Wilson, 2003 The true measure of a nation's worth in this great family of nations is proportionate to that nation's contribution to the welfare and happiness of the whole Similarly an individual is measured by the contributions he or she makes to the well being of the community in which he or she lives If inventions therefore have played the important part here assigned to them in the gradual development of our complex national life it becomes important to know what contributions the African American has made to the inventive skill of this country In this book you will learn that the African American has contributed a disproportionate amount of creativity and resourcefulness on a list of more than 1100 U S Patents for inventions ranging from the propeller the gas mask air conditioning pain relieving drugs heart pace maker controls and cellular phones to the elevator rapid fire guns nuclear reactors and three stage rockets Throughout their long history African Americans have created a rich complex and highly diverse culture laced with outstanding role models who have helped make America the strongest country in the world

Americans have consistently shown resilience creativity and a determination to overcome They have made significant contributions to American society in every field from politics to the arts to science and technology Yet the legacy of slavery and discrimination continues to cast a shadow over the lives of African Americans today Racial disparities persist in education housing employment and criminal justice African Americans are more likely to live in poverty to be unemployed and to be incarcerated than their white counterparts Paths of Freedom is a call to action It is a reminder that the fight for racial justice is not just a black issue but a human issue It is a call for all Americans to come together and build a more just and equitable society for all This book is a valuable resource for anyone who wants to learn more about African American history and the ongoing struggle for racial justice It is a story of pain and suffering but it is also a story of hope and resilience It is a story that needs to be told and retold so that we can all learn from the past and work together to create a better future If you like this book write a review on google books
