Cataloging Policy and Support Office, 2009 A Dictionary of Hymnology, Setting Forth the Origin and History of Christian Hymns of All Ages and Singing the Gospel along Scotland's North-East Coast, 1859-2009 Frances *Nations. Ed* John Julian, 1908 Wilkins, 2018-01-17 Following three years of ethnomusicological fieldwork on the sacred singing traditions of evangelical Christians in North East Scotland and Northern Isles coastal communities Frances Wilkins documents and analyses current singing practices in this book by placing them historically and contemporaneously within their respective faith communities

In ascertaining who the singers were and why when where how and what they chose to sing the study explores a number of related questions How has sacred singing contributed to the establishment and reinforcement of individual and group identities both in the church and wider community What is the process by which specific regional repertoires and styles develop Which organisations and venues have been particularly conducive to the development of sacred singing in the community How does the subject matter of songs relate to the immediate environment of coastal inhabitants How and why has gospel singing in coastal communities changed These questions are answered with comprehensive reference to interview material fieldnotes videography and audio field recordings As one of the first pieces of ethnomusicological research into sacred music performance in Scotland this ethnography draws important parallels between practices in the North East and elsewhere in the British Isles and across the globe Finding List ,1885 A Dictionary of Hymnology, Setting Forth the Origin and History of Christian Hymns of All Ages and Nations John Julian, 1907 A Dictionary of Hymnology John Julian, 1892 Finding List ... Osbeck, 1985 Foreword by Cliff Barrows More inspiring stories behind the hymns of past and contemporary favorites A Social History of Amateur Music-Making and Scottish National Identity: Scotland's Printed Music, 1880–1951 Karen E. McAulay, 2024-10-30 Late Victorian Scotland had a flourishing music publishing trade evidenced by the survival of a plethora of vocal scores and dance tune books and whether informing us what people actually sang and played at home danced to or enjoyed in choirs or reminding us of the impact of emigration from Britain for both emigrants and their families left behind examining this neglected repertoire provides an insight into Scottish musical culture and is a valuable addition to the broader social history of Scotland The decline of the music trade by the mid twentieth century is attributable to various factors some external but others due to the conservative and perhaps somewhat parochial nature of the publishers output What survives bears witness to the importance of domestic and amateur music making in ordinary lives between 1880 and 1950 Much of the music is now little more than a historical artefact Nonetheless Karen E McAulay shows that the nature of the music the song and fiddle tune books contents the paratext around the collections its packaging marketing and dissemination all document the social history of an era whose everyday music has often been dismissed as not significant or indeed properly old enough to merit consideration The book will be valuable for academics as well as folk musicians and those interested in the social and musical history of Scotland and the British Isles Finding-list of the Buffalo Library ...
