On December 31, 2012, the end of the world did not come as the legendary Mayan prophecy had predicted. Humanity continued to thrive, and everything continued as usual, following the established trajectory of humanity. Everyone assumed that the doomsday predictions would once again become a joke, just like before. But there are often unexpected things in the world, and when this unexpected thing is a disaster, it will make people feel like they are being raped because you have no way to resist. **Fatal Terrain** Dale Brown, 2024-07-16. The People's Republic of China has launched a terrifying attack against Taiwan. Cold Swift Deadly. The U.S. isn't willing to stand by and watch, but when they come to Taiwan's aid, they're dealt an unexpected blow from Chinese forces. It looks like the U.S. is going down. Until aerial strike warfare expert Patrick McLanahan and genius Jon Masters come into the picture. Together, they have created a monster: the EB-52 Megafortress. A high-tech display of weaponry, fully equipped with stealth cruise missiles. The most sophisticated bomber the world has ever seen. The unsinkable flying battleship. Now China is on its way to a nuclear high noon. And the Doomsday clock is ticking. *Drink Deep* Chloe Neill, 2015-06-02. A strong-minded, sharp-witted heroine who will appeal to fans of Charlaine Harris' Sookie Stackhouse series and Laurell K. Hamilton's Anita Blake. Library Journal. Clouds are brewing over Cadogan House, and Merit, the vampire, can't tell if this is the darkness before the dawn or the calm before the storm. With the city itself in turmoil over paranormals and the state threatening to pass a paranormal registration act, times have never been more precarious for the vampires. If only they could lay low for a bit. Then magic rears its ugly head when Lake Michigan turns black. The mayor insists it's nothing to worry about, but Merit knows a panic is coming. She'll have to turn to friends old and new to find out who's behind this and stop them before it's too late for both the vampires and humans. **Comic Book History of Comics** Fred Van Lente, 2012-06-20. Empire of the Superheroes Mark Cotta Vaz, 2021-01-05 Superman may be faster than a speeding bullet but even he can't outrun copyright law Since the dawn of the pulp hero in the 1930s publishers and authors have fought over the privilege of making money off of comics and the authors and artists usually have lost Jerry Siegel and Joe Shuster the creators of Superman got all of 130 for the rights to the hero In Empire of the Superheroes Mark Cotta Vaz argues that licensing and litigation do as much as any ink stained creator to shape the mythology of comic characters Vaz reveals just how precarious life was for the legends of the industry Siegel and Shuster and their heirs spent seventy years battling lawyers to regain rights to Superman Jack Kirby and Joe Simon were cheated out of their interest in Captain America and Kirby's children brought a case against Marvel to the doorstep of the Supreme Court To make matters worse the infant comics medium was nearly strangled in its crib by censorship and moral condemnation For the writers and illustrators now celebrated as visionaries the golden age of comics felt more like hard times The fantastical characters that now earn Hollywood billions have all too human roots Empire of the Superheroes digs them up detailing the creative martyrdom at the heart of a pop culture powerhouse

Flight of the Old Dog Dale Brown, 2024-07-16 Flight of the Old Dog is one of the original and classic military techno thrillers in the entire world It is the basis of the PC flight simulator Megafortress published by Three Sixty Pacific It has been translated into twelve languages and sales have exceeded a million copies The United States and the Soviet Union are on the brink of nuclear war At a top secret research facility at Kavaznya Siberia the Soviets have developed a ground based laser weapon capable of shooting down American satellites and they are betting that the American president doesn't have the guts to risk starting a nuclear exchange But at a top secret flight test site in the Nevada desert called Dreamland a team of test pilots and engineers have created the Megafortress a venerable B 52 Stratofortress strategic bombers modified

with stealth technology computers digital avionics state of the art weaponry and performance enhancing features that makes it unlike any B 52 bomber or any other warplane ever flown Now it s time to flight test the Megafortress and the Air Force assembles the best pilots bombardiers and navigators to see what this creation can do One of them is Captain Patrick McLanahan considered the best B 52 bombardier in the Air Force The others on the crew are hard charging pilots and world class engineers and McLanahan is nothing like them But the team leader and aircraft commander Lt General Brad Elliott can see that McLanahan is a quiet professional and a natural born leader Soviet spies soon discover the Megafortress and they recognize that a fleet of these advanced planes can practically neutralize all of the Soviet Union s air defenses Back channel negotiations begin and the U S is willing to mothball the Megafortress if the Soviets mothball the Kavaznya laser That is completely unacceptable to the Soviet leader and he hatches a daring plan to deal with the Megafortress while keeping his devastating laser weapon Just prior to a live fire flight test a team of Russian commandos invade Dreamland with the goal of stealing the Megafortress or destroying it The crew just barely manages to escape The American president orders the top secret aircraft back to Dreamland but Brad Elliott and the vice president hatch a daring plan of their own use the Megafortress to penetrate the Soviet Union s stiff air defenses and destroy the Kavaznya laser Thus begins the aerial cat and mouse game across ten thousand miles and wave after wave of the Soviet Union s most advanced air defenses and fighter interceptors which are all on full alert Most of the Megafortress s crew have no military training They have supplies for only a few hours and are outfitted for the deserts of southern Nevada not the frigid steppes of Siberia They have flown the Megafortress only a few times and only in carefully scripted test flights With Brad Elliott at the controls Patrick McLanahan realizes that it s up to him to organize and get the rest of the crew ready for the fight of their lives
