**Federman's Fictions** Jeffrey R. Di Leo, 2012-01-02 This collection of essays offers an authoritative examination and appraisal of the French American novelist Raymond Federman's many contributions to humanities scholarship including

Holocaust studies Beckett studies translation studies experimental fiction postmodernism and autobiography Although known primarily as a novelist Federman 1928 2009 is also the author of numerous books of poetry essays translations and criticism After emigrating to the United States in 1942 and receiving a Ph D in comparative literature at UCLA in 1957 he held professorships in the University at Buffalo s departments of French and English from 1964 to 1999 Together with Steve Katz and Ronald Sukenick he was one of the original founders of the Fiction Collective a nonprofit publishing house dedicated to avant garde experimental prose Far too many accounts treat Federman as merely a member of a small group of writers who pioneered metafictional or postmodern American literature Federman s Fiction will introduce or for some reintroduce to the broader scholarly community a creative and daring thinker whose work is significant not just to considerations of the development of innovative fiction but to a number of other distinct disciplines and emerging critical discourses

Postmodern Plagiarisms Mirjam Horn, 2015-07-01 This monograph takes on the question of how literary plagiarism is defined exposed and sanctioned in Western culture and how appropriating language assigned to another author can be considered a radical subversive act in postmodern US American literature While various forms of art such as music painting or theater have come to institutionalize appropriation as a valid mode to ventilate what authorship originality and the anxiety of influence may mean the literary sphere still has a hard time acknowledging the unmarked acquisition of words ideas and manuscripts The author shows how postmodern plagiarism in particular serves as a literary strategy of appropriation at the interface between literary economics law and theoretical discourses of literature She investigates the complex expectations surrounding the strong link between an individual author subject and its alienable text a link that several postmodern writers powerfully question and violate Identifying three distinct practices of postmodern plagiarism the book examines their specific situatedness precepts and subversive potential as litmus tests for the literary market and the ongoing dynamic notion of the concepts authorship originality and creativity

**The Concise Oxford Companion to English Literature** Dinah Birch, Katy Hooper, 2013-05-30 Based on the bestselling Oxford Companion to English Literature this is an indispensable compact guide to all aspects of English literature Over 5 500 new and revised A to Z entries give unrivalled coverage of writers works historical context literary theory allusions characters and plot summaries Discursive feature entries supply a wealth of information about important genres in literature For this fourth edition the dictionary has been fully revised and updated to include expanded coverage of postcolonial African black British and children s literature as well as improved representation in the areas of science fiction biography travel literature women s writing gay and lesbian writing and American literature The appendices listing literary prize winners including the Nobel Man Booker and Pulitzer prizes have all been updated and there is also a timeline chronicling the development of English literature from c 1000 to the present day Many entries feature recommended web links which are listed and regularly updated on a dedicated companion website

Written originally by a team of more than 140 distinguished authors and extensively updated for this new edition this book provides an essential point of reference for English students teachers and all other readers of literature in English **The Wide World Magazine** ,1911 My Body in Nine Parts Raymond Federman,2005 Fiction Jewish studies For decades Raymond Federman has been dazzling readers with his unique brand of surfiction throwing zany words all over the page and inserting himself into every fiction often through such zany alter egos as Moinous and Namredef Now comes the greatest self reverential work of all as Federman spins all manner of tales of various parts of his own body recounting his childhood in France adult life in the U S Jewish heritage and career as a writer with no effort made to distinguish between fact and fiction memory and imagination Previously published in France as *Mon corps en neuf parties* Federman s masterpiece is now available for the first time in English with augmented translation by the author and accompanied by ten photographs by Steve Murez **The Immanent World: 404 - A Horror Anthology Series** Clive Reznor,2018-10-26 It s like Black Mirror with a Paranormal edge It s the fear we all have using the internet Who is watching What have I left out there David Clegg ignored that fear posted his musings on the Dark Web and paid the price When a mysterious hacker hijacks his computer Clegg is shown a series of real time videos each one a story of mankind s dark dealings with technology and the paranormal As a voyeur he is given one chance and only one chance to help those he s watching unknowingly sealing his own fate in the process Told in six twisted stories The Immanent World 404 is a wickedly imaginative collection of dark sci fi and the paranormal For fans of horror anthologies like Stephen King s Night Shift or Clive Barker s Books Of Blood movies like V H S or The ABC s Of Death or TV shows like Black Mirror or Supernatural weaving the familiar with the disturbingly dark Immanent remaining within indwelling inherent Horror fans will enjoy this journey into the dark corners of the immanent world a reality where the divine and demonic are not outside our natural world but very much a part of it Your Lying Eyes A domestic dispute between his next door neighbors puts Kendrick a bachelor who loves gaming and tech in a dangerous situation when the wife hides out in his house She has a codex tattoo an implant that records all five sense and can play those experiences back through specific devices which shows Kendrick the difference between what his neighbors want him to see and who they really are The Politics of Flesh and Metal When two friends go on a road trip to interview the head of a cutting edge tech company who claims to have the key to quantum communication they find the consequences of gaining that technology are more costly than they could imagine Hamir Can Do Anything Hamir is an average Indian American Hamir is also bullied at his office job under appreciated by his wife and her Auntie and ridiculed for his accent by the general public All he wants is respect Today through an unexpected gift in the mail he gets everything he wants including revenge The Viral Gods Like It Or Lose It is a popular television game show where contestant have one week to gain 5 000 likes on their LIOLI profile a task that s harder than it seems Needing the money for his daughter s surgery Chip Tittle tries to subvert the system by exposing the truth about the State putting much more at risk than he realizes Invincible An android named Astraea who

has been passed down generation after generation by the Thornsmith family as either an experiment or sex slave attempts one last time to free herself Can she convince the only surviving descendant of the family a teenage boy to help her become a Super AI or will an mob of anti technology zealots destroy her the last of her kind SPOILER **Die Ästhetik der Leerstelle** Danielle Reif,2005 **We Were Werewolves** Doug Nufer,2008 Poetry WE WERE WEREWOLVES uses constraints to open up the English language to deeper and darker humours than any your basic run of the mill prosaic verse can begin to imagine The insistent permutations of alphabetical sounds the severe word love run through film noir based tonalities the small to epic scale of reordering found in so many of these Nuferian arrangements lay bare a gleeful prosody of the nervous system Pleasure level herein mighty high Anselm Berrigan *International Who's Who of Authors and Writers 2008* Europa Publications,2007-08-23 An invaluable source of information on the personalities and organizations of the literary world Amerikastudien ,1974 *Writings for the OuLiPo* Ian Monk,2006 Poetry From the hilarious univocalisms of Homage to Georges Perec to the dizzying information provided in the literally falling Twin Towers Ian Monk demonstrates that Oulipo is by no means only or even primarily a French import on the contrary its possibilities for Anglophone poets are enormous Monk s sheer inventiveness and intellectual agility his verbal wit and prosodic skill will have you chuckling over his Snowballs and marveling at his anagrammatic threnodies Writings for the Oulipo is a book to savor good to the last drop

**The Greenwood Encyclopedia of Multiethnic American Literature: D - H** Emmanuel Sampath Nelson,2005 Alphabetically arranged entries in five chronological volumes focus on individual authors works and topics related to multiethnic American literature **Rebuilding Safety: lessons from India's top 10 industrial Catastrophes** Anand R.,2024-10-14 Industrial accidents have long been a part of modern industrial history sometimes with devastating consequences that have reshaped industries communities and regulatory landscapes Despite advancements in technology and safety protocols when these systems fail the resulting catastrophes can lead to tragic loss of life environmental destruction and lasting economic damage This book examines ten of the most significant industrial disasters that have left profound impacts on the world These events spanning various industries such as manufacturing chemical processing and energy production are more than just tragic stories they are critical case studies in understanding the risks inherent in industrial operations From large scale explosions to toxic chemical releases each chapter delves into the root causes of these disasters their immediate and long term effects and the lessons learned from these failures While these accidents are diverse in nature they share common threads lapses in safety human error regulatory shortcomings and in some cases unforeseen technical failures By exploring these incidents we aim to not only recount their dramatic impacts but also shed light on the weaknesses in safety systems that allowed such disasters to occur Beyond their immediate aftermath these industrial accidents often resulted in significant changes to safety regulations and operational standards prompting industries to rethink their approaches to risk management This book seeks to highlight the reforms and advancements made in the wake

of these tragedies illustrating how loss and disaster can drive meaningful progress Ultimately the goal of this book is to emphasize the importance of learning from these catastrophic events Through understanding the factors that led to these accidents industries can build more robust systems to prevent similar incidents in the future Each of these ten disasters serves as a reminder that while progress and innovation are essential to industrial growth safety vigilance and continuous improvement must always remain a priority to prevent history from repeating itself

**Handbook of the Philosophy of Climate Change** Gianfranco Pellegrino, Marcello Di Paola, 2023-11-24 This Handbook offers a broad yet unified treatment of many philosophical issues connected with climate change ranging from foundational puzzles to detailed applications It extends to many branches of philosophy that are relevant to the understanding of the premises and implications of the impacts of climate change on human and nonhuman life on Earth More specifically the handbook examines the scientific accounts of climate change as well as its causes It explores the tools offered by social sciences and humanities to study the societal premises and impacts of climate change as well as delving deeper into the ethical and political issues connected with and resulting from climate change By doing so it puts it all in an ecological and historical context In addition the book offers solutions to some important philosophical puzzles and problems and indicates paths of interaction between philosophy and other disciplines The discussion about climate change and the mitigation adaptation policies spans many areas and levels from abstract science and philosophy to current on the ground politics However climate change is also a great a philosophical puzzle Indeed its existential and practical relevance can be thought to largely derive from the philosophical complications it engenders Climate change is applied philosophy par excellence Preventing dangerous anthropogenic climate change needs very good philosophy applied to concrete and specific practical issues Climate change is an area where scholars from very different provenances should cooperate on equal terms having in view a common and really important purpose contribute to preventing great burdens and even the extinction of humankind and the destruction of hospitable and valuable non human nature

Tech Tales of Woe: Lessons from Computing Catastrophes Pasquale De Marco, 2025-04-16 In the relentless march of technological progress we have witnessed both triumphs and calamities innovations that have transformed our world and failures that have served as stark reminders of the double edged nature of our technological prowess This book delves into the depths of computing calamities exploring cautionary tales of ambitious projects gone awry where the allure of untamed innovation clashed with the harsh realities of human error design flaws and unforeseen consequences Through a series of captivating case studies we uncover the intricate tapestry of factors that contribute to technological disasters from the allure of untested technologies and the pressures of relentless deadlines to the human factor with its inherent susceptibility to complacency and overconfidence We journey through the annals of computing history examining infamous disasters such as the Therac 25 radiation therapy machine whose software malfunction resulted in the tragic deaths of several patients We dissect the Ariane 5 rocket failure a multi billion dollar catastrophe caused by a

seemingly inconsequential software error And we revisit the Pentium FDIV bug a flaw in Intel s flagship processor that wreaked havoc on countless computers worldwide Yet amidst the cautionary tales we also find stories of resilience innovation and the indomitable human spirit We discover how organizations and individuals have risen from the ashes of failure implementing rigorous testing procedures fostering a culture of safety and accountability and investing in employee training and development This book serves as a stark reminder of the fragility of our technological systems the fallibility of human judgment and the profound consequences that can arise from a single misstep By understanding the root causes of computing calamities we can strive to create a future where technology serves humanity rather than becoming a source of devastation With compelling storytelling and insightful analysis this book is a must read for anyone interested in the history of technology the nature of human error and the importance of learning from our mistakes It is a call to action for a more responsible and sustainable approach to technological development one that places human well being and safety at the forefront If you like this book write a review on google books

**Sports** Kenneth Goldsmith, 2008 Poetry SPORTS the last of Kenneth Goldsmith s American trilogy THE WEATHER TRAFFIC and SPORTS is a complete radio transcription of the longest nine inning Major League Baseball game on record As with the rest of the trilogy Goldsmith s exact parsing of language is used to articulate an unfolding narrative Nothing is left out in SPORTS we hear every utterance and stumble of the announcers as well as each ad broadcast during the game It is said that in a normal two and a half hour baseball game approximately eight minutes of action occurs this game the New York Yankees vs the Boston Red Sox from August of 2006 lasts nearly five hours doubling the language leaving the broadcasters a seeming eternity to fill with a parade of endless statistics and in booth repartee As the narrative grinds on and the hours pass a claustrophobic sense of despair descends upon the booth Tomorrow asks one broadcaster I think we re all writing opuses for tomorrow
