The Presidency Sb Amer Government Today American:

The Obamas and a (Post) Racial America? Gregory Parks, Matthew Hughey, 2011-01-28 The United States has taken a long and winding road to racial equality especially as it pertains to relations between blacks and whites When Barack Hussein Obama was elected as the forty fourth President of the United States and first black person to occupy the highest office in the land many wondered whether that road had finally come to an end Do we now live in a post racial nation This volume contends that despite the election of the first black President and rise of a black American family as possibly the most recognized family the world over race is still a very salient issue particularly in the United States But the prominence of the Obamas on the world stage and the positive image they project may hasten the day when America is indeed post racial even at the implicit level *Engineering News and American Contract Journal* ,1918
