Most people think that you have to buy and sell the right stocks at the right time to make big money on Wall Street. In this enlightening, entertaining guide veteran financial commentator Dr. Paul Farrell shows you how to grow a seven figure nest egg without midnight jitters, time consuming study or paying a nickel in commissions to stockbrokers and others who get their piece of the pie by helping themselves to a chunk of yours. Market timing is for chumps, says Dr. Farrell. You want a portfolio that works without you having to sit through any schooling about what to buy, when to sell, how to mix and allocate, what to pay, where the heck the economy and the market are going. Now one book teaches you how to create and use that kind of portfolio where the only excitement you get is from the millionaire's nest egg you collect in the end.
