## **The Prediction Of Communist Economic Performance:**

The Prediction of Communist Economic Performance P. J. D. Wiles, 1971 This study represents attempts dating from 1967 by nine experts on Communist economics to forecast the performance of individual Communist countries These predictions provide a great deal of comparable information and make experimental use of elementary econometrical techniques which have rarely been applied to these countries before The book also contains as a unique feature criticism and self criticism of the predictions of 1967 here reproduced unchanged in the light of subsequent events A most valuable by product is the analytical comparison of planning procedures and of agricultural ownership country by country so that the differing progress of the reforms can be easily grasped

The Prediction of Communist Economic Performance P. J. F. Wiles, 1971 India's Economic Relations with the USSR and Eastern Europe 1953 to 1969 Asha L. Datar, 2010-06-10 The author traces the history of economic relations between India and the Soviet Union after they signed a treaty of mutual military protection in 1971 and draws conclusions on the advantages and disadvantages of the close ties of a developing country with the centrally planned economies

Economic Analysis of the Soviet-Type System Judith Thornton, 1976-08-05 Economics textbook presenting a formal description and economic analysis of the centrally planned economy of the type of the USSR economic system provides a representative survey of the main applications and techniques of national planning pertinent to the centralization type of planning and economic modelling etc Flow charts graphs references and statistical tables

*The Origins of the Stalinist Political System* Graeme Gill, Graeme J. Gill, 2002-07-18 New and challenging perspectives on Soviet political development from 1917 to 1941

**Latin America Through Soviet Eyes** Ilya Prizel, 1990-04-26 Latin America through Soviet Eyes provides an original and comprehensive assessment of changing Soviet perceptions of politics in Latin America during the Brezhnev years Dr Prizel surveys the views of Soviet academics and journalists as well as of politicians on three main areas

Vlasov and the Russian Liberation Movement Catherine Andreyev, 1987 Vlasov and the Russian Liberation Movement deals with the attempt by Soviet citizens to create a Russian anti Stalinist liberation movement during the Second World War These Soviet citizens were mainly prisoners of war forced labourers or part of the population of the occupied territories of the USSR The Liberation Movement was encouraged by German officers who disagreed with Nazi policy towards the USSR as their experience showed that treating the population as subhumans Untermensch merely increased resistance to Nazi occupation Throughout the development of the Liberation Movement there existed a divergence of aims between the Russian members who wished to form an army and a political movement which would effect change within the USSR and its German supporters who merely wished to alter the type of propaganda directed towards the population of the USSR Catherine Andreyev provides an account of the evolution of the Russian Liberation Movement and examines the motivation of the titular leader of the movement Lieutenant General Andrey Andreyevich Vlasov The main focus of the book is the ideology of the Liberation Movement the importance of which lies in the fact that it represented the first grass roots

opposition movement within the Soviet Union since the end of the Civil War in 1922 The programme of the Movement reflects issues which would have been raised by citizens in the 1930s had they been free to do so Catherine Andreyev examines influences on the programme and the ideas expressed are placed within the context of the pre war Soviet and Russian migr society

**The United Front** Daniel F. Calhoun, 2008-11-06 The book concerns the Soviet effort during the 1920s to make contact with and if possible revolutionize the European labour movement by first establishing a special relationship with the British Trades Union Congress The ultimate failure of that effort after the collapse of the general strike in 1926 inspired Trotsky to try one last time to oust Stalin a confrontation that led to utter collapse of the Trotskyite opposition in 1927-28 The author suggests the failure of this particular united front effort was a major factor in the sectarianism and isolationism of the Communist movement from 1928 to 1934 and thus had a significant affect on the rise of the Nazi party in Germany

**Advertising and socialism: The nature and extent of consumer advertising in the Soviet Union, Poland** Philip Hanson, 2017-07-28 This study looks at the tiny but growing volume of consumer advertising even in countries such as the Soviet Union which had detailed central planning and substantially more in the recently decentralised Hungarian economy and pre invasion Czechoslovakia And of course outside the Soviet orbit there was the relatively market oriented and Westernised Yugoslav economy This suggested that there were after all some interesting questions to answer Why did an administrative economy like the Soviet one have any domestic consumer advertising at all and why was it apparently growing What did evidence from Hungary and Yugoslavia suggest about the scale and functions of advertising in more decentralised socialist economies This title was first published in 1974

**The Struggle for Soviet Jewish Emigration, 1948-1967** Yaacov Ro'i, 2003-10-30 In this important 1991 study of Soviet Jewry Yaacov Ro'i examines the cultural social political and international context of the movement for emigration from the establishment of the state of Israel to the outbreak of the Six Day War A discussion of the lives of Soviet Jews based upon oral testimony shows how Jewish self awareness arose as a product of the Holocaust of the founding of the State of Israel and of popular antisemitism and Soviet policy and how local groups developed in clandestine conditions to sustain Jewish cultural interests The author also analyses the campaign conducted in the West on behalf of Soviet Jewish rights as a whole and emigration in particular By 1967 Soviet Jewish efforts to maintain even a minimal Jewish existence seemed doomed to constant frustration and most nationalistically minded Jews accepted that the only way of fulfilling their aspirations was to emigrate to Israel

**The Czechoslovak Economy 1948-1988** Martin Myant, 1989-09-29 Dr Myant presents a detailed account of the development and performance of the Czech economy over a period of forty years and reveals the problems and tensions created by the chosen system of centralised planning Dr Myant's conclusion is that any economic reform will have little substance unless accompanied by appropriate political change

**The Czechoslovak Reform Movement** Galia Golan, 1971-11-30 The Prague Spring was but the climax of a long intensive struggle waged within the Czechoslovak party and society since 1956

Macroeconomic Planning Roger Bowles, David Whynes, 2015-09-25 This volume originally published in 1979 examines systematically the nature of control in both capitalist and socialist economies develops a theoretical and applied framework which can embrace both macroeconomics and planning and demonstrates the essential unity of all forms of macroeconomic planning by the consistent application of basic economic principles Firstly the authors establish why societies feel a need for government control and examine the mechanisms by which such social decisions are reached Next they examine the nature of economic data the modelling of economic systems and a review of practical policy goals and instruments The book then reviews the basic theory of optimisation and elaborates it in the context of planning for growth for stabilisation and under uncertainty It closes with an analysis of practical planning based on French and Soviet experience *The Planned*

*Economies and International Economic Organizations* Jozef M. Brabant, 1991-04-26 This is the first comprehensive study of the role of socialist countries within the international economic order The author presents an overview of the emergence of the postwar economic order and examines the key features of three kinds of centrally planned economies He then analyzes the role of financial frameworks and the international trade system in ensuring smooth economic relations among market type economies and he details the problems of associating typical CPEs within them Finally Jozef van Brabant explores the possibility of reconstituting a multilateral economic order that can provide greater security predictability stability and reliability in international economic relations *The Planned Economies and International Economic Organizations* is written at a time when the Soviet Union and other centrally planned economies are seeking closer links with the mainstream world economy It will therefore be of interest to governments and institutional economists as well as to students and specialists of Soviet and East European studies international relations and comparative economics **Soviet Strategic Arms Policy**

**Before SALT** Christoph Bluth, 1992-03-12 In this book Dr Christoph Bluth presents an original analysis of the build up of Soviet strategic forces from the death of Stalin to the SALT I agreement The author is able to demonstrate how domestic priorities and internal power struggles account for the seeming inconsistencies of Soviet military and foreign policy

*Internationalism and the Ideology of Soviet Influence in Eastern Europe* Jonathan C. Valdez, 1993-04-29 Valdez argues that the use of the fundamental principles of Marxism Leninism to perform various functions ultimately brought about a change in the basic assumptions of the theory itself This resulted in the abandonment of the previous insistence on a universal model of socialism and of the idea that the international interests of the socialist bloc must take precedence over individual national interest Soviet influence in Eastern Europe rested on little else than these ideological principles and consequently stood little chance of surviving their re interpretation Finally Valdez assesses the re interpretation of the fundamental principles of Soviet East European relations by reformist scholars in the Soviet Union and the response by conservative members of the party apparatus *Political Authority and Party Secretaries in Poland, 1975-1986* Paul G.

Lewis, 1989-06-08 This book deals with the changing position and role of the Polish United Workers Party and its apparatus

between 1975 and 1986 Their role and the way they perform it is seen as a major determinant of the nature of party leadership and more generally of the strength of political authority in communist states      **The Bread of Affliction** William Moskoff, 2002-08-08 This book tells how the Soviet Union fed itself after the invasion by the Germans during World War II The author argues that central planning became much less important in feeding the population and civilians were thereby forced to become considerably more self reliant in feeding themselves A rationing system was instituted soon after the war began but quickly became irrelevant because of the chronic food shortages The breakdown in central supplies of food was accompanied by the diminished importance of the ruble which in many places was replaced by bread and clothing as the medium of exchange Although the Soviet army was given high precedence over civilians the author also shows that the population living under German occupation was much worse off than were Soviet civilians living in the rear In addition to extensive use of American and German archives from the war period the author interviewed more than thirty Soviet emigr s who survived the war      **Poland's Journalists** Jane Leftwich Curry, 1990-02-22 Originally published in 1990 Polish Journalists Professionalism and Politics is a study of how in the face of constant political instructions and restrictions Polish journalists act as independent forces in their society      Soviet Policy Towards South Asia Since 1970 Linda Racioppi, 1994-04-07 This book seeks to understand the evolution of Soviet policy towards the countries of South Asia the regional constraints and policy opportunities which influenced the policy process in Moscow and the relationship between Soviet perceptions and policy objectives The author divides Soviet foreign policy into three aspects a perceptual aspect in which assessment of the regional and international environment occurs a formulative aspect in which aims and strategies are developed and an implementation aspect The book analyses Soviet policy objectives and instruments in distinct historical phases 1970 1978 which covers the Indo Pakistani War and bilateral relations 1979 1985 which covers the Soviet invasion of Afghanistan and its impact on regional politics and 1985 to the present which examines the Gorbachev era and the withdrawal from Afghanistan
