## **The Principle Of Duty An Essay On The Foundations Of The Civic Order:**

**The Principle of Duty** David Selbourne,1997      **Same Sex Intimacies** Catherine Donovan,Brian Heaphy,Jeffrey Weeks,2003-09-02 Our families are increasingly a matter of choice and the choices are widening all the time This is particularly true of the non heterosexual world where the last ten years have seen a popular acceptance of same sex partnerships and to a lesser extent of same sex parenting Based on extensive interviews with people in a variety of non traditional relationships this fascinating new book argues that these developments in the non heterosexual world are closely linked to wider changes in the meaning of family in society at large and that each can cast light on the other Same Sex Intimacies gives vivid accounts of the different ways non heterosexual people have been able to create meaningful intimate relationships for themselves and highlights the role of individual agency and collective endeavour in forging these roles as friends partners parents and as members of communities This topical book will provide compelling reading for students of the family sexuality and lesbian and gay studies      **Mutualism and Health Care** Martin Gorsky,John Mohan,Tim Willis,2013-07-19 Mutualism and health care newly available in paperback presents the first comprehensive account of a major innovation in hospital funding before the NHS The voluntary hospitals which provided the bulk of Britain s acute hospital services diversified their financial base by establishing hospital contributory schemes Through these working people subscribed small regular amounts to their local hospitals in return for which they were eligible for free hospital care The book evaluates the extent to which the schemes were successful in achieving comprehensive coverage of the population funding hospital services and broadening opportunities for participation in the governance of health care and for the expression of consumer views It then explores why the option of funding the post war NHS through mass contribution was rejected and traces the transformation of the surviving schemes into health cash plans This is a substantial investigation into the attractions and limitations of mutualism in health care It is highly relevant to debates about organisational innovations in the delivery of welfare services      Democracy, Citizenship and the Global City Engin F. Isin,2013-04-15 Democracy Citizenship and the Global City focuses on the controversial neglected theme of citizenship It examines the changing role of citizens their rights obligations and responsibilities as members of nation states and the issue of accountability in a global society Using this interdisciplinary approach the book offers an innovative collection of work from Robert A Beauregard Anna Bounds Janine Brodie Richard Dagger Gerard Delanty Judith A Garber Robert J Holton Warren Magnusson Raymond Rocco Nikolas Rose Evelyn S Ruppert Saskia Sassen Bryan S Turner John Urry Gerda R Wekerle and Nira Yuval Davis

**Handbook of Citizenship Studies** Engin F Isin,Bryan S Turner,2002-08-16 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women s rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend

has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include *Being Political* Genealogies of Citizenship Minnesota 2002 and with P K Wood *Citizenship and Identity* Sage 1999 He is the Managing Editor of *Citizenship Studies* Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in *Citizenship and Capitalism* Unwin Hyman 1986 and *Citizenship and Social Theory* Sage 1993 He is also the author of *The Body and Society* Sage 1996 and *Classical Sociology* Sage 1999 and has been editor of *Citizenship Studies* since 1997

**The Spirit of New Socialism and the End of Class-based Politics** Robert Corfe, 2005 Changes in society over the past 50 years call for a new type of Socialism and this book presents a striking new dynamic to attract the 90 per cent majority in the industrialised economies of today

Class, Self, Culture Beverley Skeggs, 2013-11-05 *Class Self Culture* puts class back on the map in a novel way by taking a new look at how class is made and given value through culture It shows how different classes become attributed with value enabling culture to be deployed as a resource and as a form of property which has both use value to the person and exchange value in systems of symbolic and economic exchange The book shows how class has not disappeared but is known and spoken in a myriad of different ways always working through other categorisations of nation race gender and sexuality and across different sites through popular culture political rhetoric and academic theory In particular attention is given to how new forms of personhood are being generated through mechanisms of giving value to culture and how what we come to know and assume to be a self is always a classed formation Analysing four processes of inscription institutionalisation perspective taking and exchange relationships it challenges recent debates on reflexivity risk rational action theory individualisation and mobility by showing how these are all reliant on fixing some people in place so that others can move

Central Asia Rein Mullerson, 2014-04-04 This is an important analysis of a key but little known region in the wider context of world politics Central Asia has huge oil and gas resources divided between five independent states Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan each with their own problems and

interests The region is energy rich and being situated between Russia and China and close to Afghanistan and other potential trouble spots it has acquired immense geo strategic importance History is seen and felt everywhere Old legacies whether they go back to Genghis Khan or stem from the recent Soviet past have a profound effect on contemporary issues and political choices Concentrating on today s problems against a complex historical background the book draws on the author s extensive involvement with the region Considerable attention is paid to Central Asian Islam human rights issues in the region and Central Asia s place in the war against terrorism *The Jesus You Really Didn't Know* Andy Angel,2019-09-09 The problem with too much Christianity today is that we replace the person of Jesus with a doctrine of grace Living in denial of Jesus teaching on judgment and holiness too many Christians take refuge from the sayings of Jesus in doctrines of forgiveness that they hope will bolster up their sense of self worth before God Andy Angel tackles this dysfunctional spirituality head on opening up the journey of learning and love into which the living Lord Jesus invites us all Unpacking the Gospel of Matthew he encourages us to rediscover the teaching ministry of Jesus in our own lives and in doing so to recover the riches and freshness of the gospel message and to rediscover the depths of love Jesus has for each one of us Crown Powers, Subjects and Citizens Christopher Vincenzi,1998-01-01 Crucial decisions are often made under the royal prerogative in relation to defence foreign policy immigration the secret services and the management of the Civil Service without prior Parliamentary approval adequate political accountability or effective judicial review On this basis ministers withhold passports override statutes and legislate in the Council of Ministers of the European Community This text examines the historical development and the legal and political scope of prerogative powers and Crown immunities as they affect the exercise of rights by citizens and non citizens It traces the changing relationship between individual and state from subjecthood and allegiance to the Crown in a secretive state to participating in legal and political citizenship in an open society and a widening British and European context It addresses issues of key importance in the current constitutional debate about political and legal accountability citizenship and human rights *The Changing Family and Child Development* Claudio Violato,Elizabeth Oddone-Paolucci,2017-11-22 This title was first published in 2000 This book is based on selected papers from a major international congress of the same name that was held at the University of Calgary in July 1997 The contributors come from Canada England Italy United States Hong Kong and New Zealand where they are researchers at major universities The papers are organized into four sections 1 Context of Families 2 Family Adjustment and Transitions 3 Child and Adolescent Development and Attachment The book sets out to bring together advanced research by psychologists social workers physicians sociologists and other social scientists on the interface between society the family children adolescents and other family members **The Losing Battle With Islam** David Selbourne,2010-09-09 In this comprehensive study of the Islamic revival from 1947 to the present historian David Selbourne traces in detail the complex causes motivating the rise of Muslim fundamentalism in many countries and the West s largely uncomprehending response to

it He frankly describes the hostilities cruelties and errors of judgment on both sides Writing neither from the left nor from the right Selbourne pieces together up to date information from more numerous sources than in any other work on the subject He highlights the grotesque role that some sections of the Western media have played and seeks to do justice to the Islamist cause demonstrating how many of the real issues of the Islamic revival have been evaded Selbourne argues that whether the reawakening of the Islamic and Arab worlds has taken the political form of Arab nationalism as under the leadership of Egyptian President Gamal Abdul Nasser in the 1950s or the economic form of the OPEC oil embargo in 1973 and 1974 or the religious form of the Iranian revolution of 1989 and the present al Qaeda suicide squads in all its guises it is motivated by a sense of entitlement in Muslims to determine their own destiny free of Western subordination Selbourne concludes with a warning against the illusions of the West about its superiority and ability to contain a force that is confident of its own moral superiority and certain of its ultimate triumph Addressed both to general readers and to policy makers academics and journalists *The Losing Battle with Islam* will stand for some time as one of the most impartial and authoritative accounts of a half century of Western conflict with Islam     *Dignity and International Human Rights Law* Brett Scharffs, Ewelina Ochab, 2021-10-25 The Punta del Este Declaration and this book dedicated to elaborating upon it is devoted to exploring the ways that human dignity for everyone everywhere can be a useful tool in helping to address the challenges and strains facing human rights in the world today In 2018 an initiative was instigated to revitalize the human rights project by way of engaging the notion of human dignity This resulted in the Punta Del Este Declaration on Human Dignity for Everyone Everywhere Punta Del Este Declaration a declaration co authored by over 30 human rights experts from all over the world The Punta Del Este Declaration simplifies and brings coherence to the concept of human dignity in 10 brief statements that capture the many dimensions and aspects of human dignity and the practical ways that human dignity is useful in the promotion of human rights This book provides an overview of how the notion of human dignity has been used to strengthen human rights It discusses how human dignity plays many different roles in human rights discourse and has the force to revitalize the human rights project it is the foundational principle upon which the human rights project is built But it is also the telos or end goal of human rights At the same time it is an important evaluative mechanism for assessing how well a country is doing in the implementation of human rights The book will be a valuable resource for all those working in the areas of International Human Rights Law Legal Philosophy and Law and Religion     *Regime Change* Rein Mullerson, 2013 Taking a historical and comparative perspective the book analyses current attempts of regime change in various parts of the world their intended and unintended consequences as well as moral legal and political aspects of external interference in internal processes     *Communitarianism in Law and Society* Paul van Seters, 2006 In this new collection of essays Paul van Seters brings together an international group of scholars from diverse academic backgrounds to reflect upon the remarkable rise of communitarianism in contemporary studies of law and society These essays critically assess the communitarian

perspective in order to gain a more systematic insight into its distinctive constraints and the special opportunities it provides

**Communication Ethics and Universal Values** Clifford G. Christians, Michael Traber, 1997-01-28 This volume is designed to revolutionize the field of communication by identifying a broad ethical theory which transcends the world of mass media practice to reveal a more humane and responsible code of values The contributors representing a diverse range of intercultural perspectives defend the possibility of universal moral imperatives such as justice reciprocity and human dignity Through an examination of the values in which their cultures are grounded they provide a short list of ethical principles which form the common ground from which to view contemporary issues in the media interpersonal communication mediation and conflict resolution

*A Matter of Choice* Philip Hodgkiss, 2022-01-01 A Matter of Choice represents a substantive discussion of the concept of choice in human affairs taken against the backdrop of ethics and religion Drawing on a range of contributions Hodgkiss demonstrates in this study that though often not the primary issue under consideration a concern with choice has featured continually in human thought from the Hellenistic world of the Stoics to the post Kantian environment of modern philosophy Moreover he argues that the social and historical dimension of choice has been consistently underplayed and that the role of choice in modern economic and political developments is underestimated at our peril Through a critical account of the literature Hodgkiss adeptly diagnoses the insufficiency of the current conception of the choice making sovereign individual in the contemporary liberal democratic capitalist context and outlines the implications of this philosophy for the choice maker

**Markets in Historical Contexts** Mark Bevir, Frank Trentmann, 2004-02-12 Markets in Historical Contexts is the result of a dialogue between historians and social scientists thinking about markets in modern society How should we approach markets after the collapse of Marxism What alternative ways of thinking about markets can we recover from the past The essays in this volume set out to challenge essentialist accounts of the market Instead they suggest that markets are always embedded in distinctive traditions and practices that shape the ways in which they are conceived and the manner of their working The essays range widely over European and non European societies from the eighteenth century to the present from the great transformation to globalization Rational peasants republican economists popular conservatives guild theorists early environmentalists communitarians progressives consumers Gandhi s descendants and others are all revived The volume thus recovers alternative ways of thinking about markets many of which are neglected or marginalized in contemporary debates

The activation dilemma Moreira, Amilcar, 2008-06-20 The activation of social welfare recipients has been and still is a central issue in the development of social and employment policies in Europe This ambitious book explores the employment effectiveness of minimum income schemes and provides the first comprehensive examination of its dependency on how the rights and obligations of the recipients are defined The book argues that the right to a minimum income can only be adequately justified with reference to the individual s right to personal development Combining political theory and policy analysis the author draws on evidence

from eight different European countries to illustrate how it is possible to combine higher levels of employment effectiveness with the respect for recipients right to personal development Exploring the balance between fairness and effectiveness in the activation of minimum income recipients and acknowledging that individuals have both rights and obligations this book will provide a useful reference tool to students researchers and policy makers with an interest in the work versus welfare nexus

**Class, Politics, and the Decline of Deference in England, 1968-2000** Florence Sutcliffe-Braithwaite, 2018-03-01 In late twentieth century England inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people s narratives about social change and their own identities throughout the period 1968 2000 but in changing ways Using self narratives drawn from a wide range of sources the raw materials of sociological studies transcripts from oral history projects Mass Observation and autobiography the book examines class identities and narratives of social change between 1968 and 2000 showing that by the end of the period class was often seen as an historical identity related to background and heritage and that many felt strict class boundaries had blurred quite profoundly since 1945 Class snobberies went underground as many people from all backgrounds began to assert that what was important was authenticity individuality and ordinariness In fact Sutcliffe Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of the decline of deference which transformed people s attitudes towards class and towards politics The study also examines the claim that Thatcher and New Labour wrote class out of politics arguing that this simple and highly political narrative misses important points Thatcher was driven by political ideology and necessity to try to dismiss the importance of class while the New Labour project was good at listening to voters particularly swing voters in marginal seats and echoing back what they were increasingly saying about the blurring of class lines and the importance of ordinariness But this did not add up to an abandonment of a majoritarian project as New Labour reoriented their political project to emphasize using the state to empower the individual
