A Closer Look at "The Slave's Dream" by Longfellow

This poem by Henry Wadsworth Longfellow is about a slave who, while being beaten, escapes into his own mind. He has a dream about his former life in Africa, and is then able to release his pain and die in peace. Let's take a closer look at this poem.

The Slave's Dream (1842) Henry Wadsworth Longfellow

Beside the ungathered rice he lay,
His **sickle** in his hand;
His breast was bare, his matted hair
Was buried in the sand.
Again, in the mist and shadow of sleep,
He saw his Native Land.

He saw through the landscape of his dream
The sandy Niger River;
Beside the palm trees on the plain
Drove round a king his warriors,
And heard the talking elephants
Descend the mountain-road.

He saw wide rivers, the dark-eyed queen,
Among her children stand;
They clasped his neck, they kissed his cheek,
They held him by the hand —
A lion roared from the whispering reeds,
And fell into the sand.

And there at last he found the home
Along the Niger's banks;
The white-robes were golden chains,
And, with a jeweled clank,
As such he could feel his enslavement of years,
Smothering his station's thank.

Before him, also, a blood-red flag,
The bright musk-guns blew;
From a cave all night he beheld their light,
Over plains where the tamarind grew,
Till he saw the roofs of Carthage built,
Along the coast road to Tunis.

1. Why do you think Longfellow assumes that the slave's "Native Land" is Africa?

In *The Wife of His Youth and Other Stories of the Color Line and Selected Essays* Charles W. Chesnutt intricately weaves a tapestry of narratives that explore the complex interplay of race identity and social stratification in late 19th century America. Using a realist style infused with dialect and keen psychological insight, Chesnutt confronts the nuances of colorism and the societal expectations for African Americans in a post-Civil War context. The collection showcases his ability to depict the personal struggles of individuals caught at the intersection of race and class, offering a poignant reflection on the persistent color line that defines social relations and personal choices. Charles W. Chesnutt, one of the first significant African American writers in the U.S., drew upon his own experiences as a mixed-race man in a predominantly white society. Having emerged from a background of both slavery and education, Chesnutt was profoundly influenced by the complexities of his identity. His literary career spanned a time of intense societal change, which informed his exploration of the dilemmas faced by African Americans navigating a prejudiced society. This collection is a must-read for scholars and general readers alike, as it not only illuminates the historical context of racial identity but also resonates with contemporary discussions of race and belonging.
