Ethics of the Real Alenka Zupančič, 2000 The idea of Kantian ethics is both simple and revolutionary it proposes a moral law independent of any notion of a pre establishment of fear In attempting to interpret such a revolutionary proposition in a more humane light and to turn Kant into our contemporary someone who can help us with our own ethical dilemmas many Kantian scholars have glossed over its apparent paradoxes and impossible claims This book is concerned with doing exactly the opposite Kant thank God is not our contemporary he stands against the grain of our times Lacan on the face of it appears to be the very antithesis of Kant the wild theorist of psychoanalysis compared to the sober Enlightenment figure His concept of the Real however provides perhaps the most useful backdrop to this new interpretation of Kantian ethics Constantly juxtaposing her readings of the two philosophers Alenka Zupancic summons up and ethics of the Real and clears the ground for a radical restoration of the disruptive element in ethics

Walter Bernhart, Lawrence Kramer, 2014-04-20 The essays collected here raise a simple but rarely asked question just what exactly is voice From this founding question many others proliferate Is voice an animal category as Aristotle thought Or is it distinctively human Is it essentially related to language To music To song and singing Is it a mark of presence or of absence Is it a kind of object How is our sense of voice affected by the development of recording technology The authors in this volume approach such questions primarily by turning away from a general idea of voice and instead investigating what can be learned by attending to the qualities and acts of particular voices The range is wide from Poe's Leigeia to Woolf's The Waves from Jussi Bj rling to Waltraud Meier from song to oratorio to opera and beyond Throughout consistent with the volume's origin in papers delivered at the eighth biennial meeting of the International Association for Word and Music Studies the role of voice in joining or separating words and music is paramount These studies address key topics in musicology literary criticism philosophy aesthetics and performance studies and will also appeal to practicing musicians
