rediscovered literary link between Sherlock Holmes and Nero Wolfe Professor Augustus S F X Van Dusen who with only the power of ratiocination unravels problems of outrageous criminous activity in dazzlingly impossible settings He can escape from the inescapable death row Cell 13 He can fathom why the young woman chopped off her own nger He can solve the anomaly of the phone that could not speak These twenty three Edwardian era adventures prove as The Thinking Machine reiterates that two and two make four not sometimes but all the time *Methods and Problems of Medical Education* Rockefeller Foundation,1926 *Complete Works of Robert and James Adam and Unbuilt Adam* David King,2013-09-13 This volume is a unique compendium of the works of Robert and James Adam both built and unbuilt It includes 900 illustrations The Complete Works of Robert and James Adam is reprinted here in its entirety updated and corrected This title covers every one of the 230 or so built works including 12 that have been recently discovered It is complemented by a completely new title Unbuilt Adam This mentions all the brothers important unbuilt projects and it discusses and illustrates 130 of them This volume gives an exceptionally thorough review of the brothers designs From public buildings to country houses and monuments to ceilings it is well informed and erudite It provides a mine of information for both the expert and the general reader and it uses the works covered to give an understanding of the Adam manner *The Girl from Nip 'N' Tuck* Dianne H. Lundy,2013-07-15 Dianne Hollis graduated from college and embarked on a quest to find two things an ideal job and the perfect man Time proved that finding either one of them was no easy task Struggling with difficult classes unpredictable students and unreliable men she managed to keep her sanity by maintaining a sense of humor and putting her trust in God Inheriting her fathers stubborn streak and her mothers strong sense of Christian faith she was determined to make it in her chosen profession no matter what it took to succeed *The Experimental Imagination* Tita Chico,2018-06-05 Challenging the two cultures debate The Experimental Imagination tells the story of how literariness came to be distinguished from its epistemological sibling science as a source of truth about the natural and social worlds in the British Enlightenment Tita Chico shows that early science relied on what she calls literary knowledge to present its experimental findings More radically she contends that science was made intellectually possible because its main discoveries and technologies could be articulated in literary terms While early scientists deployed metaphor to describe the phenomena they defined and imagination to cast themselves as experimentalists literary writers used scientific metaphors to make the case for the epistemological superiority of literary knowledge Drawing on literature as well as literary language tropes and interpretive methods literary knowledge challenges our dominant narrative of the scientific revolution as the sine qua non of epistemological innovation in the British Enlightenment With its recourse to imagination as a more reliable source of truth than any empirical account literary knowledge facilitates a redefinition of authority and evidence as well as of the self and society implicitly articulating the difference that would come to distinguish the arts and sciences
