Christian Theology Mike Higton, Jim Fodor, 2015-03-24 This Companion introduces readers to the practice of Christian theology covering what theologians do why they do it and what steps readers can take in order to become theological practitioners themselves The volume aims to capture the variety of practices involved in doing theology highlighting the virtues that guide them and the responsibilities that shape them It also shows that the description of these practices virtues and responsibilities is itself theological what Christian theologians do is shaped by the wider practices and beliefs of Christianity Written by a team of leading theologians the Companion provides a unique resource for students and scholars of theology alike Colin Gunton's Trinitarian Theology of Culture Andrew Picard, 2024-06-27 Whilst upholding some of the

criticisms of Colin Gunton's work this incisive book argues that there is a Hauptbriefe in Gunton reception that assumes his early classic works *The One the Three and the Many* and *The Promise of Trinitarian Theology* 1st ed are definitive of his project and fail to engage adequately with the progressions in Gunton's later thought Instead this book offers a fresh reading of Gunton by giving greater prominence to his later writings which are centred in the mediation of the Son and the Spirit in creation Andrew Picard argues that Gunton's trinitarian theology of culture emerges from his later trinitarian theology of mediation creation Christology pneumatology and ecclesiology Exploring these doctrinal foci enables an understanding of Gunton's account of faithful human culture as embodied worship a living sacrifice of praise which contributes to the divine redemption and perfection of creation It is the church's particular calling to embody such praise through its visible life in community The study concludes by intersecting Gunton's theology with the social sciences to critique ableism and consider the politics of the church's belonging in community **The Wiley Blackwell Reader in Practical Theology** Bonnie J.

Practice-Led Theology Neil K. Ferguson,2024-03-11 Following a series of economic and political changes in the late 1980s art design schools and performing arts academies were incorporated into the university system To justify their teachings as academic research they developed the idea of practice led research Practice led research recognizes two or more languages that is the validity of both explicit propositional knowledge and embodied tacit knowledge allowing for the researcher s corresponding output expressed through both the written word and relevant practice Christians often find themselves living a life of two languages a set of intellectual beliefs and the practice of being a Christian This book develops this methodology and translates it for use in theological research Most importantly it clearly develops key elements of this methodology using a comprehensive model and detailed definitions This is a book which not only presents a fully articulated and flexible model of practice led research but also presents Christian researchers with an approach they could incorporate into their theological work

The Barth Lectures Colin E. Gunton,2007-07-10 Colin Gunton was world renowned as a scholar systematic theologian and Reformed minister however he never lived to fulfill his ambition to write a book devoted solely to Barth Gunton on Barth is an in depth analysis derived from the lecture course he gave most years at King s College London something of an annual institution it was aimed at undergraduates though the majority of those attending were MA PhD students and researchers from America and Germany Approximately half of the work consists of quotations representing an essential understanding Colin was a

creative lecturer although he worked from notes he gave space to the free rein of his mind particularly when fielding questions or trying to analyze a particular strand of Barth's thought. Colin's understanding and expertise was world renowned. He did not take all Barth wrote uncritically; he struggled and wrestled with this giant of twentieth century theology as he always said at the beginning of the course. Not everyone buys into Barth. I don't all the way along the line as I get older I get more and more dissatisfied with the details of his working out of the faith over the years. I think I have developed a reasonable view of this great man who is thoroughly exciting and particularly I can guarantee if you do this course that you will be a better theologian by the third year whether or not you agree with him; he is a great man to learn to think theologically with.

The Routledge Companion to the Practice of Christian Theology Mike Higton, Jim Fodor, 2015-03-24. This Companion introduces readers to the practice of Christian theology covering what theologians do, why they do it, and what steps readers can take in order to become theological practitioners themselves. The volume aims to capture the variety of practices involved in doing theology, highlighting the virtues that guide them and the responsibilities that shape them. It also shows that the description of these practices, virtues, and responsibilities is itself theological: what Christian theologians do is shaped by the wider practices and beliefs of Christianity. Written by a team of leading theologians, the Companion provides a unique resource for students and scholars of theology alike.

The Practice of Prophecy Li Ming Dennis Lum, 2018-03-26. The charisma of prophecy is found throughout the history of the global Pentecostal movement. Within the movement, prophecy is seen as the communication of an inspired, spontaneous revelation bringing edification to the faith community. Despite its prevalence, academic research has mostly focused on the biblical theological aspect, neglecting the actual contemporary practice. This book addresses this gap with a study on the practice of prophecy within the Assemblies of God of Singapore. The book investigates the nature, purpose, and significance of the phenomenon. It also identifies theological variables that are correlated with its practice and explicates these relationships. The investigation employs the empirical theological method of Johannes van der Ven, utilizing both a qualitative and a quantitative study. The results provide a rich description of the actual reception, delivery, and judging of prophecy. Significant findings include relationships between prophecy and courage, love, personality types, prayer types, and evangelism.

Narrative Theology and the Hermeneutical Virtues Jacob L. Goodson, 2015-01-21. In *Narrative Theology and the Hermeneutical Virtues*, Humility, Patience, Prudence, Jacob L. Goodson offers a philosophical analysis of the arguments and tendencies of Hans Frei's and Stanley Hauerwas's narrative theologies. Narrative theology names a way of doing theology and thinking theologically that is part of a greater movement called the return to Scripture. The return to Scripture movement makes a case for Scripture as the proper object of study within Christian theology, philosophy of religion, and religious ethics. While thinkers within this movement agree that Scripture is the proper object of study within philosophy and religious studies, there is major disagreement over what the word narrative describes in narrative theology. The Yale theologian Hans Frei argues that because Scripture is the proper

object of study within Christian theology and the philosophy of religion Scripture must be the exclusive object of study To think theologically means paying as close attention as possible to the details of the biblical narratives in their literal sense Different from Frei's contentions the Christian ethicist at Duke University Stanley Hauerwas claims if Scripture is the proper object of study within Christian theology then the category of narrative teaches us that we ought to give our scholarly attention to the interpretations and performances of Scripture Hauerwas emphasizes the continuity between the biblical narratives and the traditions of the church This disagreement is best described as a hermeneutical one Frei thinks that the primary place where interpretation happens is in the text Hauerwas thinks that the primary place where interpretation occurs is in the community of interpreters In order to move beyond the dichotomy found between Frei's and Hauerwas work but to remain within the return to Scripture movement Goodson constructs three hermeneutical virtues humility patience and prudence These virtues help professors and scholars within Christian theology philosophy of religion and religious ethics maintain objectivity in their fields of study

The Dangers of Christian Practice Lauren F. Winner, 2018-10-23 Challenging the central place that practices have recently held in Christian theology Lauren Winner explores the damages these practices have inflicted over the centuries Sometimes beloved and treasured Christian practices go horrifyingly wrong extending violence rather than promoting its healing In this bracing book Lauren Winner provocatively challenges the assumption that the church possesses a set of immaculate practices that will definitionally train Christians in virtue and that can't be answerable to their histories Is there for instance an account of prayer that has anything useful to say about a slave owning woman's praying for her slaves obedience Is there a robustly theological account of the Eucharist that connects the Eucharist's goods to the sacrament's central role in medieval Christian murder of Jews Arguing that practices are deformed in ways that are characteristic of and intrinsic to the practices themselves Winner proposes that the register in which Christians might best think about the Eucharist prayer and baptism is that of damaged gift Christians go on with these practices because though blighted by sin they remain gifts from God

Hauerwas the Peacemaker? Nathan Scot Hosler, 2020-04-14 War has been abolished in Christ is a strong claim by theologian Stanley Hauerwas Wars however continue to rage and historic numbers of people are displaced globally Despite critics assessments that Hauerwas contributes to Christians disengaging his work provides certain tools for the work of peacebuilding In this work Hauerwas's contribution to peacemaking as a part of his ecclesiology and broader theological ethical work will be assessed Hauerwas's peacemaking within his work stands within the context of ecclesiology and related themes of witness and Christology The possibilities of his work on peacemaking to extend to peacebuilding practice and foreign policy formation are explored and a critique is leveled regarding his engagement with racial justice Additionally certain practices of reading in theology and training in this language are extrapolated to engage the task of policy formation and analysis in contexts where religion is an active factor This study concludes that Hauerwas's theological ethics of peacemaking makes a valuable contribution but must be extended

into specific practices **Comparative Theology** Francis X. Clooney, 2011-09-09 Drawing upon the author's three decades of work in comparative theology this is a pertinent and comprehensive introduction to the field which offers a clear guide to the reader enabling them to engage in comparative study The author has three decades of experience of work in the field of comparative theology and is ideally placed to write this book Today's increasing religious diversity makes this a pertinent and timely publication Unique in the depth of its introduction and explanation of the discipline of comparative theology Provides examples of how comparative theology works in the new global context of human religiosity Draws on examples specific to Hindu Christian studies to show how it is possible to understand more deeply the wider diversity around us Clearly guides the reader enabling them to engage in comparative study **Hermeneutics and Social Transformation** Bernard Lategan, 2016-01-15 In a South African context condemning apartheid is not enough To make a non racial democratic inclusive society viable and enduring much more is required of which creative and imaginative theological thinking is not the least Fundamental theological values and their implications for all the facets of society must be thought through not as an academic exercise but as a grass roots undertaking and the greatest challenge is to act in terms of this new understanding of society Bernard Lategan Some implications of the family concept in New Testament texts **Upon This Rock** Robert Lewis Fossett, 2013-06-19 Nearly thirty years ago George Lindbeck wrote his seminal and highly influential work The Nature of Doctrine Since that time there has been no serious attempt at moving beyond the problems he lays out in particular the problem of foundationalism Upon This Rock is not merely a response to George Lindbeck's important work it is an attempt to show how theology and religious discourse can truly move past the particular problems posed by foundationalism the assumption of and search for so called objective and universal standards by looking at just one important discussion within the field the modern discussion on the nature and function of doctrine Upon This Rock offers an account of doctrine an account that includes such topics as the authority of Scripture biblical interpretation and the role of the Church and the nature of her doctrine among others that moves the Church past the problems of foundationalism and back to her one true rock Jesus Christ her Lord
