The Politics Of Sex And Religion A Case History In The Development Of Doctrine 19621984:

The Development of Moral Theology Charles E. Curran, 2013-11-08 Charles Curran in his newest book *The Development of Moral Theology Five Strands* brings a unique historical and critical analysis to the five strands that differentiate Catholic moral theology from other approaches to Christian ethics: sin and the manuals of moral theology, the teaching of Thomas Aquinas and later Thomists, natural law, the role of authoritative church teaching in moral areas, and Vatican II. Significant changes have occurred over the course of these historical developments. In addition, pluralism and diversity exist even today as illustrated, for example, in the theory of natural law proposed by Cardinal Ratzinger. In light of these realities, Curran proposes his understanding of how the strands should influence moral theology today. A concluding chapter highlights the need for a truly theological approach and calls for a significant change in the way that the papal teaching office functions today and its understanding of natural law. In a work useful to anyone who studies Catholic moral theology, *The Development of Moral Theology* underscores in the light of the historical development of these strands the importance of a truly theological and critical approach to moral theology that has significant ramifications for the life of the Catholic church.

The Politics of Sex and Religion Robert Blair Kaiser, 1985 **A History of Catholic Moral Theology in the Twentieth Century** James F. Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics, also known as moral theology. The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th century could become by the end of the 20th century the most innovative one. The 20th century begins with moral manuals being translated into the vernacular. After examining the manuals of Thomas Slater and Henry Davis, Keenan then turns to three works and a crowning synthesis of innovation all developed before, during, and soon after the Second World War. The first by Odon Lottin asks whether moral theology is adequately historical. Fritz Tillmann asks whether it is adequately biblical, and Gerard Gilman asks whether it is adequately spiritual. Bernard Haering integrates these contributions into his *Law of Christ*. Of course, people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere: classical gatekeepers censoring innovation. But with *Humanae vitae* and successive encyclicals, bishops and popes reject the direction of moral theologians. At the same time, moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience. In their move toward a deeper appreciation of their field as forming consciences, they turn more deeply to local experience where they continue their work of innovation. Each continent subsequently gives rise to its own respondents. In Europe, they speak of autonomy and personalism; in Latin America, liberation theology; in North America, Feminism and Black Catholic theology; and in Asia and Africa, a deep post-colonial interculturism. At the end, I assert that in its nature, theological ethics is historical and innovative, seeking moral truth for the conscience by looking to speak crossculturally.

The Catholic Church and Liberal Democracy Bernt

Oftestad,2018-12-07 The Roman Catholic Church's critical stance towards liberalism and democracy following the French Revolution and through the 19th century was often entrenched but the Second Vatican Council of the 1960s saw a shift in the Church's attitude towards democracy In recent years a conflict has emerged between Church doctrine and modern liberalism under Popes John Paul II and Benedict XVI This book is a comprehensive overview of the Catholic Church's relationship to modern liberal democracy from the end of the 18th century until today It is a connection that is situated within the context of the history of ideas itself John Paul II and Moral Theology Charles E. Curran, Richard A. McCormick, 1998 Sexing the Church Aline H. Kalbian, 2005-04-05 A wonderful book that gives us a fresh angle of vision on modern Roman Catholic teaching about sex marriage gender relationships and reproduction After reading Sexing the Church few will doubt the extent to which Catholic teaching about the law of nature owes no small debt to history and culture Richard B Miller Poynter Center for the Study of Ethics and American Institutions Catholic attitudes about women in the priesthood display a contradiction between egalitarian and subordinationist views Women are denied access to the eucharistic priesthood because allowing them in would upset the redemptive order Why is it then that imagery from the created order women as mothers brides virgins is often used to describe the redemptive mystery that connects Christ with the Church Why is the Church sexed female This sexing of the Church is more than just an example of how gender and order work in Catholic morality it also reveals tensions in the complex patterns of Catholic reasoning about marriage reproduction and church authority In a surprising way it challenges the order enforced by the Catholic ethics of marriage and reproduction from Chapter One The regulation of human sexuality in contemporary Catholicism a topic that monopolizes public conversation about the Catholic Church is also a central concern of Catholic theological discussions of religious ethics Aline H Kalbian traces the history of the connection between moral theology and sexual ethics as it applies to the concern for order in official teachings on marriage reproduction and sex She explores order as it is reflected in the theology of marriage the 20th century challenge to that order in the debates on contraception and assisted reproduction and the way attitudes about gender in Catholicism connect theological and moral order with ecclesiastical order **Doctor Ferdinand Peeters** Karl van den Broeck, 2021-04-06 The story of doctor Ferdinand Peeters 1918 1998 and his role in the development of the pill has held Belgium in thrall for almost a decade It is time to introduce the real father of the contraceptive pill to the rest of the world After years of research Belgian journalist Karl van den Broeck concluded that not the American Gregory Pincus was the inventor of the pill His prototype had so many adverse effects that it wasn't a viable option in the long term It was the Belgian doctor Ferdinand Peeters who in 1959 1960 created the first clinically applicable contraceptive pill Anovlar It was this pill that set the standard for all future pills to follow Ferdinand Nand Peeters was a devout Catholic and during an audience with pope John XXIII he urged that the church should sanction the use of the Pill But when Paul VI decided in 1968 that birth control other than the practice of periodic abstinence would remain forbidden doctor Peeters didn't breathe a word

about his role in the development of the pill Even his family was barely aware of it In *The Real Father of the Pill* Karl van den Broeck tells the long hidden story behind this invention a story of innovation and threats of grateful women and papal ambivalence With this book doctor Peeters is finally given the recognition he deserves This book includes the documentary *The Real Father of the Pill* More information can be found in the book *Sixty Years of Moral Theology* Curran, Charles E.,2020 Following the model of the previous volumes Charles Curran has gathered here fourteen articles relating to three areas in moral theology I Vatican II and Its Aftermath II *Humanae Vitae* and Its Aftermath III Subsequent Developments

Humanae Vitae, 50 Years Later Theresa Notare,2019-06-28 In the life of the Catholic Church the papal encyclical *Humanae vitae* represents a deepening of understanding regarding the nature of married love and the transmission of life Despite fifty years 1968 2018 since its promulgation many Catholics have yet to discover the treasure of these rich teachings This volume therefore seeks to elucidate the encyclical's reaffirmation of the divine plan It does this in a unique way by providing essays from experts of various disciplines that include history theology science medicine law and governmental policy The occasion of the fiftieth anniversary of *Humanae vitae* offers a teaching moment In this compendium experts representing a variety of disciplines including history culture theology medicine law and psychology present their reflections upon God's divine plan as described in *Humanae vitae* The authors first presented this work in an abbreviated form at a symposium held at The Catholic University of America April 4 6 2018 Here their presentations are substantively developed and hopefully will encourage further scholarly work Ultimately their purpose is to help the reader arrive at a more positive understanding of the teachings found in *Humanae vitae* Although designed for the educated reader the essays presume that when the teachings of *Humanae vitae* are embraced by men and women they can contribute to the healing of the wounds of a world broken by sin but redeemed by Christ
