Ann Pettifor

The Green:

The Green City Nicholas Low, 2005 A team of city building professionals explain in straightforward terms how the idea of ecological sustainability can be embodied in the everyday life of homes communities and cities to make a better future The book considers and answers three questions What does the global agenda of sustainable development mean for the urban spaces where most people live work and move Can we keep what we love about suburban life and still save the environment And what new methods of planning and building will be needed in the 21st century Rejecting both economic and environmental orthodoxy the book's essential message is that the sustainable city can be built by a thousand well directed small changes It draws on practical case material from around the world and weaves together four critical aspects of urban life housing open space workplaces and transport A photographic essay of 32 colour plates illustrates the ideas discussed

The Green Arte Josh Williams, 2022-10-25 An exploration of the magic of plants which exists far deeper than the green and nourishing existence we experience above ground Through the lenses of animism folk magic herbal medicine plant lore land connections and rituals aligned with tides of nature The Green Arte explores the magic of plants Hidden below in dark and mysterious depths are the roots of these beings which connect to something primordial raw wild and complex this is the mystery which Josh Williams explores in his second book Within these pages Josh introduces readers to the plant spirits allowing us to work with them in spiritual ways to create magic and medicine The Green Arte will act as a workbook for the engaged reader from herbalists and ritualists to anyone wanting to deepen their relationship with the natural world to grow their own work in the wonderful and magical bounty that nature and the plants have to offer *The Silver and the Green* Mari Collier, 2022-01-29 As Brother Amos grows to be the Teacher for all of Tonath he must stand against the heresies of the Silver Institute in Anoth and the Green Institute in Greenland Jack Donald has returned to his birth planet but cannot find proof of long ago documents Venta Strauss struggles to provide a haven for the poor and Grant Vidal is the Green Marauder accustomed to taking what he wants These are the three people who struggle to find their way in a new part of their world One will become the new Teacher one will rescue the older destitute women on the planet and one will give his life to save the others The leaders of the Mechams use the Silver Institute to spread their version of the Star Paths and the Greenlanders use the Green Institute to spread their version This means there are fights wars raids love triangles and people fighting to survive

Modernism in the Green Julia E. Daniel, Margaret Konkol, 2020-04-15 Modernism in the Green traces a trans Atlantic modernist fascination with the creation use and representation of the modern green From the verdant public commons in the heart of cities to the lookout points on mountains in national parks planned green spaces serve as felicitous stages for the performance of modernism In its focus on designed and public green zones Modernism in the Green offers a new perspective on modernism's overlapping investments in the arts politics urbanism race class gender and the nature culture divide This collection of essays is the first to explore the prominent and diverse ways greens materialize in modern

literature and culture along with the manner in which modernists represented them This volume presents the idea of the green as a point of exploration as our contributors analyze social organic spaces ranging from public parks to roadways and refuse piles Like the term green one that evokes both more than human natural zones and crafted public meeting places these chapters uncover the social and spatial intersection of nature and culture in the very architecture of parks gardens buildings highways and dumps This book argues that such greens facilitate modernists exploration of how nature can manifest in an era of increasing urbanization and mechanization and what identities and communities the green now enables or prevents The Case for the Green New Deal Ann Pettifor,2019-11-05 What is the Green New Deal and how can we

afford it To protect the future of life on earth we need to do more than just reimagine the economy we have to change everything One of the seminal thinkers of the program that helped ignite the US Green New Deal campaign Ann Pettifor explains how we can afford what we can do and what we need to do before it is too late The Case for the Green New Deal argues that economic change is wholly possible based on the understanding that finance the economy and the ecosystem are all tightly bound together The GND demands total decarbonization and a commitment to an economy based on fairness and social justice It proposes a radical new understanding of the international monetary system Pettifor offers a roadmap for financial reform both nationally and globally taking the economy back from the 1% This is a radical urgent manifesto that we must act on now The Biology of Sea Turtles, Volume I Peter L.
