### **The Cassa per il Mezzogiorno, the World Bank and the Model for Italian Economic Development** Amedeo Lepore, 2023-12-15

This research carried out in original documents by the World Bank which were intended exclusively for internal use and were made available to scholars only a few years ago tackles the theme of the extraordinary intervention in Southern Italy from an international perspective The book provides an updated view of the issues concerning the regions of Southern Italy as well as the solutions proposed for the Southern Question during the years of the post war reconstruction of Italy creating the only period of convergence considering the whole of the history of united Italy between Southern and Northern Italy and between the entire country and the most advanced Western economies during the golden age The volume enhances our understanding of such a decisive development phase especially within the framework of both Italian and international economic history following the peacetime rebuilding of Italy and before the crisis of the 1970s while providing very useful elements in order to analyse the current events of both the Mezzogiorno and all of

Italy *Asia's Free Trade Agreements* Masahiro Kawai, Ganeshan Wignaraja, 2011 East Asia is the region of the world that is changing fastest in terms of trade arrangements. Dozens of free trade agreements are signed every year turning a complex situation into the East Asian noodle bowl of FTAs. This book addresses the crucial question posed by these new agreements: how do they affect business? While many studies have focused on government to government issues, this book gets to the heart of the matter: studying what it means for the firms actually doing the trade and investment. I recommend this book to any serious student of trade, particularly those interested in understanding the rapidly evolving landscape in this most dynamic part of the world.

Richard Baldwin, Professor of International Economics, Graduate Institute, Geneva, Switzerland: The pursuit of more than one hundred Free Trade Agreements in East Asia is quietly producing a fundamental change in the global economic architecture. This path-breaking new volume provides an indispensable guide to the practical effect of such agreements on commercial transactions in the region. It is a must-read for businessmen and policymakers who seek to both understand the impact of FTAs in the real world and expand their contributions to economic growth and development.

C. Fred Bergsten, Director, Peterson Institute for International Economics, US: East Asia needs to think about appropriate measures to overcome the Asian FTA noodle bowl in the future. In this vein, the study suggests several practical measures, including encouraging rationalization and flexibility of rules of origin, upgrading origin administration, improving business participation in FTA consultations, and strengthening institutional support systems for SMEs. It is hoped that this study will contribute to strengthening regional trade policies in Asia and compatibilities with global trade rules.

Haruhiko Kuroda, President, Asian Development Bank: This is a valuable contribution in a crowded field. Kawai and Wignaraja have gone beyond familiar arguments about the relative merits of regionalism and multilateralism to ask businesses what it all means to them. Policymakers should take note.

Patrick Low, Chief Economist, WTO: For policymakers in the region, the debate is no longer between regionalism and multilateralism. The real question is how we should create the model for regionalism that will become the building blocks to a multilateral trading system and avoid raising costs of doing business from the noodle bowl effect. Therefore, the comparative and micro-level research found in this book provides valuable insights on the impact of FTAs on businesses. These insights will be relevant input as policymakers forge ahead in implementing regional FTAs, thinking of ways to amend and improve on them, and most importantly, harmonize or consolidate between existing regional FTAs in East Asia.

Mari Pangestu, Minister of Trade, Indonesia: The spread of Asia's free trade agreements (FTAs) has sparked an important debate on the impact of such agreements on business activity. This pioneering study uses new evidence from surveys of East Asian exporters, including Japan, the People's Republic of China, the Republic of Korea, and three ASEAN economies of the Philippines, Singapore, and Thailand, to shed light on the FTA debate. Critics are concerned that FTAs erode the multilateral trading process and foster an alarming noodle bowl of overlapping regulations and rules of origin requirements, which may be costly to business. *Asia's Free Trade Agreements* makes key recommendations for improving

business use of FTA preferences reducing costs of FTAs and creating a region wide FTA This well researched and documented book will appeal to undergraduate and postgraduate students in international business international economics economic development public administration and public policy Academics researchers and members of think tanks around the world will also benefit from this book as will trad

**The World Bank** Eric Toussaint,2007-12-20 The World Bank is a controversial organisation It is widely viewed with suspicion as the international economic arm of the US in thrall to the President who is responsible for appointing the head of the Bank Eric Toussaint gives a highly readable account of just why the World Bank has become so powerful In short clear chapters he shows how the bank operates who funds it and what it sets out to promote The Bank s main purpose is to grant loans to all the newly independent states of the developing world to help them on their journey to recovery after colonial occupation In reality the conditions imposed on these states including enforced privatisation of all public services and enforced neo liberal rules on trade mean that the Bank has become the new colonial authority in everything but name
