The Primitive City of Timbuctoo Horace Mitchell Miner, 1953 **The Primitive City of Timbuctoo** Miner, 1953 The Primitive City of Timbuctoo Horace Mitchell Miner, 1953 "The" Primitive City of Timbuctoo Horace Mitchell Urbanization and Social Change in West Africa Josef Gugler, William Flanagan, 1978-07-28 Originally published in 1978 as part of the Urbanization in Developing Countries series this is an interdisciplinary study of rapid urban growth in West Africa Gugler and Flanagan first explore the history of the cities of the early West African empires and they draw on the work of social anthropologists and sociologists as well as demographers economists geographers historians political scientists and social psychologists They then describe the urban explosion that the region experienced after World War II They explore the implications of widespread urban unemployment and underemployment the housing crisis and the emergence of metropolitan areas such as Lagos The literature on urbanization and social change in Black Africa in general and West Africa in particular expanded at a fast pace in the years preceding publication This critical review of the disparate findings filled a gap in African Studies and threw light on the understanding of Third World urbanization The Primitive City of Timbuctoo Horace Mitchell Miner, Social History of Timbuktu Elias N. Saad, 1983-07-14 Originally published in 1983 this book deals with the precolonial history of the Islamic West African city of Timbuktu The book traces the fortunes of this fabled city from its origins in the twelfth century and more especially from around 1400 onwards to the French conquest in the late nineteenth century The study rests upon a comprehensive utilisation of the Timbuktu sources including the well known chronicles or tarikhs of Timbuktu The author focuses on the role of scholars and in so doing he provides a fresh study of a learned community in sub Saharan Africa Additionally the study shows that the scholars occupied a position of leadership and authority in the social structure of the city Hence in providing fuller understanding of the role of scholars and their status as notables the work makes it possible to understand the enigma which has surrounded this extraordinary city throughout its history It contributes an important perspective for historians of Africa the Middle East and Islam
