The Good Of Affluence Seeking God In A Culture Of Wealth:

The Good of Affluence John R. Schneider, 2002 wealth incompatible with true Christianity In The Good of Affluence John R. Schneider reopens the debate over the proper Christian attitude toward money arguing ultimately that Scripture does indeed provide support for the responsible possession of wealth This is a provocative book of Christian theology written to help people seeking God in a culture that has grown from modern capitalism By comparing classic Christian teaching on wealth with the realities of our modern economic world Schneider challenges the common presumption that material affluence is inherently bad Careful interpretation of Scripture narratives creation exodus exile and more also shows that abundance is the condition that God envisions for all human beings and that faithful persons of wealth are part of this plan Schneider believes that the wealth as blessing themes of the Old Testament are not to be spiritualized and do not run contrary to New Testament teachings but provide exactly the frame of reference for the incarnate identity life and teaching of Jesus who came to make real the messianic feast both in this age and in the age to come Through insightful engagement with the biblical text Schneider overturns some of the most cherished and unquestioned assumptions of influential Christian writers particularly Ronald Sider on modern capitalist affluence Yet Schneider's message is also finely balanced with the need for responsible Christian living He offers rich Christians biblical affirmation but also challenges them to a life shaped by an uncommon sense of stewardship and compassion Incisive thought provoking and biblically grounded The Good of Affluence is a superb resource for anyone students professors businesspeople general readers discussion groups wishing to grapple seriously with the subject of faith and wealth

The Good of Affluence John R. Schneider, 2002 A provocative book of Christian theology discusses the relationship between faith and money challenging the presumption that material affluence is inherently bad and carefully interpreting Scripture to show that prosperity is the condition that God envisions for all human beings provided that it is accompanied by stewardship and compassion

The Cross and Reaganomics Eric R. Crouse, 2013-05-16 The Cross and Reaganomics Conservative Christians Defending Ronald Reagan by Eric R Crouse offers important insights on why Reaganomics was a major reason conservative Christians supported Reagan at the polls On election night in November 1980 Americans witnessed the victory of a conservative to the presidency With the United States experiencing economic stagnation and high inflation many were hopeful of Ronald Reagan's deeds matching his optimistic rhetoric of America's potential What followed was a decade of economic transformation military buildup and a political awakening of conservatism One story that has not received much attention is the relationship between conservative Christians and Ronald Reagan's economic policies Crouse argues that conservative Christians were among the strongest

champions of limited government free enterprise particularly small business and anticommunism A surprising number of conservative Christian leaders discussed the works of major free market economists Conservative Christians embraced and tapped into the traditional American values of individual opportunity personal responsibility and human freedom all themes they believed were front and center in Reaganomics Although American pluralism prevented any plan to Christianize the nation by politics in the sphere of economics conservative Christians did witness political and cultural gains *The Oxford Handbook of Evangelical Theology* Gerald R. Buck, 2016-06-02 Reframing the House continues the conversation of global theology as the future of the church Jennifer Buck tells how women's voices from Africa Asia and Latin America serve as a critique of Evangelical theology of the church in the West Three voices are highlights here from the Majority world Mercy Oduyoye a Ghanaian feminist theologian as representative of Africa Kwok Pui lan a Chinese feminist theologian as representative of Asia and Maria Pilar Aquino a Mexican feminist theologian representative of the Americas Working with these women along with Quaker political and feminist voices this work presents a constructive global ecclesiology exploring areas such as salvation sin peacemaking and more *Nurturing Child and Adolescent Spirituality* Karen-Marie Yust, 2006 Nurturing Child and Adolescent Spirituality Perspectives from the World's Religious Traditions provides a forum for prominent religious scholars to examine the state of religious knowledge and theological reflection on spiritual development in childhood and adolescence Featuring essays from thinkers representing the world's major religious traditions the book introduces new voices challenges assumptions raises new questions and broadens the base of knowledge and investment in this important domain of life It specifically and intentionally focuses on theological and philosophical perspectives from within religious traditions creating space for the religious traditions to find their voices Nurturing Child and Adolescent Spirituality is firmly grounded in the language and priorities of religious studies and helps stimulate explorations of whether and how religious communities are tapping their own wisdom and strengths in nurturing today's young people in a complex and changing world Nurturing Child and Adolescent Spirituality will set the stage for new waves of scholarship and dialogue within and across traditions disciplines and cultures that will enrich understanding and strengthen how the world's religious traditions and others understand and cultivate the spiritual lives of children and adolescents around the globe *Christian Moral Theology in the Emerging Technoculture* Brent Waters, 2016-05-23 We are living in an emerging technoculture Machines and gadgets not only weave the fabric of daily life but more importantly embody philosophical and religious values which shape the contemporary moral vision a vision that is often at odds with Christian convictions This book critically examines those values and offers a framework for how Christian moral theology should be formed and lived out within the emerging technoculture

Brent Waters argues that technology represents the principal cultural background against which contemporary Christian moral life is formed Addressing contemporary ethical and religious issues this book will be of particular interest to students and scholars exploring the ideas of Heidegger Nietzsche Grant Arendt and Borgmann A Pentecostal Political Theology for American Renewal Steven M. Studebaker, 2016-10-26 This book argues that Christians have a stake in the sustainability and success of core cultural values of the West in general and America in particular Steven M Studebaker considers Western and American decline from a theological and specifically Pentecostal perspective The volume proposes and develops a Pentecostal political theology that can be used to address and reframe Christian political identity in the United States Studebaker asserts that American Christians are currently not properly engaged in preventing America s decline or halting the shifts in its core values The problem he suggests is that American Christianity not only gives little thought to the state of the nation beyond a handful of moral issues like abortion but its popular political theologies lead Christians to think of themselves more as aliens than as citizens This book posits that the proposed Pentecostal political theology would help American Christians view themselves as citizens and better recognize their stake in the renewal of their nation The foundation of this proposed political theology is a pneumatological narrative of renewal a biblical narrative of the Spirit that begins with creation proceeds through Incarnation and Pentecost and culminates in the new creation and everlasting kingdom of God This narrative provides the foundation for a political theology that speaks to the issues of Christian political identity and encourages Christian political participation **The Paradise of God** Norman Wirzba, 2003-09-11 In this work Norman Wirzba argues that the doctrine of creation as presented in the Bible and as developed through the centuries actually holds the key to a true understanding of our place in the environment and our responsibility towards it
