Shared Knowledge, Shared Power Veysel Apaydin, 2017-11-20 This volume brings together the experiences and research of heritage practitioners archaeologists and educators to explore new and unique approaches to heritage studies The last several decades have witnessed a rapid increase in the field of cultural heritage studies worldwide This increase in the number of studies and in interest by the public as well as academics has effected substantial change in the understanding of heritage and approaches to heritage studies This change has also impacted the perception of communities how to study and protect the physical residues of heritage and how to share the knowledge of heritage It has brought the issue of who has knowledge and how the value of heritage can be shared more effectively with communities who then ascribe meaning and value to heritage materials Heritage studies until a few decades ago exclusively studied the material culture of the past as part of elitist approaches that completely neglected communities rights to knowledge of their own heritage Additionally heritage practitioners and archaeologists neither shared this knowledge nor engaged with communities about their heritage Communities were also mostly deprived from contributing to heritage and archaeological studies This kind of top down approach was quite common in many parts of the world But recent studies and research in the field have shown the importance of including the public in projects and that sharing the knowledge produced through heritage studies and archaeological works is significant for the protection and preservation of heritage materials it has finally been understood that excluding the public from heritage is not ethical This publication presents a wide array of case studies with different approaches and methods from many parts of the world to answer these

American Foreign Policy and The Politics of Fear A. Trevor Thrall, Jane K. Cramer, 2009-05-07 This edited volume addresses the issue of threat inflation in American foreign policy and domestic politics The Bush administration's aggressive campaign to build public support for an invasion of Iraq reheated fears about the president's ability to manipulate the public and many charged the administration with threat inflation duping the news media and misleading the public into supporting the war under false pretences Presenting the latest research these essays seek to answer the question of why threat inflation occurs and when it will be successful Simply defined it is the effort by elites to create concern for a threat that goes beyond the scope and urgency that disinterested analysis would justify More broadly the process concerns how elites view threats the political uses of threat inflation the politics of threat framing among competing elites and how the public interprets and perceives threats via the news media The war with Iraq gets special attention in this volume along with the War on Terror Although many believe that the Bush administration successfully inflated the Iraq threat there is not a neat consensus about why this was successful Through both theoretical contributions and case studies this book showcases the four major explanations of threat inflation realism domestic politics psychology and constructivism and makes them confront one another directly The result is a richer appreciation of this important dynamic in US politics and foreign policy present and future This book will be of much interests to students of US foreign and national security policy international security strategic studies and IR in general Trevor Thrall is Assistant Professor of Political Science and directs the Master of Public Policy program at the University of Michigan Dearborn Jane Kellett Cramer is an Assistant Professor of Political Science at the University of Oregon

Imperial Rule and the Politics of Nationalism Adria Lawrence, 2013-09-16 During the first half of the twentieth century movements seeking political equality emerged in France's overseas territories Within twenty years they were replaced by movements for national independence in the majority of French colonies protectorates and mandates In this pathbreaking study of the decolonization era Adria Lawrence asks why elites in French colonies shifted from demands for egalitarian and democratic reforms to calls for independent statehood and why mass mobilization for independence emerged where and when it did Lawrence shows that nationalist discourses became dominant as a consequence of the failure of the reform agenda Where political rights were granted

colonial subjects opted for further integration and reform. Contrary to conventional accounts, nationalism was not the only or even the primary form of anti-colonialism. Lawrence shows further that mass nationalist protest occurred only when and where French authority was disrupted. Imperial crises were the cause, not the result, of mass protest. *Presidential War Power* Louis Fisher, 1995. Fisher chronicles the expansion of the president's power to make war. *Power, Politics and Territory in the 'New Northern Ireland'* Elizabeth DeYoung, 2023-10-15. Winner of the ACIS Donald Murphy Prize for Distinguished First Book 2023. In the wake of the Good Friday Agreement, the redevelopment of the former Girdwood Army Barracks in North Belfast was hailed as a symbol of hope for Northern Ireland. It was a major investment in a former conflict zone and an internationally significant peacebuilding project. Instead of adhering to the tenets of the Agreement, sectarianism dominated the regeneration agenda. Throughout the process, politicians, community groups, and paramilitaries wrangled over the site's future and territorial contest won out over housing need. After eleven years of negotiation and 11.7 million the EU-funded Girdwood Community Hub opened its doors to the public in 2016, but its impact has been underwhelming. The Hub's redevelopment is a microcosm of the peace process itself and the ways in which post-Agreement politics have failed to deliver a shared future for the people of Northern Ireland twenty-five years on. This ethnography provides a lively account of Girdwood's redevelopment and a wry critique of the fractious political context around it. Through familiarity and encounter, the author brings us across peace walls into community meetings and behind the scenes of decision-making in Northern Ireland. Girdwood's story also sheds light on how power, politics, and territory intersect in divided cities globally. **The Politics of Ministry** Bob Burns, Tasha D. Chapman, Donald C. Guthrie, 2019-01-08. At its most basic level, politics is simply the everyday activity of getting things done with other people. Filled with real-life stories, this book from Bob Burns, Tasha Chapman, and Donald Guthrie combines their long ministry experience with sociological research, setting out wise principles and practices that help us see more clearly the political dynamics at play in our churches and parachurch ministries. **The Politics of Islamism** John L. Esposito, Lily Zubaidah Rahim, Naser Ghobadzadeh, 2017-11-09. This book offers a nuanced and multi-layered approach towards comprehending the possibilities of democratization or likelihood of authoritarian resilience in the Muslim world. The volume highlights the complex diversity within Islamist movements and parties characterised by internal tensions, struggles, and contestations. The very existence of this diversity within and among Islamist movements and their general willingness to partake in mainstream politics signals an important transformation in the Muslim world over recent decades. It demonstrates that the Muslim world has gravitated from the simplistic focus on the compatibility or incompatibility of Islam and democracy. Islamist movements and parties embody the multiple manifestations and trajectories within political Islam. The granular case studies and theological analyses in this volume draw attention to the policy refinements, socio-political reforms, and ideological transformations engendered by Muslim intellectuals and Islamist movements and ideologues. The diverse political landscape in the Muslim world is inextricably linked to the socio-political and

theological shifts within Islamism in particular the yearning for greater social economic and political justice a yearning that lies at the core of an inclusive wasatiyyah Islam **The Presidency and the Law** David Gray Adler, Michael A.

Genovese, 2002 Political scandals have always demonstrated the capacity of our executive officials for self inflicted injuries and the Clinton administration was no exception Unilateral warmaking claims of executive privilege and immunity and last minute pardons all tested the limits of presidential power while the excesses of the Special Prosecutor cast doubts on available remedies For eight years Republicans and Democrats engaged in guerrilla warfare aimed at destroying the careers and lives of their adversaries while tests of presidential power were resolved by the courts resulting in a reshaping of the scope and power of the presidency itself This book examines the many controversial and important battles that led to the shrinking of the presidency under the law during the Clinton administration Located at the intersection of law and politics it helps readers understand the dramatic changes that took place in the relationship of presidential power to the law during the Clinton years and shows how one president's actions and congressional and legal reactions to them have altered presidential prerogatives in ways that his successors cannot ignore The Presidency and the Law offers an assessment of changes in constitutional and legal understanding of the American presidency exploring such topics as war power executive privilege pardon power impeachment executive immunity independent counsel and campaign finance In examining these collisions between president and the law its distinguished contributors bring the lessons of Watergate and Iran Contra into the Clinton era and contribute to a Madisonian view that presidents should not operate outside statutory and constitutional constraints While the essays offer several criticisms of that administration's exercise of power and its interpretation of constitutional provisions and law many of the authors have been supportive of Clinton and his policy pursuits and all seek to examine the potential impact of the Clinton administration without being predictive or legalistic They offer instead commentary analysis and criticism that examine the legality and constitutionality of President Clinton's actions within a broader political and historical context The presidency is constitutionally weaker and politically more vulnerable than the office Bill Clinton assumed in 1993 and it remains to be seen what impact these changes will have on the presidency in the 21st century This book points the way to assessing that impact and is essential reading for anyone concerned with the future of our democracy

Understanding Ukrainian Politics: Power, Politics, and Institutional Design Paul D'Anieri, 2015-01-28 Ukraine made headlines around the world during the winter of 2004-05 as the colorful banners of the Orange Revolution unfurled against the snowy backdrop of Kyiv signaling the bright promise of democratic rebirth But is that what is really happening in Ukraine In the early post Soviet period Ukraine appeared to be firmly on the path to democracy The peaceful transfer of power from Leonid Kravchuk to Leonid Kuchma in the election of 1994 followed by the adoption of a western style democratic constitution in 1996 seemed to complete the picture But the Kuchma presidency was soon clouded by dark rumors of corruption and even political murder and by 2004 the country was in full blown political crisis A three stage presidential

contest was ultimately won by Viktor Yushchenko who took office in 2005 and appointed Yulia Tymoshenko as premier but the turmoil was far from over The new government quickly faltered and splintered This introduction to Ukrainian politics looks beyond these dramatic events and compelling personalities to identify the actual play of power in Ukraine and the operation of its political system The author seeks to explain how it is that after each new beginning power politics has trumped democratic institution building in Ukraine as in so many other post Soviet states What is really at work here and how can Ukraine break the cycle of hope and disillusionment **The President Shall Nominate** Mitchel A. Sollenberger, 2008 A comprehensive and path breaking study of what happens behind the scenes before presidents publicly announce to the Senate and thus the nation their nominees for federal positions
