The Greenpeace:

The Greenpeace to Amchitka Robert Hunter, 2005-04-01 Greenpeace is known around the world for its activism and education surrounding environmental and biodiversity issues With a presence in more than 40 countries across Europe the Americas Asia and the Pacific Greenpeace is undoubtedly a dominant force in the realm of environmental activism This is the story of how Greenpeace came to be In September 1971 a small group of activists boarded a small fishing boat in Vancouver Canada and headed north towards Amchitka a tiny island west of Alaska in the Aleutian Islands where the US government was conducting underground nuclear tests At that time protests against nuclear testing were not common yet the US tests raised genuine concerns Amchitka is not only the last refuge for endangered wildlife but is also located in a geologically unstable region one of the most earthquake prone areas in the world The threat of a nuclear triggered earthquake or tsunami was real Among the people sardined in the fishing boat were Robert Hunter and Robert Keziere The boat named the Greenpeace by the small group of men aboard raced against time as it crashed through the Gulf of Alaska braving the oncoming winter storms Three weeks was all they had to reach Amchitka in an attempt to halt the nuclear test Ultimately the voyage beset by bad weather interpersonal tensions and conflicts with US officials was doomed And yet the legacy of that journey lives on In this visceral memoir based on a manuscript originally written over 30 years ago Robert Hunter vividly depicts the peculiar odyssey that led to the formation of the most powerful environmental organization in the world Features 40 black and white photographs taken during the voyage by Robert Keziere *Make It a Green Peace!* Frank Zelko, 2013-05-30 The emergence of Greenpeace in the late 1960s from a loose knit group of anti nuclear and anti whaling activists fundamentally changed the nature of environmentalism its purpose philosophy and tactics around the world And yet there has been no comprehensive objective history of Greenpeace s origins until now *Make It a Green Peace* draws upon meeting minutes internal correspondence manifestos philosophical writings and interviews with former members to offer the first full account of the origins of what has become the most recognizable environmental non governmental organization in the world Situating Greenpeace within the peace movement and counterculture of the 1960s Frank Zelko provides a much deeper treatment of the group s groundbreaking brand of radical media savvy direct action environmentalism than has been previously attempted Zelko traces the complex intellectual and cultural roots of Greenpeace to the various protest movements of the 1950s and 1960s highlighting the influence of Quakerism with its practice of bearing witness Native American spirituality and the non violent resistance of Gandhi Unlike the more strait laced less confrontational Sierra Club and Audubon Society early Greenpeacers smoked dope dropped acid wore their hair long and put their bodies on the line interposing themselves between the harpoons of whalers and the clubs of seal hunters to save the animals and achieve what they hoped would be a lasting transformation in the way humans regarded the natural world And while it may not have achieved its most revolutionary goals Greenpeace inarguably created a heightened awareness of environmental issues that

endures to this day Narrating the key campaigns and arguments among the group s early members *Make It a Green Peace* vividly captures all the drama pathos and occasional moments of absurd comic relief of Greenpeace s tumultuous first decade

Greenpeace in the Circumpolar North Danita Catherine Burke,2025-11-04 This book explores Greenpeace s efforts to expand its engagement in the Circumpolar North in the 21st century and how this work is affected and informed by the organization s controversial legacy of anti sealing campaigning in the 1970s and 1980s Presenting the fallout for peoples and cultures targeted by Greenpeace s anti sealing campaigning as a pivotal dimension to the organization s history the book argues that this history must first be acknowledged in order to understand how Greenpeace has developed more positive working relationships in some instances with northern Indigenous peoples in recent years The book looks to dispel the misconception that Greenpeace is universally rejected in the Circumpolar North whilst also highlighting that its engagement and alliances are being built in the shadow of its yet to be fully tackled history as a leading part of the anti sealing movement Greenpeace in the Circumpolar North is ideal for courses and research with a focus on Arctic studies environmental activism and Indigenous studies and for those interested in learning more about the complex legacy of Greenpeace
