Skyscrapers The New Millennium:

Skyscrapers John Zukowsky, Martha Thorne, 2000 A global survey demonstrating the continued importance of the skyscraper reaching well beyond the bounds of Asia North America and Europe to incorporate less familiar sites as far afield as Saudi Arabia Lebanon and the United Arab Emirates as well as Uruguay and Mexico The introduction offers an overview of the architectural and economic trends that have affected the skyscraper at the close of the 20th century and the epilogue discusses the race for the world's tallest building in the first years of the 21st Century *International Architecture Yearbook 7* Images Publishing, Images Australia Pty Ltd, 2001-03-19 A valuable resource containing the finest architectural projects worldwide All projects are illustrated with stunning photographs informative plans and detailed text A comprehensive index lists the projects by name in alphabetical order while the con

Skyscrapers of the Future Carlo Aiello, 2011-01-01 No other architectural genre captures our imagination and reflects our cultural and technological achievements like these towers that pierce the sky We start off with the history and evolution of building high from the Egyptian pyramids Gothic cathedrals and first American skyscrapers to the contemporary reality in Asia and the Middle East We present two fascinating interviews the first one with Carol Willis the founder and director of the Skyscraper Museum in New York City who explains the true genetics and economics behind the birth and future of the skyscraper The second one with Italian artist Giacomo Costa who shares his vision about the relationship between the natural environment human activity and supernatural reality with provocative images of an apocalyptic urban future Javier Quintana exposes the time gap between new architectural concepts and their built reality like Arne Høisek's City of the Future designed in 1928 and materialized in 1998 by Cesar Pelli as the Petronas Towers in Kuala Lumpur or Sergei Lopatin's 1925 idea for the Veshenka Tower in Moscow later observed as the Willis Tower former Sears Tower in Chicago in 1974 Another group of essays explore the global influence of Manhattan as a contemporary Babylon to be replicated across the world or the role of the Italian Futurists Japanese Metabolists and Archigram who influenced generations of architects and designers to push forward the concept of vertical living In the Opinion section you will find critiques on some of the latest ideas for skyscraper design by some of the most forward looking architects like the concept of pixilated tectonics in Le Project Triangle in Paris by Herzog while Morphosis Architects explores new programs for vertical density with The Phare Tower Lastly Studio SHIFT masterfully integrates their Miyi Tower in Sichuan China with the existing landscape Central to this book are thirty projects from eVolo's 2009 Skyscraper Competition which look into the future of the skyscraper with the use of new technologies programs and aesthetic expression Sustainability globalization flexibility and adaptability are just some of the multi-layered elements explored by some of the entries You will find examples of cities in the sky horizontal skyscrapers that link various cities or emergency architecture for disaster zones

Herzog,2010-01-01 The redesign and revitalization of traditional urban centers is the cutting edge of contemporary urban planning as evidenced by the intense public and professional attention to the rebuilding of city cores from Berlin to New York City s Ground Zero Spanish and Latin American cities have never received the recognition they deserve in the urban revitalization debate yet they offer a very relevant model for this return to the center These cultures have consistently embraced the notion of a city whose identity is grounded in its organic public spaces plazas promenades commercial streets and parks that invite pedestrian traffic and support a rich civic life This groundbreaking book explores Spanish Mexican and Mexican American border cities to learn what these urban areas can teach us about effectively using central public spaces to foster civic interaction neighborhood identity and a sense of place

Herzog weaves the book around case studies of Madrid and Barcelona Spain Mexico City and Quer taro Mexico and the Tijuana San Diego border metropolis He examines how each of these urban areas was formed and grew through time with attention to the design lessons of key public spaces The book offers original and incisive discussions that challenge current urban thinking about politics and public space globalization and the future of privatized communities from gated suburbs to cyberspace Herzog argues that well designed human scaled city centers are still vitally necessary for maintaining community and civic life Applicable to urban renewal projects around the globe Herzog s book will be important reading for planners architects designers and all citizens interested in creating more livable cities
