Applications: The Roadmap to Reconfigurable Computing Reiner W. Hartenstein, Herbert Grünbacher, 2003-06-29 This book  
is the proceedings volume of the 10th International Conference on Field Programmable Logic and its Applications FPL held  
August 27 30 2000 in Villach Austria which covered areas like reconfigurable logic RL reconfigurable computing RC and its  
applications and all other aspects Its subtitle The Roadmap to Reconfigurable Computing reminds us that we are currently  
witnessing the runaway of a breakthrough The annual FPL series is the eldest international conference in the world covering  
configware and all its aspects It was founded 1991 at Oxford University UK and is 2 years older than its two most important  
competitors usually taking place at Monterey and Napa FPL has been held at Oxford Vienna Prague Darmstadt London

edition of the European Workshop on Microelectronics Education EWME A steady state regime has now been reached An  
international community of university teachers is constituted they exchange their experience and their pedagogical tools  
They discuss the best ways to transfer the rapidly changing techniques to their students and to introduce them to the new  
physical and mathematical concepts and models for the innovative techniques devices circuits and design methods The  
number of abstracts submitted to EWME 2000 about one hundred enabled the scientific committee to proceed to a clear  
selection EWME is a European meeting Indeed authors from 20 different European countries contribute to this volume  
Nevertheless the participation of authors from Brazil Canada China New Zealand and USA shows that the workshop  
gradually attains an international dimension th The 20 century can be characterized as the century of electron The electron  
as an elementary particle was discovered by J J Thomson in 1897 and was rapidly used to transfer energy and information

Thanks to electron universe and micro cosmos could be explored Electron became the omnipotent and omnipresent almost immaterial angel of our World This was made possible thanks to electronics and for the last 30 years to microelectronics Microelectronics not only modified and even radically transformed the industrial and the every day landscapes but it also led to the so called information revolution with which begins the 21 st century
