

Beyond the Postmetaphysical Turn: Ethics and Metaphysics in Critical Theory

CRAIG REEVES

Birkbeck, University of London, UK

This article explores the relationship between ethics and metaphysics in critical theory through immanent criticism of Fabian Freyenhagen's reconstruction of Adorno. Endorsing Freyenhagen's overall defence of Adorno's position, it argues that several important features of Adorno's position as Freyenhagen interprets it can be made intelligible only on broadly Aristotelian metaphysical presuppositions. These should be thematized explicitly rather than ignored. Moreover, these metaphysical presuppositions are on independent grounds plausible, as recent Aristotelian and critical realist work has indicated, and special difficulties arising for them in the context of a radical negative critical theory can probably be overcome. Further conversation between critical theorists, Aristotelians and critical realists should prove fruitful in elaborating and defending a radical critical theory alternative to the dominant postmetaphysical paradigm. Progress in this direction, though, will entail rejecting the basic postmetaphysical premise that critical theory must proceed in a metaphysically neutral way.

KEYWORDS Adorno, Aristotelianism, critical realism, critical theory, ethics, Freyenhagen, metaphysics

I [have] moved from the project [in *After Virtue*] of presenting Aristotle's ethics as an ethics without metaphysical presuppositions to a recognition that Aristotle's ethics cannot be made fully intelligible, let alone justifiable, if its metaphysical dimensions are excluded from view.

The Post To Come An Outline Of A Postmetaphysical Ethics European University Studies:

The Post to Come Jane Mummery, 2005 Typically when utilised in the general terms of a post metaphysics the Post is seen as unsympathetic to ethics In contrast this author proposes that the trajectory for a post metaphysical ethics can be traced from the work of Martin Heidegger Despite demonstrating that certain projects of the Post have reached an impasse she argues that other such possibilities do develop an outline for an ethical Post that does not collapse into paradox or remain at an impasse further suggesting that this vision of the Post holds positive significance and implications for our conceptions of ethics and ethical practice in the 21st century Drawing in detail on both Heidegger s oeuvre and a wide range of associated projects in contemporary continental philosophy including phenomenology deconstruction pragmatism the newer French liberalism and post structuralist aesthetics and theology this book delivers a convincing rebuttal of one of the more persistent arguments about post Heideggerian philosophy and its relations to the ethical American Book Publishing Record ,2003 *Das Schweizer Buch* ,2005 *The Postsecular Political Philosophy of Jürgen Habermas* Dafydd Huw Rees, 2018-09-01 This is the first full length treatment of Habermas postsecular political philosophy in English It gives a much more in depth analysis of this aspect of his work than the comparable books listed above It looks at this issue in the context of Habermas entire philosophical project drawing out hitherto overlooked connections It works as an intermediate level introduction to many aspects of Habermas philosophical project his social theory moral philosophy and metaphysics as well as his political theory and philosophy of religion **Merleau-Ponty and Modern Politics After Anti-Humanism** Diana Coole, 2007-08-28 In this book Diana Coole shows how existential phenomenology illuminates and enlivens our understanding of politics With breadth of vision and penetrating insight Coole demonstrates that political questions were always central to Merleau Ponty s philosophical project She also shows how Merleau Ponty s concern with contingency anticipated arguments by thinkers such as Derrida Foucault and Deleuze while sustaining a robust sense of politics as the domain of collective life Jacket **Religion, Gender, and the Public Sphere** Niamh Reilly, Stacey Scriver, 2013-11-26 The re emergence of religion as a significant cultural social and political force is not gender neutral Tensions between claims for women s equality and the rights of sexual minorities on one side and the claims of religions on the other side are well documented across all major religions and regions It is also well recognized in feminist scholarship that gender identities and ethno religious identities work together in complex ways that are often exploited by dominant groups Hence a more comprehensive understanding of the changing role and influence of religion in the public sphere more widely requires complex multidisciplinary and comparative gender analyses Most recent discussion on these matters however especially in Europe has focused primarily on the perceived subordinate status of Muslim women These debates are a reminder of the deep interrelation of questions of gender identity human rights and religious freedom more generally The relatively narrow albeit important purview of such discussions so far however underscores the need to extend the horizon of enquiry vis vis religion gender and the public

sphere beyond the binary of Islam versus the West Religion Gender and the Public Sphere moves gender from the periphery to the centre of contemporary debates about the role of religion in public and political life It offers a timely multidisciplinary collection of gender focused essays that address an array of challenges arising from the changing role and influence of religious organisations identities actors and values in the public sphere in contemporary multicultural and democratic societies

Radical Philosophy ,1998 *Imperfect Cosmopolis* Georg Cavallar, 2011-04-15 In current debates the term cosmopolitanism often remains quite vague and leads to sweeping generalizations this book looks at the notion from a decidedly historical perspective trying to give depth and texture to the concept
