Dance and the Body Politic in Northern Greece Jane K. Cowan,2016-09-29 Valued for their sensual and social intensity Greek dance events are often also problematical for participants giving rise to struggles over position prestige and reputation Here Jane Cowan explores how the politics of gender is articulated through the body at these culturally central yet until now ethnographically neglected celebrations in a class divided northern Greek town Portraying the dance event as both a highly structured and dynamic social arena she approaches the human body not only as a sign to be deciphered but as a site of experience and an agent of practice In describing the multiple ideologies of person gender and community that townspeople embody and explore as they dance Cowan presents three different settings the traditional wedding procession the Europeanized formal evening dance of local civic associations and the private party She examines the practices of eating drinking talking gifting and dancing and the verbal discourse through which celebrants make sense of each other's actions Paying particular attention to points of tension and moments of misunderstanding she analyzes in what ways these social situations pose different problems for men and women

Singing Poets Dimitris Papanikolaou,2017-12-02 Between 1945 and 1975 in both France and Greece literature provided the aesthetic criteria cultural prestige and institutional basis for what aspired to be a higher form of popular song and the authentic representative of a national popular music Published poems were set to popular music while critical discourse celebrated some songwriters not only for being as good as poets but for being singing poets in their own right This challenging and stimulating study is the first to chart the parallel cultural processes in the two countries from a comparative perspective Bringing together cultural studies with literary criticism it offers new angles on the work of Georges Brassens Leo Ferre Jacques Brel Mikis Theodorakis Manos Hadjidakis and Dionysis Savvopoulos

Homelands and Diasporas Minna Rozen,2008-10-30 The Greek and Jewish diasporas are the most significant diasporas of Western civilisation Homelands and Diasporas is the first book to explore the similarities and differences between these two experiences In the process it sheds fascinating light on their fundamental importance for both Greek and Jewish societies The authors examine Greek and Jewish diasporas throughout history from classical and Biblical times to the present and all over the world in Greece the Balkans Turkey Russia the Near and Middle East Spain and the US They analyse the very nature of diaspora examining both the Greek concept of noble expansion and the Jewish idea of enforced exile and analyse community structures as well as social and religious networks combining Scriptural analysis with cultural and political history Diaspora is a difficult and emotive concept but Homelands and Diasporas offers a balanced and perceptive guide to the connected histories of these two peoples away from their homelands

Folk Poetry of Modern Greece Roderick Beaton,2004-05-20 A wide ranging study of popular poetry and songs from the end of the Byzantine Empire to the

present **The Life and Twelve-Note Music of Nikos Skalkottas** Eva Mantzourani, 2016-03-03 Nikos Skalkottas is perhaps the last great undiscovered composer of the twentieth century In the 1920s he was a promising young violinist and composer in Berlin and a student of Schoenberg who included him among his most gifted pupils It was only after his return to Greece in 1933 that Skalkottas became an anonymous and obscure figure working in complete isolation until his death in 1949 Most of his works remained unpublished and unperformed during his lifetime and although he is largely known for his folkloristic tonal pieces Skalkottas in fact concentrated predominantly on developing an idiosyncratic dodecaphonic musical language Eva Mantzourani provides here a comprehensive study of this fascinating yet under researched composer The book lavishly illustrated with musical examples is divided into three parts Part I comprises a critical biography that by drawing extensively on his letters and other writings reappraises the image of Skalkottas with which we are often presented The main focus of the book however is on Skalkottas s twelve note compositional processes since these characterize the majority of his output and are neither well known nor fully understood Part II presents the structural and technical features of his twelve note technique particularly the different types of sets and their manipulation and his approach to musical forms Part III consists of analytical case studies of several works presented chronologically which thus provide a diachronic framework within which Skalkottas s dodecaphonic compositional development can be more effectively viewed This book underlines Nikos Skalkottas s importance as a composer with a distinctive artistic personality whose work contributed to the development of twelve note compositional practice and who deserves a more significant position within the Western art music canon than that to which he is often assigned

Greek Rebetiko from a Psychocultural Perspective Daniel Koglin, 2017-07-05 Greek Rebetiko from a Psychocultural Perspective Same Songs Changing Minds examines the ways in which audiences in present day Greece and Turkey perceive and use the Greek popular song genre rebetiko to cultivate specific cultural habits and identities In the past rebetiko has been associated chiefly with the lower strata of Greek society But Daniel Koglin

approaches the subject from a different perspective exploring the mythological and ritual aspects of rebetiko which intellectual elites on both sides of the Aegean Sea have adapted to their own world views in our age of globalized consumption Combining qualitative and quantitative methods from ethnomusicology ritual studies conceptual history and music psychology Koglin casts light on the role played by national perceptions in the processes of music production and consumption His analysis reveals that rebetiko persistently oscillates between conceptual categories it is a music both ours and theirs marginal and mainstream joyful and grievous sacred and profane The study culminates in the thesis that this semantic multistability is not only a key concept to understanding the ongoing popularity of rebetiko in Greece and its recent renaissance in Turkey but also a fundamental aspect of the human experience on the south eastern borders of Europe
