of Philosophy University of Chicago In this audacious and long awaited book Joel Rudinow takes seriously a range of interrelated issues that most music theorizing is embarrassed to tackle People often ask me about music and spirituality With Soul Music I can finally recommend a book that offers genuine philosophical insight into the topic Theodore Gracyk Professor of Philosophy Minnesota State University Moorhead The idea is as strange as it is commonplace that the soul in soul music is more than just a name that somehow the music truly taps into something essential rooted in the spiritual notion of the soul itself Or is it strange From the civil rights movement and beyond soul music has played a key indisputable role in moments of national healing Of course American popular music has long been embroiled in controversies over its spiritual purity or lack thereof But why However easy it might seem to dismiss these ideas and debates as quaint and merely symbolic they persist In Soul Music Tracking the Spiritual Roots of Pop from Plato to Motown Joel Rudinow a philosopher of music takes these peculiar notions and exposes them to serious scrutiny How Rudinow asks does music truly work upon the soul individually and collectively And what does it mean to say that music can be spiritually therapeutic or toxic This illuminating meditative exploration leads from the metaphysical idea of the soul to the legend of Robert Johnson to the philosophies of Plato and Leo Strauss to the history of race and racism in American popular culture to current clinical practices of music therapy Joel Rudinow teaches in the Philosophy and Humanities Departments at Santa Rosa Junior College and is the coauthor of Invitation to Critical Thinking and the coeditor of Ethics and Values in the Information Age *Soul Music* Elenora Jones, 2010-11-22

Jim Crow and the Soul. African American Vernacular English (AAVE) in Soul Music During the 1960s and 1970s Patrick Husfeldt, 2020-06-09 Bachelor Thesis from the year 2016 in the subject English Language and Literature Studies Linguistics grade 1.3 Christian Albrechts University of Kiel language English abstract The question that will be addressed in this thesis is whether dialect choice in soul music from Memphis and Detroit was with regard to commercial success stronger than the mostly homogeneous character of African American Vernacular English AAVE across all regions of the US A detailed linguistic analysis of a selection of songs from Motown and Stax will try to investigate the extent to which that artists from Detroit did adapt their language habits to their surrounding white fellow citizens This might be even more interesting for northern blacks who moved away from their dialect roots in the South With respect to a separation from the white population which can at least be assumed for the artists childhood and early adulthood it appears necessary to look at certain features that were either kept or lost In addition the analysis will try to connect the commercial success of all included songs and artists to the language habits of the performers First some background for this paper s study will be provided including the social implications of AAVE and the reference studies for the analysis Then the relevant phonological and grammatical variables will be listed and explained These variables will be with regard to the Motown and Stax data sets analyzed in detail Finally the interpretation of the results will try to find an answer to the thesis of this paper
