The Politics of Human Rights The Belgrade Circle,2020-05-05 This volume sets out to describe the political and philosophical underpinnings of the idea of human rights by bringing together a collection of original essays by a group of highly distinguished theorists Recognizing that Western insistence on the universality of the concept of human rights can also function as a diplomatic cover for post colonial interventions it insists that the campaign for human rights must take into account the varied social and economic environments in different nation states that affect the ways such demands can be implemented This campaign is most effective when demonstrating international solidarity with those whose basic rights are jeopardized or denied

*The German Predicament* Andrei S. Markovits,Simon Reich,2018-10-18 What does the unification of Germany really mean In their stimulating exploration of that question Andrei S Markovits and Simon Reich sketch diametrically different interpretations than are frequently offered by commentators One is that Germany well aware of the Holocaust has been Europeanized and is now prepared to serve as the capitalist and democratic locomotive that powers Europe The other is that the proclivities behind Auschwitz have been suppressed rather than obliterated from the German psyche Germany s liberal democracy was imposed by the allied victors according to this view and will one day dissolve revealing the old expansionist tendencies to try to Germanize all of Europe Markovits and Reich argue that benign contemporary assessments of Germany s postwar democracy combined with admiration for the country s economic achievements contribute to German influence far greater than military might was able to achieve Yet at the same time some Germans have internalized liberal and pacifist principles and now see their nation as powerless simply a larger Switzerland As a result while the Germans have enormous influence and latitude they have not taken responsibility for leadership The prime reason for this gap between ideology and structure Markovits and Reich suggest lies in the politics of collective memory

**The Politics of Nihilism** Nitzan Lebovic,Roy Ben-Shai,2014-09-25 Contemporary politics is faced on the one

hand with political stagnation and lack of a progressive vision on the side of formal institutional politics and on the other with various social movements that venture to challenge modern understandings of representation participation and democracy Interestingly both institutional and anti institutional sides of this antagonism tend to accuse each other of nihilism namely of mere oppositional destructiveness and failure to offer a constructive positive alternative to the status quo Nihilism seems then all engulfing In order to better understand this political situation and ourselves within it *The Politics of Nihilism* proposes a thorough theoretical examination of the concept of nihilism and its historical development followed by critical studies of Israeli politics and culture The authors show that rather than a mark of mutual opposition and despair nihilism is a fruitful category for tracing and exploring the limits of political critique rendering them less rigid and opening up a space of potentiality for thought action and creation

*Céline and the Politics of Difference*

Rosemarie Scullion, Philip H. Solomon, Thomas C. Spear, 1994-12-31 Eleven scholars provide a new interpretation of Celine's work and its underlying historical cultural and political matrix      The Politics of Swidden farming Debojyoti Das, 2018-09-28

The Politics of Swidden Farming offers a new explanation for the changes taking place in swidden farming practised in the highlands of eastern India through an ethnographic case study The book traces the story of agroecological change and state intervention to colonial times and helps understand contemporary agrarian change by contextualizing farming not just in terms of the science and technology of agriculture or conservation and biodiversity but also in terms of technologies of rule The Politics of Swidden Farming adds a new dimension to the underdeveloped literature on shifting cultivation in South Asia by focusing on the social ecology of farming and agrarian change in the hills It provides a comparative viewpoint to state centred and donor driven development in the frontier region by bringing in different actors and institutions that become the actants and agents of social change      *The Politics of the Soul* Glenn Hughes, 1999 The Politics of the Soul Eric Voegelin on Religious Experience includes eight essays examining one of the most profound studies of religious experience to appear in the last century that of the political philosopher Eric Voegelin Voegelin is increasingly recognized as a political theorist of exceptional scope and erudition and the most important philosopher of his time since Toynbee and his treatment of religious experience is a crucial part of his overall analysis of existence and history This collection of essays by prominent Voegelin scholars is the first book to explore the relevance of that analysis to the contemporary understanding of political theory theology history and philosophy of consciousness and as such it constitutes a significant contribution not only to Voegelin scholarship but to the current quest for theoretical foundations      **Rethinking the Politics of Absurdity** Matthew H. Bowker, 2013-11-12 What does it mean to describe something or someone as absurd Why did absurd philosophy and literature become so popular amidst the violent conflicts and terrors of the mid to late twentieth century Is it possible to understand absurdity not as a feature of events but as a psychological posture or stance If so what are the objectives dynamics and repercussions of the absurd stance And in what ways has the absurd stance continued to shape postmodern thought and contemporary culture In Rethinking the Politics of Absurdity Matthew H Bowker offers a surprising account of absurdity as a widespread endeavor to make parts of our experience meaningless In the last century he argues fears about subjects destructive desires have combined with fears about rationality in a way that has made the absurd stance seem attractive Drawing upon diverse sources from philosophy literature politics psychoanalysis theology and contemporary culture Bowker identifies the absurd effort to make aspects of our histories our selves and our public projects meaningless with postmodern revolts against reason and subjectivity Weaving together analyses of the work of Albert Camus Georges Bataille Judith Butler Emmanuel Levinas and others with interview data and popular narratives of apocalypse and survival Bowker shows that the absurd stance and the postmodern revolt invite a kind of bargain in which meaning is sacrificed in exchange for the survival of innocence Bowker asks us to consider that the very premise of this bargain is false that ethical

subjects and healthy communities cannot be created in absurdity. Instead we must make meaningful even the most shocking losses, terrors and destructive powers with which we live. Bowker's book will be of interest to scholars and practitioners in the fields of political science, philosophy, literature, psychoanalysis, sociology and cultural studies.
