Barnett, 2020-10-28 Karl Marx has been portrayed in equal measure both as a political prophet who foresaw the end of capitalist exploitation and as a populist Anti Christ whose totalitarian legacy has cost millions of lives worldwide This new biography looks beyond these caricatures in order to understand more about the real Karl Marx about his everyday life and personal circumstances as well as his political ideology The book tells the life story of a man of ideas showing how his political and economic thought developed alongside his life and practical work Vincent Barnett seeks to paint Karl Marx not as a static unwavering character but as a man whose beliefs developed dynamically over time The book explores his personal background and problems of personal income and family health It also examines the influence of Hegel's methods on Marx's work and his relationship with Engels This lively up to date guide to the life of Karl Marx provides an excellent starting point for students in history politics and philosophy and for all those with an interest in Marxism and political ideas **New**

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more. In the English speaking cultures many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Korean, from Swahili to Russian. For some works, e.g. Virgil's Aeneid, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text, e.g. poetry, oral literature. The second, much longer part consists of entries grouped by language of origin; some are devoted to individual texts, e.g. the Thousand and One Nights, or writers, e.g. Ibsen, Proust, but the majority offer a critical overview of a genre, e.g. Chinese poetry, Spanish Golden Age drama, or of a national literature, e.g. Hungarian, Scottish Gaelic. There is a selective bibliography for each entry and an index of authors and translators.

Marxism and Communication Studies Lee Artz, Steve Macek, Dana L. Cloud, 2006 There is a timely and urgent need for a reasoned dialogue reassessing how Marxism can advance the study of human communication and transform the social world in which it is embedded. Indeed, ongoing world historical events, including the vigorously organized market globalization, the corresponding insurgent global anticorporate movement, and the conflicts engendered by the U.S. invasion of Iraq, have underscored the importance of a thorough critique of global capitalism and its telecommunication technologies and practices. This important new collection, featuring essays by leading scholars and practitioners, provides a much needed overview and assessment of Marxism's significance to contemporary thinking in communication and media studies. Contributors demonstrate how a Marxist perspective can be usefully applied to specific case studies in communication, providing valuable insights and understandings that are not obtainable using other approaches.

The Portable Enlightenment Reader Various, 1995-12-01 The Age of Enlightenment of the 18th century, also called the Age of Reason, was so named for an intellectual movement that shook the foundations of Western civilization. In championing radical ideas such as individual liberty and an empirical appraisal of the universe through rational inquiry and natural experience, Enlightenment philosophers in Europe and America planted the seeds for modern liberalism, cultural humanism, science, and

technology and laissez faire Capitalism This volume brings together works from this era with more than 100 selections from a range of sources It includes examples by Kant Diderot Voltaire Newton Rousseau Locke Franklin Jefferson Madison and Paine that demonstrate the pervasive impact of Enlightenment views on philosophy and epistemology as well as on political social and economic institutions *Shape-Shifting Capital* George González,2015-05-20 Shape Shifting Capital Spiritual Management Critical Theory and the Ethnographic Project is positioned at the intersection of anthropology critical theory and philosophy of religion First Gonz lez explores the phenomena of workplace spirituality in a language that is accessible to a general readership Taking contemporary trends in organizational management as a case study he argues by way of a detailed ethnographic study of practitioners of workplace spirituality that the conceptual and institutional boundaries between religion science and capitalism are being redrawn by theologized management appropriations of tropes borrowed from creativity theory and quantum mechanics Second Gonz lez makes a case for a critical anthropology of religion that combines existential concerns for biography and intentionality with poststructuralist concerns for power arguing that the ways in which the personalization of metaphor bridges personal and social histories also helps bring about broader epistemic shifts in society Finally in a postsecular age in which capitalism itself is explicitly and confidently spiritual Gonz lez suggests that it is imperative to reorient our critical energies towards a present day evaluation of postmodern capitalism s boundary blurring Gonz lez further argues that the kind of existential deconstruction performed by what he calls existential archeology can serve the needs of any social criticism of neoliberal religion and corporate spirituality **Civic Virtues** Richard Dagger,1997 Dagger argues for a republican liberalism that while celebrating the liberal heritage of autonomy and rights solidly places these within social relations and obligations which while ubiquitous are often obscured and forgotten The Portable Emerson Ralph Waldo Emerson,1981-08-27 This volume edited by Carl Bode in collaboration with Malcolm Cowley presents the essential Emerson selected from works that eloquently express the philosophy of a worldly idealist The Portable Emerson comprises essays including History Self Reliance The Over Soul Circles and The Poet Emerson s first book Nature in its entirety twenty two poems including Uriel The Humble Bee and Give All to Love orations including The American Scholar The Fugitive Slave Law and John Brown English Traits complete and biographical essays on Plato Napoleon Henry David Thoreau Thomas Carlyle and others **The Portable Oscar Wilde** Oscar Wilde,1981-07-30 Includes the following works Novels The Portrait of Dorian Gray Plays Salome and The Importance of Being Earnest Writings De Profundis Critic as Artist and Phrases and Philosophies for the Use of the Very Young and selections from Lady Windermere s Fan An Ideal Husband and A Woman of No Importance
