The Politics of Progress Hiram Caton, 1988

Vindicating the Commercial Republic Anthony A. Peacock, 2018-04-24

Contrary to most academic commentary on *The Federalist* this book contends that the most significant teachings of the work did not have to do with the institutions of government so much as with the non institutional features of American constitutionalism specifically its advocacy for greater union the development of an unparalleled culture of enterprise and provision for war Key to understanding why these features were so critical to *The Federalist* is the work's rejection of classical liberalism's orthodoxy that commercial republics were moderate or pacific in nature rather than spirited enterprising and warlike Using the ancient historian Thucydides' account of the daring innovation and restlessness of ancient commercial Athens as an interpretive guide for the commercial republican theory that *The Federalist* embraces this book provides a sweeping reinterpretation of American constitutionalism At the heart of *The Federalist*'s teaching Peacock contends is the intention to create an innovative and spirited culture of enterprise that will not only inform America's civic character post 1787 but its military character as well No scholarship has considered the significance of Thucydides to *The Federalist* This book does in a comprehensive reconstruction of the work that concludes that *The Federalist* anticipates as well as any text on American constitutionalism what many consider to be the most definitive features of American character today its spirit of enterprise and its qualified willingness to engage in war for both reasons of national interest and republican principle

The Politics of Liberty in England and Revolutionary America

Lee Ward, 2004-07-26

This study locates the philosophical origins of the Anglo American political and constitutional tradition in the philosophical theological and political controversies in seventeenth century England By examining the quarrel it identifies the source of modern liberal republican and conservative ideas about natural rights and government in the seminal works of the Exclusion Whigs Locke Sidney and Tyrrell and their philosophical forebears Hobbes Grotius Spinoza and Pufendorf This study illuminates how these first Whigs and their diverse eighteenth century intellectual heirs such as Bolingbroke Montesquieu Hume Blackstone Otis Jefferson Burke and Paine contributed to the formation of Anglo American political and constitutional theory in the crucial period from the Glorious Revolution through to the American Revolution and the creation of a distinctly American understanding of rights and government in the first state constitutions

Ethnic Conflict and Indoctrination

Irenäus Eibl-Eibesfeldt, Frank K. Salter, 1998 Violent ethno nationalist conflicts continue to mar the history of the current century yet no satisfactory answer to the question of why humans are susceptible to indoctrination by ideologies that lead to inter group hostility has so far been found In this volume an international team of leading scientists from many different fields approach this complex issue from a biological perspective treating indoctrinability as a predisposition that has its roots in humanity's evolutionary past

Indoctrinability, Ideology, and Warfare

Irenäus Eibl-Eibesfeldt, Frank K. Salter, 1998 Violent ethno nationalist conflicts continue to mar the history of the twentieth century yet no satisfactory answer as to why humans are

susceptible to indoctrination by ideologies leading to inter group hostility has thus far been found This volume brings together an international team of leading scientists to address this complex issue from disciplines as diverse as anthropology psychology psychobiology sociology philosophy ethology sociology and political science Treating the processes of indoctrination as a biological phenomenon with physiological and psychological aspects these essays explore the answers to this pressing question in humanity s evolutionary past

Risky Transactions Frank K. Salter, 2002 Trust is a central feature of relationships within the Mafia oppressed minorities kin groups everywhere among dissidents nationalist freedom fighters ethnic tourists ethnic middlemen exchange networks of Kalahari Bushmen and families subjected to Stalinist social control Each of these types of trust is examined by a leading scholar and compared with the expectations of neo Darwinian theory in particular the theories of kin selection and ethnic nepotism The result is a fascinating theoretically focused yet empirically eclectic contribution to the overlapping fields of human ethnology evolutionary psychology and bio politics The common thread uniting these diverse phenomena is a trusting relationship predicated on altruism Chapters examine the strengths and limits of human trust under various stressors and temptations to defect By exploring the relationship between kin and ethnic altruism and showing its sensitivity to culture *Risky Transactions* recasts the evolutionary approach to ethnicity as a blend of primordial and instrumental factors

The Waning of Major War Raimo Vayrynen, 2013-10-31 This book is a systematic effort by leading international scholars to map the trends in major power warfare and explore whether it is waxing or waning The main point of departure is that major power war as a historical institution is in decline This does not mean though that wars between states are in general disappearing While there is some convergence in the conclusions by individual authors they are by no means unanimous about the trend The articles explore different causes and correlates of the declining trend in major power warfare including the impact of the international structure nuclear weapons international law multilateral institutions sovereignty and value changes

The Secular Contract Alex Schulman, 2011-06-23 The Secular Contract seeks to defend the European Enlightenment s secularization of political philosophy by promoting an understanding of Enlightenment secular liberalism and extending it to contemporary issues The work proposes that the Enlightenment united the secularizing trends that occurred at the time across all areas of knowledge into a secular contract for modern politics It argues that this was a normatively valuable enterprise whose aims and arguments need to be recovered today especially in light of the challenges faced by the West including fundamentalist Christianity in the US and radical Islam in Europe Looking at the works of many thinkers such as Hobbes Jefferson Madison Rousseau the book then shifts to the present day to argue for a different liberalism as suggested by such contemporary thinkers as William Galston or Stephen Macedo An engaging read *The Secular Contract* will appeal to anyone interested in political theory and the history of ideas

Forget Baudrillard? Chris Rojek, Professor Bryan S Turner, Bryan Turner, 2002-11-01 Without doubt Jean Baudrillard is one of the most important figures currently working in the area of sociology and cultural studies but his writings infuriate as

many people as they intoxicate This collection provides a wide ranging measured assessment of Baudrillard s work The contributors examine Baudrillard s relation to consumption modernity postmodernity social theory feminism politics and culture They attempt to steer a clear course between the hype which Baudrillard himself has done much to generate and the solid value of his startling thoughts Baudrillard s ideas and style of expression provide a challenge to established academic ways of proceeding and thinking The book explores this challenge and speculates on the reason for the extreme responses to Baudrillard s work The appeal of Baudrillard s arguments is clearly discussed and his place in contemporary social theory is shrewdly assessed Baudrillard emerges as a chameleon figure but one who is obsessed with the central themes of style hypocrisy seduction simulation and fatality Although these themes abound in postmodern thought they are also evident in a certain strand of modernist thought one which embraces the writings of Baudelaire and Nietzsche Baudrillard s protestation is that he is not a postmodernist is taken seriously in this collection The balanced and accessible style of the contributions and the fairness and rigour of the assessments make this book of pressing interest to students of sociology philosophy and cultural studies

Technology in the Western Political Tradition Jerry Weinberger, Arthur M. Melzer, Richard Zinman, 2019-05-15 This well integrated group of thirteen papers addresses the intriguing and perplexing issue of whether modern government can handle the problem of technology

Flesh in the Age of Reason Roy Porter, 2005-01-27 As an introduction to early modern thinking and the impact of past ideas on present lives this book can find few equals and no superiors Porter is a witty humane writer with an extraordinary vocabulary and a sparkling sense of fun Whether he is quoting from obscure medical texts or analysing scabrous diaries dishing the dirt on long dead bigwigs or evoking sympathy for human suffering his grasp is masterly and his erudition appealing I wish I could read it again for the first time you can Times Educational Supplement Book of the Week In this startlingly brilliant sequel to the prize winning ENLIGHTENMENT Roy Porter completes his lifetime s work offering a magical enthusiastic and charming account of the writings of some of the most attractive figures ever to write English

The Cambridge History of Eighteenth-Century Political Thought Mark Goldie, Robert Wokler, 2006-08-31 Publisher description [Courts and the Culture Wars](#) Bradley C. S. Watson, 2002-01-01 For much of the second half of the twentieth century America s courts state and federal have injected themselves into what

many critics consider to be fundamentally moral or political disputes By constitutionalizing these disputes many feel that the courts have reduced the ability of Americans to engage in traditional political modes of settling differences over issues that excite particular passion While legal discourse is well suited to choosing decisive winners and losers political discourse is perhaps more conducive to reasonable compromise and accommodation In *Courts and the Culture Wars* Bradley C S Watson has brought together some of America's most distinguished names in constitutional theory and practice to consider the impact of judicial engagement in the moral religious and cultural realms including such issues as school prayer abortion gay rights and expressive speech

On Genetic Interests Frank Salter, 2017-07-28 From an evolutionary perspective individuals have a vital interest in the reproduction of their genes Yet this interest is overlooked by social and political theory at a time when we need to steer an adaptive course through the unnatural modern world of uneven population growth and decline global mobility and loss of family and communal ties In modern Darwinian theory bearing children is only one way to reproduce Since we share genes with our families ethnic groups and the species as a whole ethnocentrism and humanism can be adaptive They can also be hazardous when taken to extremes *On Genetic Interests* canvasses strategies and ethics for conserving our genetic interests in an environmentally sustainable manner sensitive to the interests of others

The Tragedy of U.S. Foreign Policy Walter A. McDougall, 2018-11-22 A fierce critique of civil religion as the taproot of America's bid for global hegemony Pulitzer Prize winning historian Walter A McDougall argues powerfully that a pervasive but radically changing faith that God is on our side has inspired U S foreign policy ever since 1776 The first comprehensive study of the role played by civil religion in U S foreign relations over the entire course of the country's history McDougall's book explores the deeply infused religious rhetoric that has sustained and driven an otherwise secular republic through peace war and global interventions for more than two hundred years From the Founding Fathers and the crusade for independence to the Monroe Doctrine through World Wars I and II and the decades long Cold War campaign against godless Communism this coruscating polemic reveals the unacknowledged but freely exercised dogmas of civil religion that bind together a God blessed America sustaining the nation in its pursuit of an ever elusive global destiny

Evolutionary Theory and Ethnic Conflict Patrick James, David Goetze, 2001-08-30 James and Goetze bring together contributors of varied backgrounds ranging from evolutionary theorists to game theorists to analysts of specific ethnic conflict Their work represents a coherent attempt at evaluating the usefulness of evolutionary theories for explaining ethnic phenomena and demonstrates how these theories can be applied in attempts to elucidate real world behaviors This study found that kinship theory that posits evolved dispositions to form cooperative bonds with family ethnic groups and other social groups may go a long way in accounting for the formation of ethnic groups Also ingroup outgroup theory may contribute to understanding how group conflict commences Likewise the description of evolved mechanisms for discerning threat for building reputations and for recognizing individuals groups and states as possible cooperators and long term allies may facilitate explanation of the outbreak and avoidance of

group conflicts This also may explain the design of conscious strategies for conflict prevention and resolution Nonetheless several contributors take a more critical stance and offer ample reason why building these explanations may prove elusive or at least troublesome given the complex character of human societies This work is a provocative resource for scholars students and other researchers involved with ethnicity and ethnic conflict international relations social psychology and social anthropology

Welfare, Ethnicity and Altruism Frank Salter, 2013-03-07 Welfare Ethnicity and Altruism applies the controversial theory of Ethnic Nepotism first formulated by Iren us Eibl Eibesfeldt and Pierre van den Berghe to the modern welfare state both are authors in this volume This theory states that ethnic groups resemble large families whose members are prone to cooperate due to kin altruism Recent empirical findings in economics and political science offer confirmatory evidence The book presents two separate studies that compare welfare expenditures around the world both indicating that the more ethnically mixed a population becomes the greater is its resistance to redistributive policies These results point to profound inconsistencies within ideologies of both left and right regarding ethnicity
