twentieth century to which she herself was an eyewitness *On the Waves of Destiny* presents an anthology that reflects her early life in interwar Poland during the rise of Hitler her Second World War activities in occupied Paris where she was active in the Communist resistance and her sojourn in Communist Poland from 1949 to 1968 The majority of her essays are pen portraits often based on her own personal recollections in which she made clear that she considered it her duty to memorialize the tens of thousands of Polish Jewish writers and artists who were murdered during the Holocaust such as author and painter Bruno Schulz historian Emanuel Ringelblum and artist Gela Seksztajn as well as to preserve their work Even her short stories are based on actual experiences not only her own but also those of people around her In her stories her essays and her allegorical fables she explored issues such as equality for women the moral responsibility of a writer the question of Jewish identity and the creative process in general The translations in *On the Waves of Destiny* ensure that Lili Berger's legacy will continue to resonate with future generations of readers

*Animal Narratives and Culture* Anna Barcz, 2017-03-07 The term vulnerable realism can imply two different understandings one presenting weak realism as incomplete and mixed with other literary styles the other bringing realistic vulnerable experience into narration The second is the key concern of this work though it does not exclude the first as it asks questions about realism as such entering into a polemic with the tradition of literary realism Realism then is not primarily understood as a narrative style but as a narration that tests the probability of nonhuman vulnerable experience and makes it real The book consists of three parts The first presents examples of how realism has been redefined in trauma studies and how it may refer to animal experience The second explores what is added to the narrative by literature including the animal perspective the zoonarrative and how it is conducted zoocriticism The third analyses cultural texts such as painting circuses and memorials which realistically generate animal vulnerability and provide non anthropocentric frameworks anchoring our knowledge in the experience of fragile historical reality

**Incarnations of Material Textuality** Katarzyna Bazarnik, Izabela Curyło-Klag, 2014-10-02 *Liberature* coined from the Latin *liber* is simultaneously a movement in contemporary Polish literature and a term referring to literary works that integrate text and material features of the book into an organic whole in accordance with the author's design The present volume collects essays inspired by this theoretical concept first proposed by Polish poet Zenon Fajfer in 1999 but soon picked up and elaborated on by international scholars As noted by the contributing authors preceding Jessica Pressman's idea of bookishness and coinciding with N Katherine Hayles' fundamental writings *liberature* appeared at the end of the 20th century as if to resume and systematize the intuitions and provocative statements of writers concerned with the future of the book It fits into a wider turn towards the recognition of the embodied nature of information in anthropology literary textual media and AI studies Yet its distinctness consists in the fact that it was suggested by a creative writer and that it proposes to see the authorially shaped materiality of writing in terms of a literary genre The essays collected here present the modernist roots and inspirations of *liberature* address the semantics of typography and the question of materiality of

literary writing and explore how the abstract body of the printed book is transformed into an experience of embodiment The volume is completed with a reprint of Fajfer's seminal essays with a view to making them more available to English speaking readers

**Polish Literature as World Literature** Piotr Florczyk, K. A. Wisniewski, 2022-12-15 This carefully curated collection consists of 16 chapters by leading Polish and world literature scholars from the United States Canada Italy and of course Poland An historical approach gives readers a panoramic view of Polish authors and their explicit or implicit contributions to world literature Indeed the volume shows how Polish authors from Jan Kochanowski in the 16th century to the 2018 Nobel laureate Olga Tokarczuk have engaged with their foreign counterparts and other traditions active participants in the global literary network and the conversations of their day The volume features views of Polish literature and culture within theories of world literature and literary systems with a particular attention paid to the resurgence of the idea of the physical book as a cultural artifact This perspective is especially important since so much of today's global literary output stems from Anglophone perceptions of what constitutes literary quality and tastes The collection also sheds light on specific issues pertaining to Poland such as the idea of Polishness and global phenomena including social and economic advancement as well as ecological degradation Some of the authors discussed like the Romantic poet Adam Mickiewicz or the 1980 Nobel laureate Czesław Miłosz were renowned far beyond the borders of their country while others like the contemporary travel writer and novelist Andrzej Stasiuk embrace regionalism seeing as they do in their immediate surroundings a synecdoche of the world at large Nevertheless the picture of Polish literature and Polish authors that emerges from these articles is that of a diverse cosmopolitan cohort engaged in a mutually rewarding relationship with what the late French critic Pascale Casanova has called the world republic of letters
