The Prehistory Of Polynesia:

The Prehistory of Polynesia Jesse David Jennings, 1979 *The Prehistory of Polynesia* Jesse D. Jennings, 1979 **The Prehistoric Exploration and Colonisation of the Pacific** Geoffrey Irwin, 1992 The exploration and colonisation of the Pacific is a remarkable episode of human prehistory Early sea going explorers had no prior knowledge of Pacific geography no documents to record their route no metal no instruments for measuring time and none for exploration Forty years of modern archaeology experimental voyages in rafts and computer simulations of voyages have produced an enormous range of literature on this controversial and mysterious subject This book represents a major advance in knowledge of the settlement of the Pacific by suggesting that exploration was rapid and purposeful undertaken systematically and that navigation methods progressively improved Using an innovative model to establish a detailed theory of navigation Geoffrey Irwin claims that rather than sailing randomly downwind in search of the unknown Pacific Islanders expanded settlement by the cautious strategy of exploring upwind so as to ease their safe return The author has tested this hypothesis against the chronological data from archaeological investigation with a computer simulation of demographic and exploration patterns and by sailing throughout the region himself *Polynesia in Early Historic Times* Douglas L. Oliver, 2002 This book presents a comprehensive and balanced description of major aspects of Polynesian cultures using both the accounts of the European discoverers and the up to date writings of archaeologists and anthropologists **BOOKJACKET** *Hawaiki, Ancestral Polynesia* Patrick Vinton Kirch, Roger C. Green, 2001-03-15 The power of an anthropological approach to long term history lies in its unique ability to combine diverse evidence from archaeological artifacts to ethnographic texts and comparative word lists In this innovative book Kirch and Green explicitly develop the theoretical underpinnings as well as the particular methods for such a historical anthropology Drawing upon and integrating the approaches of archaeology comparative ethnography and historical linguistics they advance a phylogenetic model for cultural diversification and apply a triangulation method for historical reconstruction They illustrate their approach through meticulous application to the history of the Polynesian cultures and for the first time reconstruct in extensive detail the Ancestral Polynesian culture that flourished in the Polynesian homeland Hawaiki some 2 500 years ago Of great significance for Oceanic studies Kirch and Green s book will be essential reading for any anthropologist prehistorian linguist or cultural historian concerned with the theory and method of long term history **The Prehistory of Rapa Nui (Easter Island)** Valentí Rull, Christopher Stevenson, 2022-07-11 This book addresses the main enigmas of Easter Island s Rapa Nui in the Polynesian language prehistory from the time of initial settlement to European contact with a multidisciplinary perspective The main topics include i the time of first settlement and the origin of the first settlers ii the main features of prehistoric Rapanui culture and their changes iii the deforestation of the island and its timing and causes iv the extinction of the indigenous biota v the occurrence of climatic shifts and their potential effects on socioecological trends vi the evidence for a cultural and demographic collapse before European contact

and vii the influence of Europeans on prehistoric Rapanui society The book is subdivided into thematic sections and each chapter is written by renowned specialists in disciplines such as archaeology anthropology paleoecology ethnography linguistics ethnobotany phylogenetics phylogeography and history Contributors have been invited to provide an open and objective vision that includes as many views as possible on the topics considered In this way the readers may be able to compare different of points of view and make their own interpretations on each of the subjects considered The book is intended for a wide audience including graduate students advanced undergraduate students university teachers and researchers interested in the subject Given its multidisciplinary character and the topics included the book is suitable for students and researchers from a wide range of disciplines and interests **The Polynesians** Peter S. The Ancient Hawaiian State Robert J. Hommon, 2013-04-25 The well known list of cradles of civilization primary states from which all modern nation states ultimately derive has traditionally been limited to Egypt Mesopotamia the Indus Valley China Mesoamerica and Andean South America However by drawing on archaeological and ethnohistorical sources Robert J Hommon demonstrates that Polynesia with primary states in both Hawaii i and Tonga should be added to that list The Ancient Hawaiian State offers a history of the ancient Hawaiians transformation of their Polynesian chiefdoms into primary state societies The emergence of primary states is one of the most revolutionary transformations in human history and Hawai i s metamorphosis was so profound that in some ways the contact era Hawaiian states bear a closer resemblance to our world than to that of their closely related Eastern Polynesian contemporaries In contrast to the other six regions in which states emerged in the distant proto or pre literate past the transformation of Hawaiian states is documented in an extensive body of oral traditions preserved in written form a rich literature of early post contact eyewitness accounts by participants and Western visitors as well as an extensive archaeological record Tracing the roots and emergence of the Hawaiian states this innovative study offers a detailed model that will advance the analysis of Polynesian political development and shed light on the nature and dynamics of primary state formation
