*International Experience in Developing the Financial Resources of Universities* Abdulrahman Obaid Al-Youbi, Adnan Hamza Mohammad Zahed, Abdullah Atalar, 2021-10-04 This open access book aims to present the experiences and visions of several world university leaders providing strategies and methods used to find various income sources for their institutions The expansion of a university system requires a corresponding increase in funding Consequently university administrators all over the world are in a constant search for additional funds If higher level institutions are expected to deliver high quality education and research their sustainable funding is crucial to the development of the countries they serve While governmental sources are a major part of the funding of most universities economic downturns as in the case of the COVID 19 crisis may reduce governmental contributions in this and cause administrators to look for various alternative sources to help them compete in a global setting This book offers valuable information and guidance to university leaders and administrators worldwide especially at a time when university budgets are under stress due to the COVID 19 pandemic with its dire financial and economic consequences      Public Private Partnerships and Constitutional Law Nikiforos Meletiadis, 2018-12-07 Annually the government commits significant expenditure to a type of public contracts which are

known as Public Private Partnerships PPPs or the Private Finance Initiative PFI These contracts bind the public purse for decades in sectors such as Health Defence and Detention and involve the assignment of a significant role to the private sector in the provision of public services This book explores the controversial subject of the public accountability of these contracts and the corresponding large sums of public money involved It explains how public accountability works for PPPs and the PFI and it argues that it should be provided as part of the Economic Constitution Drawing comparative understandings from the UK and the USA constitutional legal traditions the book investigates public accountability from the perspective of the Economic Constitution focusing on three accountability criteria legal accounting and administrative In doing so it provides an analysis which informs both from the perspective of academic research and from that of legal and consulting practice

*God, Schools, and Government Funding* Laurence H. Winer, Nina J. Crimm, 2016-04-15 In recent years a conservative majority of the U S Supreme Court over vigorous dissents has developed circumventions to the Establishment Clause of the First Amendment that allow state legislatures unabashedly to use public tax dollars increasingly to aid private elementary and secondary education This expansive and innovative legislation provides considerable governmental funds to support parochial schools and other religiously affiliated education providers That political response to the perceived declining quality of traditional public schools and the vigorous school choice movement for alternative educational opportunities provokes passionate constitutional controversy Yet the Court's recent decision in *Arizona Christian School Tuition Organization v Winn* inappropriately denies taxpayers recourse to challenge these proliferating tax funding schemes in federal courts Professors Winer and Crimm clearly elucidate the complex and controversial policy legal and constitutional issues involved in using tax expenditures mechanisms such as exclusions deductions and credits that economically function as government subsidies to finance private religious schooling The authors argue that legislatures must take great care in structuring such programs and set forth various proposals to ameliorate the highly troubling dissention and divisiveness generated by state aid for religious education

*Rethinking Public-Private Partnerships* Carsten Greve, Graeme Hodge, 2013-05-07 The global financial crisis hit the world in a remarkable way in late 2008 Many

governments and private sector organizations who had considered Public Private Partnerships PPPs to be their future were forced to rethink their strategy in the wake of the crisis as a lot of the available private funding upon which PPPs relied was suddenly no longer available to the same extent At the same time governments and international organizations like the European Union were striving to make closer partnerships between the public sector and the private sector economy a hallmark for future policy initiatives This book examines PPPs in the context of turbulent times following the global financial crisis GFC PPPs can come in many forms and the book sets out to distinguish between the many alternative views of partnerships a project a policy a symbol of the role of the private sector in a mixed economy or a governance tool all within a particular cultural and historical context This book is about rethinking PPPs in the wake of the financial crisis and aims to give a clearer picture of the kind of conceptual frameworks that researchers might employ to now study PPPs The crisis took much of the glamour out of PPPs but theoretical advances have been made by researchers in a number of areas and this book examines selected new research approaches to the study of PPPs
