Qualls,2018-05-30 The role of women in church leadership is controversial however the Pentecostal tradition and specifically the Assemblies of God has held that women can serve at all levels of church leadership There is no role that is off limits to women Citing their distinctive approach to theology Pentecostals embrace women s leadership in policy but in practice women are often frustrated by the lack of opportunity and representation in leadership roles By exploring the rhetorical history how Pentecostals talk about the role of women the purpose of this book is to expose those rhetorical constraints that create dissonance and discontentment This book explores how Pentecostals use and are used by language that shapes this dissonance and how that impacts the lived reality of both men and women in the Pentecostal tradition Women on

Corporate Boards of Directors Ronald J. Burke,M.C. Mattis,2013-03-09 Both the practitioner and academic communities have voiced strong opinions regarding the progress of women in reaching the executive suite and the corporate boardroom

Proponents on each side of the current debate offer evidence suggesting the accuracy of their respective positions One view holds The fight is over The battle is won Women are now accepted as outside directors in the preponderance of corporate boardrooms Lear 1994 10 An alternative perspective however suggests there is much progress left An illustration of the type of remaining barriers is provided by T J Rodgers chief executive officer CEO of Cypress Semiconductor Corp who has commented that a woman s view on how to run our semiconductor company does not help us Rodgers 1996 14 Regardless of where one falls along the spectrum anchored at one end by the view that women have made substantial progress in reaching the upper echelons of corporations and anchored at the other end by the view that women have barely begun to penetrate the inner sanctum of corporations the central issue is the extent to which women have succeeded in cracking the proverbial glass ceiling The glass ceiling is a metaphorical barrier which prevents women from attaining the upper most organizational positions e g Karr 1991 Morrison White Van Velsor and the Center for Creative Leadership 1992 Powell U S Department of Labor 1991 **The YWCA Magazine** ,1916 Between Colliding Worlds Jonathan Malloy,Institute of Public

Administration of Canada,2003-01-01 Jonathan Malloy s Between Colliding Worlds examines the relationship between governments and external activists through a comparative study of policy units dedicated to aboriginal and women s issues in Australia and Canada Malloy identifies these units or special policy agencies as sitting on the boundary between the world of permanent public servants and that of collective social movements working for broad social and political change These agencies at once represent the interests of social movements to government while simultaneously managing relations with social movements on behalf of government and thus operate in a state of permanent ambiguity Malloy contends that rather

than criticizing these agencies for their inherently contradictory nature we must reconsider them as effectively dealing with the delicate issue of bridging social movements with state politics In other words the very existence of these special policy agencies provides a forum for social movements and the state to work out their differences Relying heavily on interviews with public servants and external activists Malloy argues convincingly that special policy agencies despite or because of their ambiguous relationship to different communities make critical contributions to governance *U.N.
