Skin Diseases Of The Cat:

Skin Diseases of the Dog and Cat Thelma Lee Gross, Peter J. Ihrke, Emily J. Walder, Verena K. Affolter, 2008-04-15

Diagnosis is often the most challenging part of dermatology. Diagnostic dermatology melds both clinical and histopathologic diagnosis by correlating the clinical and microscopic features of skin disease. This book is a heavily illustrated comprehensive overview of clinical dermatology and dermatopathology that will provide the reader with the tools to accurately diagnose skin disease in the dog and cat. The book will prove an indispensable reference for veterinary dermatologists, diagnostic pathologists, and small animal practitioners who seek to improve their skill in diagnostic dermatology. Completely revised second edition with many new disease descriptions. Now with colour clinical photographs illustrating all of the non-neoplastic skin diseases, previous edition had black and white photographs only. Written by internationally renowned experts, it provides a comprehensive overview of clinical dermatology and dermatopathology for all those interested in skin diseases of dogs and cats.

Manual of Skin Diseases of the Dog and Cat Sue Paterson, 2009-03-16. Manual of Skin Diseases of the Dog and Cat, Second Edition, provides a valuable asset to the practice library for quick and easy reference on a busy day. Dealing with all common skin diseases in both the dog and the cat, particular attention is paid to the differences between the two species. Each chapter looks at a different type of skin disease with descriptions of clinical presentations and a guide for diagnostic tests for each. This book is a combined update of two of Sue Paterson's books, *Skin Diseases of the Dog* and *Skin Diseases of the Cat*, into one volume for ease of reference. Particular emphasis is placed on those diagnostic techniques available to the veterinarian within a general practice environment. Provides a practical approach to diagnosis and management. Contains almost 500 color photographs of common and rare skin conditions.
