Skyscraper Primitives Dickran Tashjian, 1975 Skyscraper Primitives Dickran Tashjian, 1975 Skyscrapers George H. Douglas, 2004-08-19 This history of skyscrapers examines how these tall buildings affected the cityscape and the people who worked in lived in and visited them Much of the focus is rightly on the architects who had the vision to design and build America s skyscrapers but attention is also given to the steelworkers who built them the financiers who put up the money and the daredevils who attempt to conquer them in some inexplicable pursuit of fame The impact of the skyscraper on popular culture particularly film and literature is also explored *Physics and the Modernist Avant-Garde* Rachel Fountain Eames, 2023-02-09 Developing a reading of modernist poetics centred on the three way relationship between literature modern physics and avant garde art movements this book focuses on four key poets William Carlos Williams Mina Loy the Baroness Elsa von Freytag Loringhoven and Wallace Stevens whose lives crossed paths in 20th century New York This book explores how modernist art movements have shaped these writers thinking about physics in relation to their work demonstrating how science s new ideas about measurement and how to visualize material reality provoked innovative poetic forms and images From Einstein s visit to New York City in 1921 to the impact of the atomic bomb the author traces the flow of ideas about physics through culture linking the new physics with modern approaches to art found in Cubism Futurism Dada and Surrealism *The Dial* Francis Fisher Browne, Waldo Ralph Browne, Scofield Thayer, Marianne Moore, 1923

Uneasy Alliance Hans Bak, 2004 Uneasy Alliance illuminates the recent search in literary studies for a new interface between textual and contextual readings Written in tribute to G A M Janssens the twenty one essays in the volume exemplify a renewed awareness of the paradoxical nature of literary texts both as works of literary art and as documents embedded in and functioning within a writer s life and culture Together they offer fresh and often interdisciplinary perspectives on twentieth century American writers of more or less established status Henry James Edna St Vincent Millay E E Cummings Vladimir Nabokov Flannery O Connor Saul Bellow Michael Ondaatje Toni Morrison and Sandra Cisneros as well as on those who for reasons of fashion politics ideology or gender have been unduly neglected Booth Tarkington Julia Peterkin Robert Coates Martha Gellhorn Isabella Gardner Karl Shapiro the young Jewish American writers Julia Alvarez and writers of popular crime and detective fiction Exploring the fruitful interactions and uneasy alliance between literature and ethics film biography gender studies popular culture avant garde art urban studies anthropology and multicultural studies together these essays testify to the ongoing pertinence of an approach to literature that is undogmatic sensitive and sophisticated and that seeks to do justice to the complex interweavings of literature culture and biography in twentieth century American writing **The Machine that Sings** Gordon A. Tapper, 2013-10-18 Examining how Crane s corporeal aesthetic informs poems written across the span of his career The Machine That Sings focuses on four texts in which Crane s preoccupation with the body reaches its apogee Tapper treats *Voyages* *The Wine Merchant* and *Possessions* as a triptych of erotic poems in

which Crane plays out alternative resolutions to the dialectic between purity and defilement a conceptual dynamic which Tapper argues is central to both Crane's poetics of difficulty and his representations of homosexual desire Tapper concentrates on the three sections of *The Bridge* most concerned with recuperating animality National Winter Garden The Dance and Cape Hatteras
