The Practice Of Reading Interpreting The Novel:

The Practice of Reading Derek Alsop, Chris Walsh, 1999-04-19 The Practice of Reading is a lucid and lively examination of the art of interpreting the novel in the context of recent developments in literary theory and criticism Believing that reading is or should be a pleasurable creative activity the authors analyse a range of seven novels from the eighteenth century to the present focusing upon the experiential dimensions of the reading process What is the role of the reader What happens when a novel is read How far does meaning depend on the reader and how far on the text These and other related questions are explored in readings of novels as diverse as Tristram Shandy Pride and Prejudice Great Expectations Daniel Deronda A Portrait of the Artist as a Young Man Beckett's Trilogy and Possession In its insistence upon a return to the practice of close reading the book represents a timely intervention in current literary debates An accessible informative and above all stimulating text for all university and college students of literature

The Practice of Reading Denis Donoghue, 2000-01-01 This lucid and elegantly written book is a sustained conversation about the nature and importance of literary interpretation Distinguished critic Denis Donoghue argues that we must read texts closely and imaginatively as opposed to merely or mistakenly theorizing about them He shows what serious reading entails by discussing texts that range from Shakespeare's plays to a novel by Cormac McCarthy Donoghue begins with a personal chapter about his own early experiences reading literature while he was living and teaching in Ireland He then deals with issues of theory focusing on the validity of different literary theories on words and their performances on the impingement of oral and written conditions of reading and on such current forces as technology and computers that impinge on the very idea of reading Finally he examines certain works of literature Shakespeare's Othello and Macbeth Swift's Gulliver's Travels a passage from Wordsworth's The Prelude a chapter of Joyce's Ulysses Yeats's Leda and the Swan and Coole and Ballylee 1931 and Cormac McCarthy's Blood Meridian demonstrating what these texts have in common and how they must be differentiated through a sympathetic imaginative and informed reading

The Female Reader in the English Novel Joe Bray, 2008-09-25 In the second half of the eighteenth century the female reader was a frequent topic of cultural debate and moral concern This book examines the variety of ways in which women read the social world in the late eighteenth and early nineteenth century novel

Consuming Texts Stephen Colclough, 2007-07-12 This volume explores the history of reading in the British Isles during a period in which the printed word became all pervasive From wealthy readers of amatory fiction through to men and women reading surreptitiously at the Victorian railway bookstall it argues that a variety of new reading communities emerged during this period

Studies in the Rhetoric of Fiction Ana-Karina Schneider, 2015-09-18 Studies in the Rhetoric of Fiction investigates the contemporary novel's relation to its forerunners the picaresques romances and sentimental novels of the 18th century Henry Fielding Laurence Sterne and Jane Austen are stable landmarks while of the contemporary practitioners a handful recur from one chapter to the next particularly Julian Barnes Ian McEwan and Kazuo Ishiguro The chapters share

an interest in the rhetoric of fiction broadly understood as the way in which fictional works achieve their effects on readers whether by directly addressing a hypothetical reader using irony and parody orchestrating competitions between divergent narratives imitating musical structures inviting intertextual readings or openly taking issue with traditional conventions and expectations Chapters focusing on narrative strategy and metanarrative comment therefore alternate with those interrogating reading practices and readerly participation in the rhetorical interchange This collection of essays however does not propose a consistent theory of the rhetoric of fiction nor does it claim any generalisable validity for its findings Rather it consists of a series of readings that address various formal aspects of the novels they focus on showing rhetoric in action pointing out the complex ways in which its means and strategies change in time and across genres and media It restores a sense that whatever old tricks the author or narrator is perceived to be up to they are an invitation to the reader to take part in the fun The book will appeal to students and scholars in the early stages of their research encouraging readings that identify rhetorical strategies that challenge conventional forms and expectations It is therefore largely free of rhetorical terminology making sparing use of it when distinctions must be drawn and the more technical aspects of novels are interrogated *The Practice and Representation of Reading in England* James Raven, Helen Small, Naomi

Tadmor, 2007-09-27 Developments in cultural history and literary criticism have suggested alternative ways of addressing the interpretation of reading How did people read in the past Where and why did they read How were the manner and purpose of reading envisaged and recorded by contemporaries and why Drawing on fields as diverse as medieval pedagogy textual bibliography the history of science and social and literary history this collection of fourteen essays highlights both the singularity of personal reading experiences and the cultural conventions involved in reading and its perception An introductory essay offers an important critical assessment of the various contributions to the development of the subject in recent times This book constitutes a major addition to our understanding of the history of readers and reading *The Word of God for the People of God* J. Todd Billings, 2010 This book fills a real need for pastors and students Though there is currently a large body of material on the theological interpretation of Scripture most of it is highly specific and extremely technical J Todd Billings here provides a straightforward entryway for students and pastors to understand why theological interpretation matters and how it can be done A solid constructive theological work *The Word of God for the People of God* presents a distinctive Trinitarian participatory approach toward reading Scripture as the church Billings's accessible yet substantial argument for a theological hermeneutic is rooted in a historic vision of the practice of scriptural interpretation even as it engages a wide range of contemporary issues and includes several exegetical examples that apply to concrete Christian ministry situations *The Karamazov Case* Terrence W. Tilley, 2023-06-01 This is a new interpretation of Dostoevsky's novel *The Brothers Karamazov* that scrutinizes it as a performative event the polyphony of the novel revealing its religious philosophical and social meanings through the interplay of mentalities or worldviews that constitute an aesthetic

whole This way of discerning the novel's social vision of sobornost a unity between harmony and freedom its vision of hope and its more subtle sacramental presuppositions raises Tilley's interpretation beyond the standard theology and literature treatments of the novel and interpretations that treat the novel as providing solutions to philosophical problems Tilley develops Bakhtin's thoughtful analysis of the polyphony of the novel using communication theory and readers' hearer response criticism and by using Bakhtin's operative image of polyphony to show the error of taking faith vs reason argues that at the end of the novel the characters learned to carry on in a quiet shared commitment to memory and hope

Earl,2017-03-03 Douglas Earl sets out a fresh perspective on understanding what is involved in reading Old Testament narrative as Christian Scripture Earl considers various narratives as examples that model different interpretive challenges in the form of exegetical ethical historical metaphysical and theological difficulties Using these examples the significance of interpretive approaches focused on authorial intention history of composition canonical context reception history and reading context are considered in conjunction with spiritual literary structuralist existential historical critical and ethical critical approaches Christian interpretation of Scripture as Scripture is shown to be an inherently ad hoc task understood as a rule governed practice in Wittgenstein s sense an established goal directed activity for which no method hermeneutical principle or critical perspective discovers meaning or generates good interpretation Good interpretation involves exploration of various construals of the world of the text using hermeneutics of tradition and critique of ideology Ricoeur The interpreter s task is to discern faithful readings and develop their significance in a given intellectual or cultural context The interpretation of Scripture and its appropriation is seen to involve wisdom in forming judgments on a case by case basis learned through examples and experience on what constitutes good interpretation and use Earl shows how traditional hermeneutics and contemporary critical resources suggest that history ethics and theology can rarely be read off Old Testament narrative but also how Christians can appropriate ethically and historically problematic books such as Joshua faithfully adopt a minimalist approach to 1 2 Samuel and embrace a Trinitarian reading of Genesis 1 **The Book of Common Prayer, in Its History and Interpretation; with Special Reference to Points Disputed in the Present Day** Richard Paul Blakeney,1865
