The Grammar Of The Real Selected Prose 1959 1974:

The Grammar of the Real James Phillip McAuley, 1975 **The Shadow of the Precursor** Nena Bierbaum, 2011-10-18 A shadow in its most literal sense is the projection of a silhouette against a surface and the obstruction of direct light from hitting that surface For writers and artists the shadows cast by their precursors can be either a welcome influence one consciously evoked in textual production via homage or bricolage or can manifest as an intrusive haunting prohibitive presence one which threatens to engulf the successor Many writers and artists are affected by an anxious and ambiguous relationship with their precursors while others are energised by this relationship The role that intertextuality plays in creative production invites interrogation and this publication explores a range of conscious and unconscious influences informing relations between texts and contexts between predecessors and successors The chapters revolve around intertextual influence ranging from conscious imitation and intentional allusion to Julia Kristeva's idea of intertextuality Do all texts contain references to and even quotations from other texts Do such references help shape how we read This multidisciplinary work includes chapters on the long shadows cast by Shakespeare Dante Scott Virgil and Ovid the shadows of colonial precursors on postcolonial successors the shadows cast over Kipling and Murdoch and chapters on other writers dramatists and filmmakers and their relationships with precursor figures With its focus on intertextual relationships this book contributes to the thriving fields of adaptation studies and studies of intertextuality *Writing in Hope and Fear* John McLaren, 1996 A compelling critical and historical account of politics in postwar Australian literary culture **The Devil and James McAuley** Cassandra Pybus, 1999 Follows McAuley's life from his student days at Sydney Uni through the war years his conversion to Catholicism his anticommunist activities during the Cold War period and his editorship of *Quadrant* with revelations about CIA funding and involvement with ASIO A controversial new political biography **A Guide to Twentieth Century Literature in English** Harry Blamires, 2021-06-23 First published in 1983 A Guide to Twentieth Century Literature in English is a detailed and comprehensive guide containing over 500 entries on individual writers from countries including Africa Australia Canada the Caribbean India Ireland New Zealand Pakistan Sri Lanka and the UK The book contains substantial articles relating to major novelists poets and dramatists of the age as well as a wealth of information on the work of lesser known writers and the part they have played in cultural history It focuses in detail on the character and quality of the literature itself highlighting what is distinctive in the work of the writers being discussed and providing key biographical and contextual details A Guide to Twentieth Century Literature in English is ideal for those with an interest in the twentieth century literary scene and the history of literature more broadly *The Heart of James McAuley* Peter Coleman, 2006 *The Heart of James McAuley* examines the work of the famous poet editor critic and political thinker It places the poetry in its biographical context from his anarchistic and avant garde youth to the libertarian conservative and Catholic convert of later years It takes a new look at the great Ern Malley hoax his profound essays on the decolonization of

New Guinea his association with such major figures as B A Santamaria and Sir John Kerr his involvement with the Industrial Groups in the ALP and with the DLP his founding of the magazine Quadrant and his response to a number of controversies from the CIA scandals to the New Left assaults on the universities No other biography of McAuley encompasses all the wide ranging activities of this great poet

The Enchantment of English Dale, Leigh, 2012-11-28 The Enchantment of English is a study of the teaching of English in Australian universities from its beginnings in the second half of the 19th century through to the 1960s and 1970s a period in which universities proliferated and diversified Written from the belief that every discipline is enhanced by understanding the arguments made for its existence and the conditions in which it was established the author aims to help students and colleagues to think critically about the impact of institutional location in forming our habits of mind Amidst these stories of politics critical debates scrambling for appointments in specific areas and disputes about the need to satisfy the demands of students and the public for usefulness this history reveals something intangible but durable the power of the literary text over the imagination and the power of the idea of England and its writers as a basis and motive for reading and study hence The Enchantment of English
