Learning Ritual Magic John Michael Greer, Earl King, Jr., Clare Vaughn, 2004-10-01 Learning Ritual Magic is a training manual for anyone serious about improving their magic based on the Western mystery traditions including tarot, ritual magic, Qabalah, and astrology. What you get out of magic can be measured precisely by what you are willing to put into it, and time is the essential ingredient in successful magical training, the authors write. And just as no one expects to run a marathon or play a Bach violin concerto without sufficient training, so practitioners of the magical arts shouldn't expect to work complex, powerful magical rituals without a solid grounding in the techniques of Hermetic high magic. By spending at least a half hour a day practicing the lessons found in Learning Ritual Magic, the solitary apprentice attains the proper groundwork and experience for working ritual magic. Learning Ritual Magic provides lessons on meditation and a set of exercises designed to develop basic skills in imagination, will, memory, and self-knowledge, all of which are absolute fundamentals to magical attainment. While the authors discuss the essentials of magical theory, they focus on daily, basic perspectives rather than launching into details of advanced practice. Designed for the solitary practitioner, Learning Ritual Magic concludes with a ceremony of self-initiation.

The Transformations of Magic Frank Klaassen, 2013 Explores two principal genres of illicit learned magic in late Medieval manuscripts: image magic, which could be interpreted and justified in scholastic terms, and ritual magic, which could not. Provided by publisher

to its practice notably authorities in religious legal and intellectual spheres This book seeks to provide a new perspective directly from the practitioners of modern Western magic by exploring how a distinctive mode of embodiment and consciousness can produce a transition from an ordinary to a magical worldview Starting with an introduction to the study of magic in the Western academy the book then presents the author's own participant observation of five ethnographic case studies of modern Western magic The focus of these ethnographic case studies is directed towards ideas and methods the informants employ to self legitimise and self represent as magicians It concludes by discussing the phenomenological implications and issues around embodiment that are inherent to the contemporary practice of magic This is a unique insight into the lived experience of practitioners of modern magic As such it will be of keen interest to scholars of the Occult and New Religious Movements as well as Religious Studies academics examining issues around the embodiment and the anthropology of religion

The Practice of Magical Evocation Franz Bardon, 2014-07-28 Throughout the ages and primarily during the past few centuries many lengthy dissertations have been published on the art of higher magic Unfortunately they are for the most part such bewildering and incomplete remnants that very little of it can be taken as a point of reference for practical studies and this only in small fragments The original initiative for magic was known only to a very few lodges and was reserved for a particularly chosen few while for the seekers of truth who searched diligently for any information this subject matter remained dark and mysterious Various religions during the Middle Ages were severely hostile towards any magical knowledge In our history the most prominent examples are the well known Inquisitions Later in modern times magic was regarded as mere superstition and any person who showed some inclination toward this knowledge let alone one seriously concerned himself with the study of magic was regarded as a fool and was ridiculed In the past mystical and other sects maligned magic to such a degree that the word magic has to this very day an extremely dubious reputation And any person who has had an appreciation or understanding for magical knowledge has been pilloried as a black magician In reality true magic was initially taught in the ancient schools of the prophets and then only in the highest circles However only a few select insiders had access to these institutions In those days only a few books occasionally disclosed scant bits of information about true magic These books were deliberately written in such a way that they would disclose little or nothing even to the most astute reader and hence they would not give the seeker of truth a complete understanding of the subject of magic In accordance with the ancient Egyptian Mysteries the magic of the second Tarot card is represented by the High Priestess Franz Bardon the author of The Practice of Magical Evocation gladly continues to guide the serious diligent reader and student of magic along the proper path as long as this person is devoid of any fanatical religious beliefs and erroneous ideology Furthermore this person has to be prepared to penetrate further into the mysteries of the knowledge of magic or the Hermetic sciences As in Franz Bardon's first book Initiation into Hermetics Bardon endeavors to keep the language of this second volume in a style that is understandable to everyone The subject matter of the magic of evocation is among the least known and least investigated branches of the art and therefore Bardon makes certain that every person who reads this book will become completely familiar with this subject matter not only in theory but above all with the practice if he so chooses It

is important however that the reader know that he will not achieve any results with the practice of magical evocation unless he has successfully completed Step VIII at the very least of Franz Bardon's first book *Initiation into Hermetics* which is a description of the first tarot card the Magician Should Franz Bardon be successful in assisting the reader who has successfully completed the entire practical part of his first book to achieve the same good results with this one then Bardon has achieved his objective Those readers who initially study the secret sciences only theoretically will find in this work a satisfactory broadening of their knowledge *Magic, Witchcraft and the Otherworld* Susan Greenwood, 2020-08-02

Anthropology's long and complex relationship to magic has been strongly influenced by western science and notions of rationality This book takes a refreshing new look at modern magic as practised by contemporary Pagans in Britain It focuses on what Pagans see as the essence of magic a communication with an otherworldly reality Examining issues of identity gender and morality the author argues that the otherworld forms a central defining characteristic of magical practice Integrating an experiential ethnographic approach with an analysis of magic this book asks penetrating questions about the nature of otherworldly knowledge and argues that our scientific frameworks need re envisioning It is unique in providing an insider's view of how magic is practised in contemporary western culture
