The Greeks Pop Up:

The Greeks Pop-up Pamela Mara, 1984 A pop up book for children to cut and glue and make themselves Scenes and text tell the story of the ancient Greeks and their place in history The Ancient Greeks For Dummies Stephen Batchelor, 2011-02-15 The civilisation of the Ancient Greeks has been immensely influential on the language politics educational systems philosophy science and arts of Western culture As well as instigating itself as the birthplace of the Olympics Ancient Greece is famous for its literature philosophy mythology and the beautiful architecture to which thousands of tourists flock every year This entertaining guide introduces readers to the amazing world of the Ancient Greeks It offers a complete rundown of Greek history alongside fascinating insights into daily life in Ancient Greece and a captivating overview of Greek mythology Readers will discover how this ancient culture came to be the cornerstone of Western civilisation and the enormous influence it has had on our language politics education philosophy science arts and sport The history of Ancient Greece remains a wide topic of interest particularly renowned for its influential and diverse culture This basic guide will allow greater access to this vibrant area of study and provide a distinct and light hearted approach to this vast area history Covers dozens of topics including the early civilisations war fighting home family day to day life and much much more About the author Steve Batchelor is a lecturer in Classics at Richmond College and has been teaching ancient history for 10 years He has written reviews for various publications including History Today and he has also been involved in running guided historical tours of Greece Ragnarok Dennis J. Barton, 2011-07-21 In a world where the old gods of all religions have returned to rule the earth and North America is ruled by the ancient Norse pantheon Lucky is the sheriff of Ragged Rock County where all types of mythical monsters live apart from normal humans Lucky was appointed to this position by his old college pal the Norse god Thor It s a dangerous life but a good one keeping order among frost giants vampires were beasts and other frightful creatures and Lucky does well for his wives and his children But in the course of his daily duties on Midgard his official visits to Asgard and a series of flashbacks to his college days with Thor Lucky begins to suspect that all is not as it seems When the sheriff s station is destroyed by a mysterious and powerful new monster Lucky is drawn into a web of danger and intrigue and must seek the deeply hidden truth **Learn Ancient Greek** P V Jones, 2003 With enthusiasm and wry wit author Jones takes you step by step through the rudiments of the Western World s first great language the medium of Plato and the New Testament Introduces the Greek alphabet explains each grammar point in layman s terms gives plenty of study hints provides answers for the exercises and even presents a to do list at the end of most chapters Not too far into the book you ll already be reading masterful Greek literature in extracts chosen from such authors as Plato Sophocles and Thucydides Offers a discussion of Greek history and culture in each chapter and another feature that looks closely at Greek words with special emphasis on related words in English From publisher description *The World of Ancient Greece* Michael Lovano, 2019-12-02 This book opens the world of the ancient Greeks to all readers through easily accessible entries

on topics essential to understanding Greek high culture and daily life The ancient Greeks provided the foundation for Western civilization They made significant advances in science mathematics philosophy literature and government While many readers might have heard of Plato and Aristotle however or be familiar with the classic works of Greek tragedy most people know significantly less about daily life in the ancient Greek world This encyclopedia opens the world of the ancient Greeks spanning Greek history from the Bronze Age through Roman times with an emphasis on the Classical and Hellenistic Eras The encyclopedia provides roughly 270 easily accessible entries on topics essential to understanding everything from Greek high culture to daily life These entries are grouped in topical sections on the arts science and technology politics and government domestic life and other subjects Sidebars on particularly noteworthy people places and concepts provide related information while primary documents allow readers to delve into the mindset and feelings of the ancient Greeks themselves Extensive bibliographic references give curious readers direction for further research

The Metamorphosis of Greek Cuisine Nafsika Papacharalampous, 2023-11-10 This book is an ethnography of the metamorphosis of rural foods and traditional dishes and of the making of cuisine and identity in contemporary Athens In the wake of the financial crisis in Athens in the mid 2010s forgotten rural foods of the past are transformed into luxurious artisanal foods while traditional dishes appear reinvented in fine dining restaurants after decades of darkness How and why is this all happening in a city of poverty hardship and economic crisis Through sensory descriptions and thick ethnographic material it follows the Athenian affluent middle class in upscale delis and goes inside fine dining restaurant kitchens discussing the complex combination of cuisine tradition memory and identity revealing the cultural logic and social aspects of cuisine It demonstrates how cuisine emerges from very different often contradictory social spaces not only as an intellectual and aesthetic endeavour of chefs or as a revival of foods and foodways that link the country and the city but also as interlinked with embodied memories and embedded in social relations and commensality This book will be of great interest to scholars and students in Anthropology and Food Studies

The Bible's Cutting Room Floor Joel M. Hoffman, 2014-09-02 There's more to the story A scholar and translator reveals the history of the Bible and the parts that were left out by accident or design The Bible you usually read is not the complete story Some holy writings were left out for political or theological reasons others simply because of the physical restrictions of ancient bookmaking technology At times the compilers of the Bible skipped information that they assumed everyone knew Some passages were even omitted by accident In *The Bible's Cutting Room Floor* acclaimed translator Dr Joel M Hoffman gives us the stories and other texts that didn't make it into the Bible even though they offer penetrating insight into the Bible and its teachings The Book of Genesis tells us about Adam and Eve's time in the Garden of Eden but not their saga after they get kicked out or the lessons they have for us about good and evil The Bible introduces us to Abraham but it doesn't include the troubling story of his early life which explains how he came to reject idolatry to become the father of monotheism And while there are only 150 Psalms in today's Bible there used to be many more Dr Hoffman deftly

brings these and other ancient scriptural texts to life exploring how they offer new answers to some of the most fundamental and universal questions people ask about their lives An impressive blend of history linguistics and religious scholarship The Bible s Cutting Room Floor reveals what s missing from your Bible who left it out and why it is so important Hoffman also provides an accessible and entertaining history of the context in which the rejected works arose a fascinating account of how the Dead Sea Scrolls came to light in the mid 20th century and what they include an analysis of Josephus s contributions to history and the relationship between the Septuagint the Greek translation of the Bible and the Hebrew Scriptures Publishers Weekly A wonderful book to confirm the beliefs of the faithful to strengthen those whose faith begs for more information and to enlighten those who reject the stories of the Bible as mere fiction Kirkus Reviews *World History* Steven Wallech,Touraj Daryaee,Craig Hendricks,Anne Lynne Negus,Peter P. Wan,Gordon Morris Bakken,2013-01-22 *World History* A Concise Thematic Analysis presents the highly anticipated second edition of the most affordable and accessible survey of world history designed for use at the college level An engaging narrative that contextualizes history and does not drown students in a sea of facts Offers a comparative analysis of the great civilizations of Eurasia Africa and the Americas Addresses themes of population dynamics food production challenges disease history warfare and other major issues for civilizations Features new interior design and organization to enhance user experience Instructor s test bank available online at <http://www.wiley.com/go/wallech> □□□□□□ □□□,2003 Brill's Companion to Greek Land Warfare Beyond the Phalanx ,2021-11-29 After decades of controversy there is now a growing consensus that Greek warfare was not singular and simple but complex and multiform In this volume emerging and established scholars build on this consensus to explore Greek warfare beyond its traditional focus on hoplites and the phalanx We expand the chronological limits back into the Iron Age the geographical limits to the central and eastern Mediterranean and the operational limits to include cavalry light armed troops and sieges We also look beyond the battlefield at integral aspects of warfare including religion the experiences of women and the recovery of the war dead
