*The Mind in Therapy* Katherine D. Arbuthnott, Dennis W. Arbuthnott, Valerie A. Thompson, 2014-02-04 Human mental capacities and processes are the raw materials with which psychotherapists work Thus what cognitive scientists have discovered in recent decades is potentially tremendous value for psychotherapeutic practice But the new knowledge is not readily accessible to therapists who find both language and methodology off putting The Mind in Therapy bridges the gap It offers a comprehensive overview of the relevant range of cognitive activities ranging from complex mental operations such as problem solving decision making reasoning and metacognition to basic functions such as attention memory and emotion The authors integrate key new findings about the interaction between cognition and emotion inhibition and counterfactual thinking processes that loom large in practice Each chapter reviews an area of cognitive research clearly explains the findings and highlights their implications and applications in diverse models of therapy cognitive behavioral psychodynamic humanistic and family Each includes case vignettes that illustrate the ways in which the concepts are important and useful in practice All therapists rely on the human mind to effect the change they seek The clearer understanding of human cognitive capacities idiosyncrasies and limitations their own as well as clients that they will gain from this book will enhance the effectiveness of both beginning and experienced practitioners whatever their orientation **The Practice of Child Therapy** Richard J. Morris, Thomas R. Kratochwill, 2008 Consistent with previous editions this book assembles in a single volume summaries of the treatment literature and treatment procedures of the most common childhood behavior disorders facing persons who practice in applied settings clinics schools counseling centers psychiatric hospitals and residential treatment centers Its 16 chapters cover the historical context of child and adolescent therapy obsessive compulsive disorders childhood depression childhood fears phobias and related anxieties attention deficit hyperactivity disorder academic problems conduct disorder somatic disorders autism spectrum disorder intellectual disabilities children medically at risk sexual and other abuse of children child and adolescent psychopharmacotherapy prevention and child therapy and the law Key features include Treatment Orientation Although some chapters include a discussion of theoretical issues the primary emphasis is on intervention techniques and strategies for changing various behavior and learning problems Case examples are often used to illustrate treatment procedures Empirical Orientation While most authors have adopted a broad based

behavioral or cognitive behavioral orientation they were encouraged to review the entire treatment literature and to construct their presentations on the basis of empirically supported treatment techniques and procedures

Psychopharmacotherapy Chapter The chapter on child and adolescent psychopharmacotherapy focuses on psychopharmacological interventions rather than on which drugs should be prescribed for specific behavior or learning problems Author Expertise Each chapter is written by experts who are well qualified to discuss treatment practices for the specific topic under discussion This book is intended for individuals who have entered or plan to enter the mental health profession or such related professions as counseling special education nursing and rehabilitation It is especially useful for individuals taking child and adolescent therapy and intervention courses and practicum courses Finally it is suitable for persons who work in applied settings including clinics schools counseling centers psychiatric hospitals and residential treatment centers

**Assessment of Marital Discord**

**(Psychology Revivals)** K. Daniel O'Leary, 2013-12-19 Originally published in 1987 this book was designed to present the most recent research data on assessment of various aspects of marriage. Noted authorities on specific assessment areas provide information on conceptual and practical issues in marital assessment. The chapters include assessment of behavior, affect, social cognition, communication, sexual dysfunction, child and marital problems, family assessment. All the chapters include reference to specific assessment measures of the areas covered. In addition, for clinical use, one has been selected by each of the authors to represent a state-of-the-art measure that can be used by clinicians. Reliability, validity, and normative data are presented on these measures, which appear in full in the appendix of the text. O'Leary provides a context for this book in the first chapter of the book and in the final chapter discusses with his co-author how they begin their assessments from the initial phone contact, the assessment battery, the interviews with the clients and the couple, to the evaluation of the therapy sessions by the clients.
