may even hinge on good performances of survivorhood Through archival and ethnographic research Paige L Sweet reveals how trauma discourses and coerced therapy play central roles in women s lives as they navigate state programs for assistance Sweet uses an intersectional lens to uncover how resilience and survivorhood can become coercive and exclusionary forces in women s lives With nuance and compassion *The Politics of Surviving* wrestles with questions about the gendered nature of the welfare state the unintended consequences of feminist mobilizations for anti violence programs and the women who are left behind by the limited forms of citizenship we offer them

*The Politics of Agency* Jeremy Wisniewski, 2008 Debates about individualism and holism reductionism and phenomenology and naturalism and humanism all turn on how we answer the basic questions about the nature of human agency This book argues that the traditional emphasis on the accuracy of a given theory of human agency has systematically obscured the normative dimension in these theories and that recognizing this normative dimension allows us to see that a pragmatic approach to theories of agency either in social science or moral philosophy is more appropriate As well as offering a vigorous presentation of the pragmatic therapeutic account of agency Wisniewski also engages critically with three rival accounts from Nietzsche Foucault and Rorty
