narcissism that has been operative in Western thought and culture and for revealing the violence it has wrought from the dangers of amour propre and the pathology of a collective one's own to the phantasm of the sovereign One Nonetheless each of these thinkers denounces the naive denunciation of narcissism as the dangers of a non negotiation with narcissism are more perilous By rethinking narcissism as a complex structure of self relation through the Other the book reveals the necessity of an impossible self love

The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century Warren Breckman, Peter E. Gordon, 2019-08-29 An authoritative and comprehensive survey of the major themes thinkers and movements in modern European intellectual history

Nietzsche and the Becoming of Life Vanessa Lemm, 2014-10-15 This exciting collection of essays challenges existing interpretations of several key moments of Nietzsche's philosophy Paul Patton Scientia Professor of Philosophy University of New South Wales Australia Throughout his writing career Nietzsche advocated the affirmation of earthly life as a way to counteract nihilism and asceticism This volume takes stock of the complexities and wide ranging perspectives that Nietzsche brings to bear on the problem of life's becoming on Earth by engaging various interpretative paradigms reaching from existentialist to Darwinist readings of Nietzsche In an age in which the biological sciences claim to have unlocked the deepest secrets and codes of life the essays in this volume propose a more skeptical view Life is both what is closest and what is furthest from us because life experiments through us as much as we experiment with it because life keeps our thinking and our habits always moving in a state of recurring nomadism Nietzsche's philosophy is perhaps the clearest expression of the antinomy contained in the idea of studying life and in the Socratic ideal of an examined life and remains a deep source of wisdom about living

The Portable Postmodernist Arthur Asa Berger, 2003 In this volume the author brings together key concepts written by postmodernisms leading figures Lyotard Baudrillard Jameson and others Followed by his own commentary written in concise easy to understand language this book should be invaluable to students and professors alike who will find Berger's style refreshing Organised in 50 segments the subjects run the gamut from James Joyce to Disney culture to punk music Berger weaves these seemingly diverse topics together exploring and exposing postmodernism and its appearance in popular culture

The Mysticism of Ordinary Life Andrew Prevot, 2023 The Mysticism of Ordinary Life presents a new vision of Christian mystical theology offering critical interpretations of the theologians philosophers and intersectional feminists who draw on mystical traditions to affirm ordinary life arguing that everyday experiences of divine grace can be an empowering source of social transformation

New Literary Voices of the Moroccan Diaspora Ieme van der Poel, 2022-09-15 The highly charged debate over Morocco's diasporic minorities in Europe has led to a growing interest in the literary production of these new Europeans This comparative study is the first to discuss together a body of texts including contemporary Judeo Moroccan literature written in French Spanish Catalan and Dutch which have never been studied as a group Faced with such a

variegated field of literary production the aim of this book is not to tie individual works of literature to their national place of origin but to re conceptualize the idea of a Moroccan literature with regard to the transnational and multilingual experiences from which it arises Drawing on a wide range of theoretical insights from Fatima Mernissi s concept of female subalternity to Abdelmalek Sayad s principle of the immigrants absent history this book allows for the re evaluation of the relationship between migration and postcolonial literary studies A careful analysis of the literary techniques used in the texts under scrutiny here highlights their poetic qualities without bypassing their political relevance with regard to the intercultural relations between Morocco and Europe as they are presently unfolding across the Mediterranean and beyond

Normalizing the Balkans Professor Dušan I Bjelic, 2013-01-28 Normalizing the Balkans argues that following the historical patterns of colonial psychoanalysis and psychiatry in British India and French Africa as well as Nazi psychoanalysis and psychiatry the psychoanalysis and psychiatry of the Balkans during the 1990s deployed the language of psychic normality to represent the space of the Other as insane geography and to justify its military or its symbolic takeover Freud s self analysis influenced by his journeys through the Balkans was a harbinger of orientalism as articulated by Said However whereas Said intended Orientalism to be a critique of the historical construction of the Orient by and in relation to the West for Freud it constituted a medical and psychic truth Freud s self orientalizing became the structural foundation of psychoanalytic language which had tragic consequences in the Balkans when a demonic conjunction developed between the ingrained self orientalizing structure of psychoanalysis and the Balkans own propensity for self orientalizing In the 1990s in the ex Yugoslav cultural space psychoanalytic language was used by the Serb psychiatrist politicians Drs Ra kovic and Karad ic as conceptual justification for inter ethnic violence Kristeva s discourse on abject geography and i ek s conceptualization of the Balkans as the Real have done violence to the region in an intellectual register on behalf of universal subjectivity Following Gramsci s and Said s discourse geography Bjelic transmutes the psychoanalytic topos of the imaginary geography of the Balkans into the geopolitics inherent in psychoanalytic language itself and takes to task the practices of normalization that underpin the Balkans politics of madness

Normalizing the Balkans Dušan I. Bjelic, 2016-05-23 Normalizing the Balkans argues that following the historical patterns of colonial psychoanalysis and psychiatry in British India and French Africa as well as Nazi psychoanalysis and psychiatry the psychoanalysis and psychiatry of the Balkans during the 1990s deployed the language of psychic normality to represent the space of the Other as insane geography and to justify its military or its symbolic takeover Freud s self analysis influenced by his journeys through the Balkans was a harbinger of orientalism as articulated by Said However whereas Said intended Orientalism to be a critique of the historical construction of the Orient by and in relation to the West for Freud it constituted a medical and psychic truth Freud s self orientalizing became the structural foundation of psychoanalytic language which had tragic consequences in the Balkans when a demonic conjunction developed between the ingrained self orientalizing structure of psychoanalysis and the Balkans own propensity for self

orientalizations In the 1990s in the ex-Yugoslav cultural space psychoanalytic language was used by the Serb psychiatrist politicians Drs Rašević and Karadžić as conceptual justification for inter-ethnic violence Kristeva's discourse on abject geography and Žižek's conceptualization of the Balkans as the Real have done violence to the region in an intellectual register on behalf of universal subjectivity Following Gramsci's and Said's discourse geography Bjelić transmutes the psychoanalytic topos of the imaginary geography of the Balkans into the geopolitics inherent in psychoanalytic language itself and takes to task the practices of normalization that underpin the Balkans politics of madness *The Colonization of Psychic Space* Kelly Oliver, 2004 Oliver philosophy Vanderbilt U does not attempt to apply psychoanalysis to oppression Rather she transforms psychoanalytic concepts such as alienation melancholy and shame into social concepts by developing a psychoanalytic theory based on a notion of the individual or psyche that is thoroughly social The psyche and the social world are so

Pregnant Bodies from Shakespeare to Ford Katarzyna Burzyńska, 2022-03-24 This book explores how the pregnant body is portrayed perceived and enacted in Shakespeare's and his contemporaries drama by means of a phenomenological analysis and a recourse to early modern popular medical discourse on reproduction Phenomenology of pregnancy is a fairly new and radical body of philosophy that questions the post-Cartesian chasm of an almost autonomous reason and an enclosed and self-sufficient male body as foundations of identity Early modern drama as is argued was written and staged at the backdrop of revolutionary changes in medicine and science where old and new theories on the embodied self clashed In this world where more and more men were expected to steadily grow isolated from their bodies the pregnant body constituted an embattled contradiction Indebted to the theories of embodiment this book offers a meticulous and detailed investigation of a plethora of pregnant characters and their pregnant embodiment in the pre-modern works by Shakespeare Middleton Webster and Ford The analysis in each chapter argues for an indivisible link between an intensely embodied experience of pregnancy as enacted in space and identity shaping processes resulting in a more acute sense of selfhood and agency Despite seemingly disparate experiences of the selected heroines and the repeated attempts at containment of their unruly bodies the ever-transforming and spatial pregnant identities remain loci of embodied selfhood and agency This book provocatively argues that fictional characters experience reflects tangible realities of early modern women while often deflecting the scientific consensus on reproduction in the period Anarchafeminism Chiara Bottici, 2021-11-18 How can we be sure the oppressed do not become oppressors in their turn How can we create a feminism that doesn't turn into yet another tool for oppression It has become commonplace to argue that in order to fight the subjugation of women we have to unpack the ways different forms of oppression intersect with one another class race gender sexuality disability and ecology to name only a few By arguing that there is no single factor or arche explaining the oppression of women Chiara Bottici proposes a radical anarchafeminist philosophy inspired by two major claims that there is something specific to the oppression of women and that in order to fight that we need to untangle all other forms of

oppression and the anthropocentrism they inhabit Anarchism needs feminism to address the continued subordination of all femina but feminism needs anarchism if it does not want to become the privilege of a few Anarchafeminism calls for a decolonial and deimperial position and for a renewed awareness of the somatic communism connecting all different life forms on the planet In this new revolutionary vision feminism does not mean the liberation of the lucky few but liberation for all living creatures from both capitalist exploitation and an androcentric politics of domination Either all or none of us will be free

Between the Psyche and the Social Kelly Oliver, Steve Edwin, 2002 Between the Psyche and the Social is the first collection that specifically features the field of psychoanalytic social theory emerging in and between psychoanalysis feminism postcolonial studies and queer theory and across the disciplines of philosophy literary film and cultural studies This collection of essays takes the psychoanalytic study of social oppression in some new directions by engaging indeed stirring up unconscious fantasies and ethical tensions at the heart of social subjectivity
