legislature has become an arena in which each region battles for its own fair share rather than an instrument for comprehensively addressing the state's problems. The authors foresee the emergence of political coalitions linking downstate and Chicago historically at odds in efforts to protect their shares and contend with the suburban collar. Illinois's political leaders face the challenge of looking beyond district interests to the broader concerns of work force quality and statewide economic prosperity.

Immigrants in the Valley Mark Wyman, 2016-11-09. Thousands of newcomers flocked into the Upper Mississippi country in the decades leading up to the Civil War. Illinois, Wisconsin, Iowa, Missouri, and Minnesota received immigrants from most areas of Europe as well as Americans from the Upper South, New England, and the Middle Atlantic states. They all carried with them religious beliefs, experiences, and expectations that differed widely, attitudes and opinions which often threw them into conflict with each other. Drawing extensively on family letters sent home to Europe, missionary reports, employment records, and other diverse materials from 1830 to 1860, Wyman shows the interplay between the major groups traveling the roads and waterways of the Upper Mississippi Valley during those crucial decades. The result is a lively, richly illustrated account that will help Americans everywhere better understand their diverse heritage and the environment in which their family trees took root. A new preface to this paperback edition helps to bring the scholarship up to date.

**Making an Antislavery Nation** Graham A. Peck, 2017-08-31. Winner of the Russell P. Strange Memorial Book Award. This sweeping narrative presents an original and compelling explanation for the triumph of the antislavery movement in the United States prior to the Civil War. Abraham Lincoln's election as the first antislavery president was hardly preordained. From the country's inception, Americans had struggled to define slavery's relationship to freedom. Most Northerners supported abolition in the North but condoned slavery in the South, while most Southerners denounced abolition and asserted slavery's compatibility with white freedom. On this massive political fault line, hinged the fate of the nation. Graham A. Peck meticulously traces the conflict over slavery in Illinois from the Northwest Ordinance in 1787 to Lincoln's defeat of his archrival Stephen A. Douglas in the 1860 election. Douglas's attempt in 1854 to persuade Northerners that slavery and freedom had equal national standing stirred a political earthquake that brought Lincoln to the White House. Yet Lincoln's framing of the antislavery movement as a conservative return to the country's founding principles masked what was in fact a radical and unprecedented antislavery nationalism. It justified slavery's destruction but triggered the Civil War. Presenting pathbreaking interpretations of Lincoln, Douglas, and the Civil War's origins, *Making an Antislavery Nation* shows how battles over slavery paved the way for freedom's triumph in America.

Towns and Villages of the Lower Ohio Darrel E. Bigham, 2021-12-14. America, Enterprise, Metropolis, Cairo, Rome. These

are a few of the grandly named villages and towns along the lower Ohio River The optimism with which early settlers named these towns reveals much about the history of American expansion Though none became the next great American city it was not for lack of ambition or entrepreneurial spirit Why didn't a major city develop on the lower Ohio What geographic economic and cultural factors caused one place to prosper and another to wither How did Evansville become the largest and most influential city in the region How did smaller cities such as Owensboro and Paducah succeed Regardless of how appealing a locale looked on the map luck fate culture and leadership all helped determine success or failure The fate of Cairo Illinois on paper an ideal site for a metropolis emphasizes the extent to which human decisions rather than physical landscape affected a town's prosperity The location of a canal or railroad terminus the construction of a factory or the activities of local boosters all mattered greatly Darrel Bigham examines these towns and villages from the 1790s when the first settlements appeared to the 1920s when the modern pattern of life associated with automobiles economic upheaval and mass culture emerged Bigham's intimate knowledge of the area offers a true sense of the towns and villages and discloses fundamental truths about the workings of the American dream
