Lindqvist,2013-12-05 In the first half of the twentieth century European writers plunged into the stony baking expanse of the Sahara drawn by their own strange dreams What did they hope to find And what was really there In *Desert Divers* part travel book part literary history and part confession Sven Lindqvist follows their paths into the Sahara and drags to the surface the history of colonial slaughter and exploitation that enabled Europeans to conduct their one sided affair with the desert

the subject of David Spurr's book a revealing account of the rhetorical strategies that have defined Western thinking about the non Western world Despite historical differences among British French and American versions of colonialism their rhetoric had much in common The Rhetoric of Empire identifies these shared features images figures of speech and characteristic lines of argument and explores them in a wide variety of sources A former correspondent for the United Press International the author is equally at home with journalism or critical theory travel writing or official documents and his discussion is remarkably comprehensive Ranging from T E Lawrence and Isak Dineson to Hemingway and Naipaul from Time and the New Yorker to the National Geographic and Le Monde from journalists such as Didion and Sontag to colonial administrators such as Frederick Lugard and Albert Sarraut this analysis suggests the degree to which certain rhetorical tactics penetrate the popular as well as official colonial and postcolonial discourse Finally Spurr considers the question Can the language itself and with it Western forms of interpretation be freed of the exercise of colonial power This ambitious book is an answer of sorts By exposing the rhetoric of empire Spurr begins to loosen its hold over discourse about and between different cultures

Antaeus Daniel Halpern, 1987 **Historical Dictionary of Morocco** Aomar Boum, Thomas K. Park, 2016-06-02 A historical reference work on Morocco must take as its subject al maghrib al aqsa the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean littoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology have so conspired that there is still more coherence to an historical focus on al maghrib al aqsa than is the case for most modern nation states This third edition of Historical Dictionary of Morocco contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities

politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Morocco

Walls Marcello di Cintio, 2013-08-20 What does it mean to live against a wall Travel to the world's most disputed edges to meet the people who live alongside the razor wire concrete and steel and how the structure of the walls has influenced their lives In this ambitious first person narrative Marcello Di Cintio shares tea with Saharan refugees on the wrong side of Morocco's desert wall He meets with illegal Punjabi migrants who have circumvented the fencing around the Spanish enclave of Ceuta He visits fenced in villages in northeast India walks Arizona's migrant trails and travels to Palestinian villages to witness the protests against Israel's security barrier From Native American reservations on the U S Mexico border and the Great Wall of Montreal to Cyprus's divided capital and the Peace Lines of Belfast Di Cintio seeks to understand what these structures say about those who build them and how they influence the cultures that they pen in He learns that while every wall fails to accomplish what it was erected to achieve the walls are never solutions each wall succeeds at something else Some walls define Us from Them with Medieval clarity Some walls encourage fear or feed hate Some walls steal Others kill And every wall inspires its own subversion either by the infiltrators who dare to go over under or around them or by the artists who transform them

Vested Interests Marjorie B. Garber, 1992 A revolutionary and wide ranging examination of transvestism ranging from Shakespeare and Mark Twain to Oscar Wilde and Peter Pan from transsexual surgery and transvestite sororities to Madonna and Flip Wilson The author examines the nature and importance of cross dressing and society's recurring fascination with it 40 pages of inserts 8 in color

The Desert Michael Welland, 2014-09-15 From endless sand dunes and prickly cacti to shimmering mirages and green oases deserts evoke contradictory images in us They are lands of desolation but also of romance of blistering Mojave heat and biting Gobi cold Covering a quarter of the earth's land mass and providing a home to half a billion people they are both a physical reality and landscapes of the mind The idea of the desert has long captured Western imagination put on display in films and literature but these portrayals often fail to capture the true scope and diversity of the people living there Bridging the scientific and cultural gaps between perception and reality The Desert celebrates our fascination with these arid lands and their inhabitants as well as their importance both throughout history and in the world today Covering an immense geographical range Michael Welland wanders from the Sahara to the Atacama depicting the often bizarre adaptations of plants and animals to these hostile environments He also looks at these seemingly infertile landscapes in the context of their place in history as the birthplaces not only of critical evolutionary adaptations civilizations and social progress but also of ideologies Telling the stories of the diverse peoples who call the desert home he describes how people have survived there their contributions to agricultural development and their emphasis on water and its scarcity He also delves into the allure of deserts and how they have been used in literature and film and their influence on fashion art and architecture As Welland reveals deserts may be difficult to define but they play an active role in the evolution of our global climate and society at

large and their future is of the utmost importance Entertaining informative and surprising The Desert is an intriguing new look at these seemingly harsh and inhospitable landscapes **The Pyrenees** Hilaire Belloc, 1928 **Skeletons on the Zahara** Dean King, 2025-05-01 A National Bestseller the true story of shipwrecked American sailors in Africa who were captured by slavers and forced to trek through the Sahara This true life saga reads like a cross between Master and Commander and Lawrence of Arabia People The western Sahara is a baking hot and desolate place home only to nomads and their camels and to locusts snails and thorny scrub and its barren and ever changing coastline has baffled sailors for centuries In August 1815 the US brig Commerce was dashed against Cape Bojador and lost although through bravery and quick thinking the ship s captain James Riley managed to lead all of his crew to safety What followed was an extraordinary and desperate battle for survival in the face of human hostility starvation dehydration death and despair Captured robbed and enslaved the sailors were dragged and driven through the desert by their new owners who neither spoke their language nor cared for their plight Reduced to drinking urine flayed by the sun crippled by walking miles across burning stones and sand and losing over half of their body weights the sailors struggled to hold onto both their humanity and their sanity To reach safety they would have to overcome not only the desert but also the greed and anger of those who would keep them in captivity From the cold waters of the Atlantic to the searing Saharan sands from the heart of the desert to the heart of man Skeletons on the Zahara is a spectacular odyssey through the extremes and a gripping account of courage brotherhood and survival A little bit H Rider Haggard a little bit Jon Krakauer a little bit Nathaniel Philbrick and a whole lot of gruesome fun Salon
