The Grand Tetons The Story Of Taming The Western Wilderness:

The Grand Tetons Margaret Sanborn, 1978 Discusses the Teton Mountains in Wyoming the Indians who lived there and the exploration and settlement of the area from the first Lewis and Clark expedition in 1803 Explorations in Place Attachment Jeffrey Smith, 2017-11-09 The book explores the unique contribution that geographers make to the concept of place attachment and related ideas of place identity and sense of place It presents six types of places to which people become attached and provides a global range of empirical case studies to illustrate the theoretical foundations The book reveals that the types of places to which people bond are not discrete Rather a holistic approach one that seeks to understand the interactive and reinforcing qualities between people and places is most effective in advancing our understanding of place attachment *The Rivers of America* Carol Fitzgerald, 2001 A comprehensive description of the 65 title Rivers of America book series 1937 1974 *Annals of Wyoming*, 1996 **Wyoming Wildlife: A Natural History** Paul Johnsgard, 2019-06-30 This book surveys Wyoming's mammal bird reptile and amphibian faunas In addition to introducing the state's geography geology climate and major ecosystems it provides 65 biological profiles of 72 mammal species 195 profiles of 196 birds 9 profiles of 12 reptiles and 6 profiles of 9 amphibians There are also species lists of Wyoming's 117 mammals 445 birds 22 reptiles and 12 amphibians Also included are descriptions of nearly 50 national and state properties including parks forests preserves and other public access natural areas in Wyoming The book includes a text of more than 150 000 words nearly 700 references a glossary of 115 biological terms nearly 50 maps and line drawings by the author and 33 color photographs by Thomas D Mangelsen Owen Wister and the West Gary Scharnhorst, 2015-03-16 Westerns are rarely only about the West From the works of James Fenimore Cooper to Gary Cooper stories set in the American West have served as vehicles for topical commentary More than any other pioneer of the genre Owen Wister turned the Western into a form of social and political critique touching on such issues as race the environment women's rights and immigration In *Owen Wister and the West* a biographical literary account of Wister's life and writings Gary Scharnhorst shows how the West shaped Wister's career and ideas even as he lived and worked in the East The *Virginian* Wister's claim to literary fame was published in 1902 but his writing career actually began in 1891 and continued for twenty five years after the publication of his masterpiece Scharnhorst traces Wister's western connections up to and through the publication of *The Virginian* and shows that the author remained deeply connected to the American West until his death in 1938 Like his Harvard friend Theodore Roosevelt Wister was the sickly scion of an eastern family who recuperated in the West before returning to his home and inherited social position His life story is punctuated with appearances by such contemporaries as Frederic Remington Rudyard Kipling and Ernest Hemingway Scharnhorst thoroughly discusses Wister's experiences in the West including a detailed chronology of his travels and the writings that grew out of them He offers numerous insights into Wister's adroit use of sources and provides revealing comparisons between Wister's western works and the writings of other authors treating the same region

The West Scharnhorst shows was the crucible in which Wister tested and expressed his political opinions most of them startlingly conservative by present standards Yet The Virginian remains the template for the western novel today More than any other Western writer of the past century and a half Wister's career merits resurrection *The Rough Guide to Yellowstone & Grand Teton* Rough Guides,2011-07-01 The Rough Guide to Yellowstone designed to help you best enjoy your trip to Yellowstone and Grand Teton National Parks Whether you want to avoid Yellowstone's notorious high season crowds know when and where to spot a moose in Grand Teton or simply find where to eat and sleep in either Yellowstone or Grand Teton this guide has it all The Rough Guide to Yellowstone Grand Teton is packed with full colour photos richly detailed maps reviews on every single restaurant and lodge within Yellowstone and Grand Teton and comprehensive looks at the Parks various gateway towns The guide also takes a detailed look at hiking with two full chapters dedicated to the best day and overnight hikes found in each park **Early Days on the Western Slope of Colorado** Sidney Jocknick,1968 **Moon Best of Yellowstone & Grand Teton** Becky Lomax,2023-03-28 Whether you're stopping for a day hike or spending a long weekend under the stars escape to the great outdoors with Moon Best of Yellowstone Grand Teton Inside you'll find Easy itineraries for one to three days in Yellowstone and Grand Teton National Parks from an afternoon sighting of Old Faithful to a hike to Inspiration Point to a weekend exploring both parks with mix and match itineraries The top hikes in Yellowstone and Grand Teton Whether you're looking to stretch your legs for a couple hours or challenge yourself to an epic trek you'll find trailheads detailed trail descriptions individual maps mileage and elevation gains Can't miss experiences Make it the perfect getaway with the best lakes views picnic spots and more Hike through alpine forests to rushing waterfalls and panoramic lakeside views or catch a glimpse of wild bison elk wolves or bears Bask in the colorful radiance of Grand Prismatic Spring or stroll the boardwalks along Mammoth Hot Springs Stunning full color photos and detailed maps throughout plus a full color foldout map Essential planning tips Find out when to go where to stay and what to pack plus up to date information on entrance fees reservations and safety advice Know how from outdoors expert and former park guide Becky Lomax Make the most of your adventure with Moon Best of Yellowstone Grand Teton Planning a longer trip Pick up Moon Yellowstone Grand Teton Visiting more of North America's incredible national parks Try Moon USA National Parks About Moon Travel Guides Moon was founded in 1973 to empower independent active and conscious travel We prioritize local businesses outdoor recreation and traveling strategically and sustainably Moon Travel Guides are written by local expert authors with great stories to tell and they can't wait to share their favorite places with you *Subject Guide to Books in Print* ,1993
