Soul Search Swarn Bains, 2016-07-14 This book is a translation of my Punjabi poetry excluding few English poems in the beginning God came into existence first God worshipped inner source of knowledge guru to come into existence A teacher who teaches English is called English teacher Teacher who teaches math is called math teacher Same way the teacher who teaches spirituality is called guru Worldly teachers teach from the brain to brain The guru teaches the soul from soul Guru is a mentor as well It is telepathic transformation Make your own judgment When God felt lonely he created the creation He started caring for it Doing so he got attached to it and fell in love God set love as prerequisite to realize him The Creation is a testament to it Mind is a thought processing system Spirituality is a study of the mind Divinity is a state of mind Spirituality is a rehearsal of the mind to miss God and it straightens following gurus teaching Sometimes it helps to follow the teachings of prophets or saints But they have died long ago So it has very little effect because the spirituality is learned telepathically from mind to mind from a living guru The mind does not tune to spirituality without the gurus blessing It can only be learnt by self surrendering It cannot be forced into the devotees mind It can be learned from a spiritual teacher through love humility and dedication God is great Everything created by God is also great So everything in the world is flawless and beautiful To stay abreast with Creation God assimilated himself in everything That is why God is called omnipresent God created his creations including human beings God abides in everything So God has mothers love and motherly relation with his subjects The subjects also have motherly relation with God God wants us to realize him and we also want to merge with him to end separation I do not know much about other species but man has instinct to go back and merge with the entity he separated from So it is a mother child relationship There are many types of faiths procedures and processes people use to find a way to go back to him We assume that God is one Therefore the final process to realize him also must be one only Finally all processes merge and end up in one that is to learn from a learned master the guru The world is a terrifying world ocean The being is on one side of it and godliness or to merge with God is on the other side of the ocean Gurus teaching is the process to take the being across the terrifying world ocean It is a lot easier to learn from a teacher than your own I was fortunate to meet my guru and become his devotee and follow his teaching and advice At the same time I started to read and contemplate the Sikh religious scripture Siree Guru Granth Sahib It is a spiritual book only It has no stories that a person has to learn from Writing in SGGS is by living saints and it emphasizes that guru is God One will have to console with guru to console with God Other important criteria to realize God is selfless love humility and dedication mentioned in SGGS Most harmful events from becoming divine are duality and slander I learned from my guru and from reading SGGS I decided my path and I follow it under my gurus guidance and following the teachings of SGGS Both have same message and advice God is the highest power in the universe In order to miss him recitation and repetition are necessary So there is lot of repetition about praising God in this book To understand this book the reader has to tune his mind to soul searching Some people

explicitly defines the nature of the soul or spirit which is actually quite puzzling or even ironic given that one major aim of Scripture is spiritual development and ultimate questions about the soul In fact Judeo Christian thinking on those questions has been evolving over the course of four thousand years This book documents that evolution as a man named Abram left Babylon four thousand years ago journeying through the lands and the philosophies of civilizations preceding him by many more thousands of years while he and his descendants both physical and spiritual unpacked their understanding of our inner being the human soul and the afterlife That journey is followed to the present day and examines how a critically thinking Christian can embrace a theology of the human soul that is fully compatible with modern scientific findings including explanations for consciousness mind and soul

Soul Searching A. R. Jones, 2012-07 A brand new soul His first lifetime It can't be that difficult can it The innocence of the question Jack poses as he leaves the world he knows so well and dives into the complexity of life allows us a chuckle New and naive this soul is bombarded by the senses and restrictions of physical existence yet once death releases him back to familiarity he begins an intriguing journey of self discovery The extraordinary beauty and characteristics of our spiritual nature are brought into focus as we accompany Jack on his journey Time and again he takes on his challenges stumbling failing learning with his steps often mirroring our own An innate desire propels Jack onward allowing us insight into the world we know so well and the tantalizing realms that beckon us And we see that it can be that difficult as we catch a glimpse of Heaven and walk to the edges of Hell

Soul Searching : The Religious and Spiritual Lives of American Teenagers Christian Smith Dr William R Kenan Jr Professor of Sociology University of Notre Dame, Candidate University of North Carolina Melina Lundquist Denton Ph.D, Chapel Hill USA, 2005-01-25 In innumerable discussions and activities dedicated to better understanding and helping teenagers one aspect of teenage life is curiously overlooked Very few such efforts pay serious attention to the role of religion and spirituality in the lives of American adolescents But many teenagers are very involved in religion Surveys reveal that 35% attend religious services weekly and another 15% attend at least monthly 60% say that religious faith is important in their lives 40% report that they pray daily 25% say that they have been born again Teenagers

feel good about the congregations they belong to Some say that faith provides them with guidance and resources for knowing how to live well What is going on in the religious and spiritual lives of American teenagers What do they actually believe What religious practices do they engage in Do they expect to remain loyal to the faith of their parents Or are they abandoning traditional religious institutions in search of a new more authentic spirituality This book attempts to answer these and related questions as definitively as possible It reports the findings of The National Study of Youth and Religion the largest and most detailed such study ever undertaken The NYSR conducted a nationwide telephone survey of teens and significant caregivers as well as nearly 300 in depth face to face interviews with a sample of the population that was surveyed The results show that religion and spirituality are indeed very significant in the lives of many American teenagers Among many other discoveries they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought They refute the conventional wisdom that teens are spiritual but not religious And they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes This eagerly awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but because teenagers serve as bellwethers for possible future trends it affords an important and distinctive window through which to observe and assess the current state and future direction of American religion as a whole **Lost Soul Searching** Jean
