the content of news and advertising as well as entertainment using Galician's Seven Step Disillusioning Directions. Each chapter concludes with a Disillusion Digest. While critical of unrealistic portrayals and the damage they can cause unsuspecting media consumers, Galician, a media literacy advocate, is not anti-media. Rather, her goal is to empower consumers to use these portrayals with more awareness of their possible consequences, to resist adopting them as models for actual behavior, and to consciously reframe them into more realistic, productive scenarios. This unique text is an engaging classroom resource for media literacy, media and relationships, and media and society coursework.
