Forment,2024-05-31 Carlos Forment s aim in this highly ambitious work is to write the book that Tocqueville would have written had he traveled to Latin America instead of the United States Drawing on an astonishing level of research Forment pored over countless newspapers partisan pamphlets tabloids journals private letters and travelogues to show in this study how citizens of Latin America established strong democratic traditions in their countries through the practice of democracy in their everyday lives This first volume of Democracy in Latin America considers the development of democratic life in Mexico and Peru from independence to the late 1890s Forment traces the emergence of hundreds of political economic and civic associations run by citizens in both nations and shows how these organizations became models of and for democracy in the face of dictatorship and immense economic hardship His is the first book to show the presence in Latin America of civic democracy something that gave men and women in that region an alternative to market and state centered forms of life In looking beneath institutions of government to uncover local and civil organizations in public life Forment ultimately uncovers a tradition of edification and inculcation that shaped democratic practices in Latin America profoundly This tradition he reveals was stronger in Mexico than in Peru but its basic outlines were similar in both nations and included a unique form of what Forment calls Civic Catholicism in order to distinguish itself from civic republicanism the dominant political model throughout the rest of the Western world Bulletins of the Twelfth Census of the United States United States. National Union Catalog Subcommittee,1973 **Manufactures** ,1902 Making Ireland Modern Enda Delaney,2025-10-02 A provocative and original reinterpretation of modern Irish history There is a widespread misconception that Ireland became modern much later than its neighbours in the 1960s and 1970s This is grounded in several enduring stereotypes and caricatures of Ireland as a timeless and unchanging land of saints and scholars of its society and culture in the long nineteenth century as puritanical regressive or archaic of Gaelic language and culture as

backward or inward looking in contrast to a modern English counterpart and of the island as natural and rural in the face of the urban and technological progress of modernity Drawing on an extensive range of sources from poetry and novels to contemporary historical documents acclaimed historian Enda Delaney here offers a reinterpretation of Ireland's encounter with modernity that corrects these stereotypes By situating the island's history between 1780 and 1916 within its broader European global and colonial contexts he demonstrates that Ireland's pathway to modernity was not inevitable belated or unidirectional over a complex and centuries long process it was made modern and in its own distinctive way This was related to but distinct from Ireland's complicated colonial relationship with Britain and played out in the broader contexts of globalisation and the rise of capitalism And at the heart of this history are the Irish people themselves both those who lived on the island and the millions of those who left during this period and made their lives in Britain America Australia and beyond who made sense of modernity in a variety of conflicting ways and in so doing sought to shape their own destinies and adapt the old ways of doing things in the face of relentless waves of progress Changes in values consciousness and beliefs interacted with broader social political and cultural revolutions to create a distinctive experience of becoming modern The result is a bold and wide ranging new history of modern Ireland that restores agency to those who lived and made its history raising important and timely questions about modernity globalisation modern history and post colonialism
