**The Great Tellurian Crown** G. Carroll Rice, 2004-03      **Manual of Direction for the Use of the Stellar Tellurian** Edward Payson Jackson, 1872      Legal Emblems and the Art of Law Peter Goodrich, 2014

The emblem book was invented by the humanist lawyer Andrea Alciato in 1531. The preponderance of juridical and normative themes of images of rule and infraction of obedience and error in the emblem books is critical to their purpose and interest. This book outlines the history of the emblem tradition as a juridical genre along with the concept of and training in obiter depicta in things seen along the way to judgment. It argues that these books depict norms and abuses in classically derived forms that become the visual standards of governance. Despite the plethora of vivid figures and virtual symbols that define and transmit law, contemporary lawyers are not trained in the critical apprehension of the visible. This book is the first to reconstruct the history of the emblem tradition, evidencing the extent to which a gallery of images of law already exists and structuring how the public realm is displayed, made present, and viewed.

Cox, Philip Francis Nowlan, Richard Stockham, Ignatius Donnelly, Owen Gregory, H. G. Wells, E. M. Forster, Fred M. White, Mary Shelley, Edward Bulwer-Lytton, Rokeya Sakhawat Hossain, George Griffith, Edwin A. Abbott, Arthur Dudley Vinton, Gertrude Barrows Bennett, Hugh Benson, 2022-11-13

The anthology *The Greatest of Dystopian Classics of All Time* navigates the shadowy realms of human imagination through a striking collection of dystopian literature. It traverses time from Mary Shelley's prescient forebodings to the philosophical quandaries posed by E. M. Forster and the allegorical dimensions woven by Jonathan Swift. This collection encompasses a myriad of styles from the prophetic to the satirical, each shedding light on societal structures and individual agency. Distinct narratives engage with prevailing anxieties about technological advancement, moral decay, and socio-political upheaval, offering readers a venue to ponder the complexities of humanity itself. Contributing authors span the literary landscape, united by their stark portrayals of potential futures that extend beyond the conventional confines of their periods. Writers such as H. G. Wells, Edgar Allan Poe, and Ayn Rand craft speculative narratives that question the repercussions of socio-economic disparities and the ethical dilemmas inherent in technological progress. The anthology pays homage to diverse literary traditions and movements, including Romanticism's probing of human nature and realism's dialogue with industrial society, enhancing the book's thematic richness. This anthology invites readers to explore a confluence of prophetic voices and diverse literary crafts. It is an essential compendium for those seeking to understand the cultural and philosophical underpinnings of dystopian narratives across history. A unique intellectual journey within these pages awaits, challenging assumptions while providing multifaceted perspectives on the enduring appeal and relevance of dystopian fiction. The work is not only an engaging literary expedition but also a profound educational tool.
