The Principle Upanisads Muirhead Library Of Philosophy Ser:

The Ambedkar-Gandhi Debate Bindu Puri, 2022-02-22 This book reconstructs the philosophical issues informing the debate between the makers of modern India Ambedkar and Gandhi At one level this debate was about a set of different but interconnected issues caste and social hierarchies untouchability Hinduism conversion temple entry and political separatism The introduction to this book provides a brief overview of the engagements and conflicts in Gandhi and Ambedkar s central arguments However at another level this book argues that the debate can be philosophically re interpreted as raising their differences on the following issues The nature of the self The relationship between the individual self and the community The appropriate relationship between the constitutive encumbrances of the self and a conception of justice The relationship between memory tradition and self identity Ambedkar and Gandhi s contrary conceptions of the self history itihaas community and justice unpack incommensurable world views These can be properly articulated only as very different answers to questions about the relationship between the present and the past This book raises these questions and also establishes the link between the Ambedkar Gandhi debate in the early 20th century and its re interpretation as it resonates in the imagination and writing of marginalized social groups in the present times *Books in Print* ,1961 **Religious**
