The Good Land Farm Families Remember:

The Good Land Ken Wysocky,1995 **What Matters?** Wendell Berry,2010-04-23 The reasoned and insistent exhortations of a man with a cause who rather than mellowing with age and wisdom continues to grow in forcefulness and vision Booklist Over the years Wendell Berry has sought to understand and confront the financial structure of modern society and the impact of developing late capitalism on American culture There is perhaps no more demanding or important critique available to contemporary citizens than Berry s writings just as there is no vocabulary more given to obfuscation than that of economics as practiced by professionals and academics Berry has called upon us to return to the basics He has traced how the clarity of our economic approach has eroded over time as the financial asylum was overtaken by the inmates and citizens were turned from consumers entertained and distracted to victims threatened by a future of despair and disillusion For this collection Berry offers essays from the last twenty five years alongside new essays about the recent economic collapse including *Money Versus Goods* and *Faustian Economics* treatises of great alarm and courage He offers advice and perspective as our society attempts to steer from its present chaos and recession to a future of hope and opportunity With urgency and clarity Berry asks us to look toward a true sustainable commonwealth grounded in realistic Jeffersonian principles applied to our present day *Consumers' Guide* ,1943 *American Dreams, Rural Realities* Peggy F. Barlett,1993-01-01 This book draws on the stories and words of over a hundred farm families in an average county in Georgia s prime agricultural region to construct an account of the disaster years and their consequences *Six Generations Here* Marjorie McLellan,2013-07-01 *Six Generations Here A Farm Family Remembers* by Marjorie L McLellan with an essay by Kathleen Neils Conzen and a foreword by Dan Freas Discover the story of the Krueger family as images of farm family and landscape reveal the struggles of rural immigrant life in Wisconsin Drawing on snapshots memorabilia and interviews *Six Generations Here* brings together the voices of the past and the present to create a distinctive portrait of Wisconsin farm life Leaving their German home in 1851 the Kruegers came to America for economic opportunity But like other immigrant families they struggled to make ends meet Only with the whole family helping out did they manage to get their Watertown farm up and running By the turn of the century they had achieved a life of middle class comfort in the midst of the rigors of dairy farming Over the generations the Kruegers incorporated their past traditions with the needs of the present adapting to the challenges of rural American life and when necessary breaking from the past Despite these changes their commitment to hard work and family persisted shaped their identity and ensured their success Through photographs documents and family stories the Kruegers left a deep history of who they were and how they sought to be remembered Follow their family through six generations as they compile a rich and varied record of Wisconsin life *Making a Way out of No Way* Lisa Krissoff Boehm,2010-01-06 The Second Great Migration the movement of African Americans between the South and the North that began in the early 1940s and tapered off in the late 1960s transformed America This migration of approximately five million

people helped improve the financial prospects of black Americans who in the next generation moved increasingly into the middle class Over seven years Lisa Krissoff Boehm gathered oral histories with women migrants and their children two groups largely overlooked in the story of this event She also utilized existing oral histories with migrants and southerners in leading archives In extended excerpts from the oral histories and in thoughtful scholarly analysis of the voices this book offers a unique window into African American women s history These rich oral histories reveal much that is surprising Although the Jim Crow South presented persistent dangers the women retained warm memories of southern childhoods Notwithstanding the burgeoning war industry most women found themselves left out of industrial work The North offered its own institutionalized racism the region was not the promised land Additionally these African American women juggled work and family long before such battles became a staple of mainstream discussion In the face of challenges the women who share their tales here crafted lives of great meaning from the limited options available making a way out of no way **Hearings** United States. Congress Senate,1943 **The Gardeners' Chronicle and Agricultural Gazette** ,1851 The Greater Good Laura Beth Daws,Susan Lorene Brinson,2019-02-12 Examines the role of press coverage in promoting the mission of the TVA facilitating family relocation and formulating the historical legacy of the New Deal For poverty stricken families in the Tennessee River Valley during the Great Depression news of President Franklin D Roosevelt s New Deal plans to create the Tennessee Valley Authority bringing the promise of jobs soil conservation and electricity offered hope for a better life The TVA dams would flood a considerable amount of land on the riverbanks however forcing many families to relocate In exchange for this sacrifice for the greater good these families were promised fair market value for their land As the first geographic location to benefit from the electricity provided by TVA the people of North Alabama had much to gain but also much to lose In The Greater Good Media Family Removal and TVA Dam Construction in North Alabama Laura Beth Daws and Susan L Brinson describe the region s preexisting conditions analyze the effects of relocation and argue that local newspapers had a significant impact in promoting the TVA s agenda The authors contend that it was principally through newspapers that local residents learned about the TVA and the process and reasons for relocation Newspapers of the day encouraged regional cooperation by creating an overwhelmingly positive image of the TVA emphasizing its economic benefits and disregarding many of the details of removal Using mostly primary research the volume addresses two key questions What happened to relocated families after they sacrificed their homes lifestyles and communities in the name of progress And what role did mediated communication play in both the TVA s family relocation process and the greater movement for the public to accept the TVA s presence in their lives The Greater Good offers a unique window into the larger impact of the New Deal in the South Until now most research on the TVA was focused on organizational development rather than on families with little attention paid to the role of the media in garnering acceptance of a government enforced relocation *The Latin American Farmer* John Abel Hopkins,1969
